LARRY WALLACE
DIRECTOR

March 8, 1993

Ladies and Gentlemen,

In 1989, the General Assembly of the State of Tennessee enacted the "College and University Security Information Act" (Public Chapter No. 317). Pursuant to the provisions of this Act, this is the third annual report published by the Tennessee Bureau of Investigation in conjunction with all institutions of higher education which participate in the reporting program. An annual report was not published for calendar year 1991 due to budget restraints but individual institutions' reports are available on a request basis from the TBI's Statistical Analysis Center. This report portrays the nature, volume, and extent of crime occurring on the campuses and housing of Tennessee colleges and universities for the calendar 1992.

The threats brought on society through criminal activity cannot be addressed solely by law enforcement agencies; joint efforts from every law-abiding citizen are required as well. This report will hopefully assist law enforcement, institution administrations, and government officials in adjusting their efforts in the fight against crime and create an awareness within the general public that crime does exist as a threat to our communities requiring attention from every segment of society.

I wish to express my appreciation to all institutions of higher education which consistently support a unified crime reporting program for Tennessee. The Bureau urges all Tennesseans to continue to cooperate in reporting crime and in applying effective crime prevention strategies.

Sincerely,

Larry Wallace
Director

I. Introduction

The "Crime On Campus" reporting program is operated pursuant to the requirements of the "College and University Security Information Act," (Public Chapter No. 317) enacted by the General Assembly of the State of Tennessee, effective July 1, 1989. The Act requires each institution of higher education to report to the Tennessee Bureau of Investigation data relating to crimes occurring on the campus and student housing. The Bureau is required to prescribe the reporting form and format for the collection of such data and to publish an annual report of the results of such data submissions from each institution.

The primary objective of the reporting program is to inform the Governor, the State and Local Government Committees and the Education Committees of the Tennessee House of Representatives and Senate, the General Assembly, other government officials, and the public as to the nature and extent of crime on the campuses of Tennessee's institutions of higher education. Such a report will also provide law enforcement administrators with criminal statistics for administrative and operational purposes.

An explanation of each offense category that has been quantified either in Part I or Part II classifications is given and a report is provided that summarizes the crime statistics that have been reported by each institution. The reporting period for these statistics includes the twelve months of 1992. The final report summarizes the information provided from the monthly report forms for the columns labeled "Actual Offenses", "Offenses Cleared," and "Clearances Involving Only Persons Under 18 Years of Age." From these data, a crime rate has been calculated for each offense in both Part I and Part II categories. An explanation of the rate calculations is provided in the sections that follow.

Calculation of Rates

A. Crime Rate

Campus Population data is tabulated, as shown on the individual institution summaries which follow, based on the 1992 Fall term campus population. Such population data takes into account all full time equivalent (FTE) undergraduate and graduate student population, staff personnel, faculty personnel, and security personnel. The rate is calculated per offense category by computing the number of offenses per 1,000 persons included in the campus population, and is computed using the following formula:

$$\text{Crime Rate} = \frac{\text{Offenses Reported}}{\text{Total Campus Population}} \times 1,000$$

B. Clearance Rate

The percentage of offenses which were cleared is the ratio of "Offenses Cleared" to "Actual Offenses Reported," expressed as a percentage, and is computed using the following formula:

$$\% \text{ Cleared} = \frac{\text{Offenses Cleared}}{\text{Offenses Reported}} \times 100$$

II. Institution Summary Reports

Individual Summary Reports for each institution of higher education follow. Each report summarizes the data for the period of January through December, 1992, unless otherwise noted. This report reflects fall term campus population and summarizes the monthly reports. The cumulative monthly total from the reports was used to calculate a crime rate and clearance rate for each offense in both Part I and Part II categories.
