**NCVS Select - Personal
Population**

**NCVS Select - Personal
Victimization**

1993–2021

Last Updated September 2022

The National Crime Victimization Survey (NCVS) is the nation's primary source of information on criminal victimization. Each year, data are obtained from a nationally representative sample of about 240,000 persons in about 150,000 households. Persons are interviewed on the frequency, characteristics, and consequences of criminal victimization in the United States.

The NCVS collects information on nonfatal personal crimes (i.e., rape or sexual assault, robbery, aggravated and simple assault, and personal larceny) and household property crimes (i.e., burglary/trespassing, motor-vehicle theft, and other types of theft) both reported and not reported to the police. Survey respondents provide information about themselves (e.g., age, sex, race and Hispanic origin, marital status, education level, and income) and whether they experienced a victimization.

The NCVS was designed with four primary objectives: (1) to develop detailed information about the victims and consequences of crime, (2) to estimate the number and types of crimes not reported to the police, (3) to provide uniform measures of selected types of crimes, and (4) to permit comparisons over time and types of areas. Beginning in 1992, the survey categorizes crimes as "personal" or "property."

Each respondent is asked a series of screener questions designed to determine whether she or he was victimized during the 6-month period preceding the first day of the month of the interview. The data include type of crime, location of the crime, relationship between victim and offender, characteristics of the offender, and whether the crime was reported to police.

Basic demographic information such as age, race, gender, and income are also collected to enable analysis of crime by various subpopulations.

NCVS Select datasets offer a curated set of variables collected through the NCVS. The complete set of variables and additional documentation are available through the public use data files in the National Archive of Criminal Justice Data (<https://www.icpsr.umich.edu/web/NACJD/series/95>).

This codebook contains variable names, variable descriptions, values, and value labels for variables in both the NCVS Select personal victimization and personal population datasets.

NCVS Select – Personal Population contains demographic information of respondents. All respondents, regardless of whether they reported a personal crime victimization, are included in this file.

NCVS Select – Personal Victimization contains personal crime victimizations. Personal crimes include rape and sexual assault, robbery, aggravated and simple assault, and personal theft/larceny (purse snatching/pocket picking). Persons that did not report a personal crime victimization are not included in this file. Victimizations that took place outside of the United States are excluded from this file.

These datasets use a collection year basis for 1993-2021. A collection year contains records from interviews conducted from January through December of the given year. Under the collection year format, victimizations are counted in the year the interview is conducted, regardless of when the crime incident occurred. For more information on the NCVS, please visit <https://bjs.ojp.gov/programs/ncvs>. For questions regarding this dataset, please contact askbjs@usdoj.gov.

NCVS Select –Personal Population

Descriptive name	Short description	Variable name	Values	Value labels
Person ID	Unique person identifier	idper	Unique identifier	N/A
Year and quarter	Year and quarter data was collected	yearq	YYYY.Q	N/A
Year	Year data was collected	year	1993-2021	N/A
Age	Respondent age on the last day of the month before the interview	ager	1 2 3 4 5 6	12-17 18-24 25-34 35-49 50-64 65 or older
Sex	Respondent sex	sex	1 2	Male Female
Hispanic origin	Respondent Hispanic origin	hispanic	1 2 88	Hispanic Non-Hispanic Residue
Race	Respondent race	race	1 2 3 4 5	White Black American Indian/ Alaska Native Asian/Native Hawaiian/Other Pacific Islander More than one race
Race/ethnicity	Respondent race and Hispanic origin	race_ethnicity	1 2 3 4 5 6	Non-Hispanic white Non-Hispanic black Non-Hispanic American Indian/ Alaska Native Non-Hispanic Asian/ Native Hawaiian/ Other Pacific Islander Non-Hispanic more than one race Hispanic

NCVS Select –Personal Population

Descriptive name	Short description	Variable name	Values	Value labels
Annual household income	Total income of all members of the household for the 12 months preceding the interview. Categories available from 1993-2021 with imputed data, starting 2015 Q1.	hincome1	1 2 3 4 5 6 7 88	Less than \$7,500 \$7,500 to \$14,999 \$15,000 to \$24,999 \$25,000 to \$34,999 \$35,000 to \$49,999 \$50,000 to \$74,999 \$75,000 or more Unknown
Annual household income- imputed	Imputed income categories, starting 2017 Q1	hincome2	-1 1 2 3 4 5	Invalid until 2017 Q1 Less than \$25,000 \$25,000 to \$49,999 \$50,000 to \$99,999 \$100,000 to \$199,999 \$200,000 or more
Marital status	Respondent marital status	marital	1 2 3 4 5 88	Never married Married Widowed Divorced Separated Residue
Population size	The size range for the place in which the housing unit is located, starting 1995 Q3	popsize	-1 0 1 2 3 4 5	Invalid until 1995 Q3 Not a place Under 100,000 100,000-249,999 250,000-499,999 500,000-999,999 1 million or more
Region	Region of respondent residence. The states have been divided into four groups or census regions, starting 1995 Q3.	region	-1 1 2 3 4	Invalid until 1995 Q3 Northeast Midwest South West
Household MSA	Classification of respondent residence based on the Office of Management and Budget definition of metropolitan statistical areas (MSAs)	msa	1 2 3	Principal city within MSA Not part of principal city within MSA Outside MSA

NCVS Select –Personal Population

Descriptive name	Short description	Variable name	Values	Value labels
Household locale	Location of household based on BJS geography definitions, starting 2020 Q1	locality	-1 1 2 3	Invalid until 2020 Q1 Urban Suburban Rural
Education level	Respondent level of education	educatn1	1 2 3 4 5 88	No schooling Grade school Middle school High school College Residue
Education level	Respondent level of education, starting 2003 Q1	educatn2	-1 1 2 3 4 5 6 7 8 98	Invalid until 2003 Q1 No schooling Grade school Middle school Some high school High school graduate Some college and associate degree Bachelor’s degree Advanced degree Residue
Veteran status	Respondent veteran status, starting in 2017	veteran	-2 -1 0 1 8 9	Invalid until 2017 Q1 Under age 18 Not a veteran Veteran Residue Out of universe
Citizenship status	Respondent citizenship status, starting 2017 Q1	citizen	-1 1 2 3 8 9	Invalid until 2017 Q1 Born U.S. citizen Naturalized citizen Non-U.S. Citizen Residue Out of universe
Person population weight	Population weight to use on person population data	wgtperc	numeric	N/A

NCVS Select –Personal Victimization
