Eligible states and tribes may receive grant funding to improve the completeness, automation, and transmittal of records to state and federal systems.

This solicitation incorporates the OJP Grant Application Resource Guide by reference. The OJP Grant Application Resource Guide provides guidance to applicants to prepare and submit applications to OJP for funding. **If this solicitation expressly modifies any provision in the OJP Grant Application Resource Guide, the applicant is to follow the guidelines in this solicitation as to that provision.**

**Solicitation Categories**

This solicitation does not include Solicitation Categories.

**Other**

- The agency designated by the Governor in each state to administer the National Criminal History Improvement Program (34 U.S.C. § 40301)
- The state or territory central administrative office or similar entity designated by statute or regulation to administer federal grant funds on behalf of the jurisdiction’s court system

To advance Executive Order 13929 Safe Policing for Safe Communities, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved independent credentialing body or have started the certification process, to be eligible for FY 2022 DOJ discretionary grant funding. To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency’s use-of-force policies adhere to all applicable federal, state, and local laws and (2) the agency’s use-of-force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a sub-award. For detailed information on this certification requirement, please visit [https://cops.usdoj.gov/SafePolicingEO](https://cops.usdoj.gov/SafePolicingEO) to access the Standards for Certification on Safe Policing for Safe Communities, the Implementation Fact Sheet, and the List of Designated Independent Credentialing Bodies.

Submission Information
Applications will be submitted to DOJ in two steps:

**Step 1:** The applicant must submit by the Grants.gov deadline the required Application for Federal Assistance standard form (SF)-424 and a Disclosure of Lobbying Activities (SF-LLL) form when they register in Grants.gov at https://www.grants.gov/web/grants/register.html.

Beginning April 4, 2022, the Federal government will cease using the Data Universal Numbering System (DUNS) number to uniquely identify entities. At that point, entities doing business with the Federal government will use a Unique Entity Identifier (UEI) created in SAM.gov. If your entity is currently registered in SAM.gov, your UEI has already been assigned and is viewable in SAM.gov. This includes inactive registrations. If you are a new entity registering in SAM.gov, you will continue to register in SAM.gov using the DUNS number assigned by Dun and Bradstreet (D&B) until April 4, 2022. Upon completing your registration in SAM.gov, you will be assigned a UEI. For additional information, see the [Unique Entity Identifier Update](https://www.grants.gov/web/grants/register.html) and the [OJP Grant Application Resource Guide](https://www.usdoj.gov/bjs/grants/).

**IMPORTANT:** Grants.gov will transition to UEI at 11:59 p.m. eastern time (ET) on March 31, 2022.

To support this transition, DOJ will update all posted Grants.gov funding opportunity packages to reflect the use of UEI.

All entities applying for DOJ funding opportunities that have a Grants.gov close date after March 31, 2022, must take one of the following actions:

1) Complete and submit the SF-424 and SF-LLL **no later than March 30, 2022, at 8:00 p.m. ET.**
   - If the SF-424 is not completed and submitted by this time, any information contained in the SF-424 will be lost during the transition.
   - If this occurs, applicants will need to re-enter their data in the new SF-424 form upon returning to Grants.gov on April 1, 2022.

2) Wait until April 1, 2022, to begin and submit the Grants.gov application.

**Step 2:** The applicant must then submit the **full application**, including attachments, in JustGrants at JustGrants.usdoj.gov. To be considered timely, the full application must be submitted in JustGrants by the JustGrants application deadline. OJP encourages applicants to review the “How to Apply” section in the [OJP Grant Application Resource Guide](https://www.usdoj.gov/bjs/grants/) and the [JustGrants website](https://www.usdoj.gov/bjs/grants/) for more information, resources, and training.

Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community. The NICS Improvement Amendments Act of 2007 (NIAA) addresses the gap in information available to NICS about prohibiting mental health adjudications and commitments and other prohibiting factors. Filling this information gap will better enable the NICS to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms. The automation of records also reduces delays for law-abiding persons to purchase firearms.

The NIAA authorized a grant program to assist states in providing certain information to the NICS and prescribes grant penalties for noncompliance with the NIAA’s record completeness goals. Additionally, pursuant to the Act, there are certain conditions, described under Eligibility Information, that a state must satisfy in advance of receiving grants under the Act.

The Bureau of Justice Statistics (BJS) is publishing this notice to announce the continuation of the NICS Act Record Improvement Program (NARIP) in fiscal year (FY) 2022, identify the program priorities, and provide information on application requirements. This year, BJS is prioritizing the use of funds for two purposes: (1) to enhance the completeness, automation, and transmittal of records to state and federal systems used by the NICS, and (2) to improve the overall reporting of persons prohibited from possessing firearms for reasons related to domestic violence and mental health to the NICS.

Statutory Authority

34 U.S.C. §40913

The NICS Improvement Amendments Act of 2007

Specific Information

Pursuant to 34 U.S.C. §10132(c)(19), BJS is authorized to “provide for improvements in the accuracy, quality, timeliness, immediate accessibility, and integration of State and tribal criminal history and related records, support the development and enhancement of national systems of criminal history and related records including the National Instant Criminal Background Check System, the National Incident-Based Reporting System, and the records of the National Crime Information Center, facilitate State and tribal participation in national records and information systems, and support statistical research for critical analysis of the improvement and utilization of criminal history records.” The National Criminal History Improvement Program (NCHIP) and the NARIP are two means by which BJS provides for such improvements.

The NARIP is authorized by the NIAA (34 U.S.C. §40912), which provides that grants be made in a manner consistent with the NCHIP. Therefore, NARIP application procedures parallel the provisions of the Crime Identification Technology Act of 1998 (34 U.S.C. §40301), which guide the NCHIP. Both the NCHIP and NARIP were reauthorized under division S, title VI of the Consolidated Appropriations Act of 2018 (P.L. 115-141).

Goals, Objectives, Deliverables, and Timeline

The provisions for which this program is authorized require states to meet specific goals for completeness of the records submitted to the Attorney General identifying individuals prohibited by federal law from possessing firearms.

Goals

This funding will assist states and tribes with finding ways to make more records available to NICS, including records in the National Crime Information Center (NCIC), criminal history record information available through the Interstate Identification Index (III), and records in the NICS Indices. Therefore, through the funded activities, BJS expects that more records (including improved quality, completeness, and timeliness) will become available in these systems.
Objectives

The NARIP was developed to improve the completeness, automation, and transmittal of records to state and federal systems used by the NICS. These include records of criminal history, felony convictions, warrants, protective orders, convictions for misdemeanors involving domestic violence and stalking, drug arrests and convictions, mental health adjudications, and other information that may disqualify an individual from possessing or receiving a firearm under federal law.

Awards under this solicitation will include a condition (the specific terms of which will govern the award) related to supplying records to the NICS. The condition will, generally speaking, require recipients that use the award for a project or program that results in court dispositions, information or other “eligible records” relevant to the NICS, or that has a purpose of establishing or improving any of the foregoing, to promptly make available to the NICS or the state repository accessed by the NICS (and, as appropriate, update, correct, modify, or remove) all such dispositions, information, and other “eligible records.”

Deliverables

FY 2022 Priority Areas—Improve Identification and Reporting of Convictions of Domestic Violence and Mental Health Submissions to the NICS

Applicants should focus efforts on (1) identifying, flagging, and making immediately accessible to NICS records of persons prohibited from purchasing or possessing firearms for domestic violence convictions and (2) reporting records of persons prohibited from possessing firearms for mental health reasons. Therefore, recipients must agree to use a portion of awarded funds to make such records accessible to the NICS, unless the state certifies in the application that it—

1. already makes available to the NICS information on all persons prohibited from possessing firearms due to a domestic violence conviction or prohibiting mental health reason; or
2. will focus funds on another category of qualifying NICS records that the state reasonably argues represents a greater information gap.

State Grants

Section 103 of the NIAA (codified at 34 U.S.C. 40913(a)) provides that the grants “shall be used by the States and Indian tribal governments, in conjunction with units of local government and State and local courts, to establish or upgrade information and identification technologies for firearms eligibility determinations.” In accordance with the NIAA, a grant to a state, which includes territories, or Indian tribe may only be used to—

- Supply accurate and timely information to the Attorney General concerning the identity of persons who have a federally prohibiting mental health adjudication or commitment
- Create electronic systems that provide accurate and up-to-date information directly related to checks under the NICS, including court disposition and corrections records
- Assist states in establishing or enhancing their own capacities to perform NICS background checks
- Supply accurate and timely information to the Attorney General concerning final dispositions of criminal records to databases accessed by the NICS
- Supply accurate and timely court orders and records of misdemeanor crimes of domestic violence for inclusion in federal and state law enforcement databases used to conduct NICS background checks
- Collect and analyze data needed to demonstrate levels of state compliance with the NIAA
- Maintain the required relief from disabilities program in accordance with the NIAA (however, by statute, not less than 3% and no more than 10% of each grant shall be used for this purpose).

State Court Grants

Section 301 of the NIAA (codified at 34 U.S.C. §40941) provides that grants shall be made to each state or tribal government, consistent with plans for the integration, automation, and accessibility of criminal history records, for use by the court systems to improve automation and transmittal to federal and state repositories of: (1) criminal history dispositions; (2) records relevant to determining whether a person has been convicted of a misdemeanor crime of domestic violence or whether a person is a subject of a prohibiting domestic violence protection order; and (3) prohibiting mental health adjudications and commitments.

Further, the law provides that the amounts granted shall be used by the court system only to implement—
Assessments, as necessary, of the capabilities of state courts to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories; and

Policies, systems, and procedures to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work’s results, as discussed in the Application and Submission Information section.

Evidence-Based Programs or Practices

OJP strongly encourages the use of data and evidence in policymaking and program development for criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the OJP Grant Application Resource Guide.

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the OJP Grant Application Resource Guide section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

Additional Information

BJS is unable to estimate the number of awards to be made or the maximum amount awarded per state. The number and amount of awards depend on the extent to which the projects proposed address the program priority areas and the demonstrated level of need. In FY 2021, BJS made 20 awards totaling approximately $17.9 million.

Continuation Funding Intent

BJS may, in certain cases, provide additional funding in future years to awards made under this solicitation through continuation awards. OJP will consider, among other factors, OJP’s strategic priorities, a recipient’s overall management of the award, and the award-funded work’s progress, when making continuation award decisions.

Availability of Funds

This solicitation, and awards (if any are made) under this solicitation, are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by the agency or by law. In addition, nothing in this solicitation is intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.
Types of Awards

BJS expects to make awards under this solicitation as cooperative agreements, which provide for OJP to have substantial involvement in carrying out award activities. See the “Administrative, National Policy, and Other Legal Requirements” section of the OJP Grant Application Resource Guide for additional information.

Financial Management and System of Internal Controls

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. See the OJP Grant Application Resource Guide for additional information.

Eligibility Information

The NARIP application must be submitted by (a) the agency designated by the governor in each state to administer the NCHIP/NARIP, (b) the state or territory central administrative office or similar entity designated by statute or regulation to administer federal grant funds on behalf of the jurisdiction’s court system, or (c) federally recognized Indian tribal governments.

In accordance with the NIAA, each state must satisfy these conditions to receive grants:

1. First, “each State shall provide the Attorney General with a reasonable estimate, as calculated by a method determined by the Attorney General…of the number of the records” subject to the NIAA completeness requirements. The last round of estimates was collected in 2011. States may also meet this eligibility by submitting a NICS Implementation Plan as outlined in the reauthorization of the NIAA (Fix NICS Act of 2018, in the Consolidated Appropriations Act of 2018, div. S, title VI; P.L. 115-141). Applicants under this solicitation should confirm with BJS whether this eligibility criterion has been met.

2. Second, “to be eligible for a grant under this [program], a State shall certify, to the satisfaction of the Attorney General, that the State has implemented a relief from disabilities program.” For the purpose of this solicitation, a “relief from disabilities program” is a program that permits persons who have been adjudicated a mental defective or committed to a mental institution to obtain relief from the firearms disabilities imposed by law as a result of such adjudication or commitment. This relief must be based on a finding, in accordance with principles of due process, by a state court, board, commission, or other lawful authority, that the circumstances of the disability and the person’s record and reputation are such that the person will not be likely to act in a manner dangerous to the public safety and that the granting of relief would not be contrary to the public interest. The certification form is available on the Bureau Alcohol, Tobacco, Firearms, and
Further, applications submitted on behalf of state court systems must specifically assure that (1) the court system has the capability to contribute and will transmit pertinent information to the NICS established under section 103 (b) of the Brady Handgun Violence Prevention Act (34 U.S.C. §40901), and (2) it will coordinate the programs proposed for NARIP funding with other federally funded information technology programs, including directly funded local programs.

For eligibility information, see the solicitation cover page.

For information on cost sharing or match requirements, see the “Federal Award Information” section.

**Application and Submission Information**

The following application elements must be included in the application to meet the basic minimum requirements to advance to peer review and receive consideration for funding:

- Proposal Abstract
- Proposal Narrative
- Budget Worksheet and Budget Narrative (Web-based Form) (The web-based form includes the budget details and the budget narrative.)

See the “Application Elements and Formatting Instructions” section of the OJP Grant Application Resource Guide for information on what happens to an application that does not contain all the specified elements or is nonresponsive to the scope of the solicitation.

**Information to Complete the Application for Federal Assistance (SF-424)**

The SF-424 must be submitted in Grants.gov. The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the OJP Grant Application Resource Guide for additional information on completing the SF-424.

In Section 8.F. of the SF-424, please include the name and contact information of the individual who will complete the application in JustGrants. JustGrants will use this information (email address) to assign the application to this user in JustGrants.

**Intergovernmental Review:** This solicitation (“funding opportunity”) is not subject to Executive Order 12372. (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

**Standard Applicant Information (JustGrants 424 and General Agency Information)**

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. The applicant will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, the applicant will need to: add zip codes for areas affected by the project; confirm its Authorized Representative; and verify and confirm the organization's unique entity identifier, legal name, and address.

**Proposal Abstract**

A proposal abstract (no more than 400 words) summarizing the proposed project, including the purpose of the project, primary activities, expected outcomes, the service area, intended beneficiaries and subrecipients (if known), will be completed in the JustGrants web-based form. This abstract should be written in the third person and will be made publicly available on the OJP website if the project is awarded.

**Proposal Narrative**

The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point font; have no less than 1-inch margins; and should not exceed 30 pages. Pages should be numbered and submitted as an attachment. If the proposal narrative fails to comply with these length restrictions, BJS may consider such noncompliance in peer review and in final award decision.
The following sections must be included as part of the proposal narrative:

a. **Description of the Issue OR Statement of the Problem if research is involved:**

   Accomplishments and progress on record improvement goals. Applicants must provide a summary of the major accomplishments achieved with funding under the NARIP. This section should describe, in quantifiable terms if possible, results achieved and advances made in the last decade of NARIP funding (2011-2021). **Specifically address accomplishments relating to participation in each of the national databases and initiatives (i.e., III, NICS, NCIC Protection Order File (POF), domestic violence records, mental health records, and Livescan/Automated Fingerprint Identification System capability).** Where relevant, reference should be made to surveys and data quality audits. This section should also include any evaluative efforts undertaken to identify the key areas of weakness in the state’s criminal record system since submission of previous NARIP applications. Tribal applicants should discuss progress related to record automation and improvement funded by other federal sources applicable to the above areas.

   **Current status in specific subject areas.** Describe the status of the applicant’s participation in each of the following subject areas in your application, and include the current number of records in each system, where applicable:

   1. **Dispositions available to the III (including felonies and domestic violence misdemeanor convictions).** All applicants should discuss the percentage of state records with final dispositions or case outcomes linked to arrests and available at the time of a firearm background check. Applicants should provide information on efforts to improve reporting and availability at the national level. The application should also discuss the extent to which dispositions requested in connection with a NICS inquiry have not been provided within the required timeframe and must identify any problems that are delaying instant responses to NICS inquiries and identify proposed solutions to these problems.
      
      - Provide the number and percentage of arrests (felonies and misdemeanors) available in the state criminal history repository that are missing final dispositions.
      - Report the percentage of arrests (felonies and misdemeanors) missing final dispositions accessible to the III.

   2. **NICS Indices and mental health record availability.** All applications should discuss the extent to which the applicant provides information to the NICS Indices administered by the Federal Bureau of Investigation (FBI). Applicants that do not submit information to this file should describe the prohibiting factors and any plans to overcome them. (Note: The Health Insurance Portability and Accountability Act (HIPAA) is not considered to be a prohibiting factor.) Additionally, all applicants should indicate whether mental health records are checked, either by the state point of contact (POC) or the FBI, during a NICS check. Where mental health records are accessible, include the number of records currently available and any plans to improve availability. If mental health records are not currently accessible at the time of a background check, describe factors that limit or prohibit the exchange of mental health records.
      
      - Provide the current number of submissions, by prohibitor, in the NICS Indices. Counts for the following prohibitors should be addressed in the application: (1) felony conviction, (2) active felony indictment/information, (3) fugitive from justice, (4) controlled substance, (5) protection/restraining order, (6) misdemeanor crime of domestic violence (MCDV), and (7) state prohibitor.

   3. **Protection Order File.** All applicants should indicate whether they submit information for inclusion in the FBI’s NCIC POF. Applicants that submit protection orders should indicate the number of active protection orders provided to the FBI. Applicants that do not submit all active protection orders to NCIC should describe the prohibiting factors and any plans to overcome them.
      
      - Provide the current number of active warrants in the NCIC Wanted Persons File and a description of any known gaps in reporting.

b. **Project Design and Implementation--Description of Tasks to be Funded**

   Describe the activities to be conducted with NARIP funds during the project period and **specifically address how**
activities relate to each of the NARIP priority areas identified under “FY 2022 Priority Areas—Improve Identification and Reporting of Convictions of Domestic Violence and Mental Health Submissions to the NICS.”

- Include dollar amounts for each funded task.
- Provide quantitative measures to assess or describe the impact each project will have on the quality, completeness, and availability of records at the national level.
- Specifically address the priority areas regarding the improvement of submitting domestic violence convictions and mental health submissions to the NICS.
- Submit a detailed project period timeline covering all proposed activities.

c. Capabilities and Competencies—Coordination

The administering NARIP agency should coordinate efforts with relevant emergency management task forces and agencies to ensure that records development activities are compatible with security measures for preventing acts of terrorism.

To encourage coordination and information sharing among criminal justice systems, all OJP awards that support information technology development are subject to a special condition requiring submission of a description of the project to the state Information Technology POC, if designated. Submit a copy of the correspondence as part of “Additional Attachments,” or send directly to BJS prior to fund drawdown.

The POC is not required to concur with the information technology project. This condition is intended to facilitate communication within the state.

Recipients of funds under this solicitation should ensure that any funded activities will be coordinated with related activities supported with OJP funding, including awards under OJP’s Residential Substance Abuse Treatment Program, Drug Court Program, or Mentally Ill Offender Act Program. BJS is particularly interested in awards under these programs that may involve reportable records that can be shared with state and national record systems. To the extent feasible under state law and regulations, such records should be made available to the state criminal history record repository and federal files managed by the FBI, including the III, NCIC, and NICS Indices.

Tribal applicants should provide documentation that activities proposed for funding will be coordinated with tribal consortia, the state, or directly with the FBI.

Unexpended funds. The application should describe the specific reasons that previously awarded NARIP funds remain unexpended (if applicable) and include the current unexpended balance.

- Include the current status of open NARIP awards such as the current unexpended balance, projected end date, and description of any challenges or delays encountered, if applicable.

Compatibility with other systems. The application should describe the extent to which proposed activities are compatible with NIBRS, NCIC, NICS, Next Generation Identification (NGI), and other applicable statewide or regional criminal justice information sharing standards or plans, including state anti-terrorism.

d. NICS Improvement Plan

FY 2022 NARIP applications should include funding, as needed, for the development and/or modification of a comprehensive, long-range records improvement plan through a four-step process:

Step 1. Establishment of a NICS Record Improvement Task Force. Complete reporting and transmission of state or tribal records to national files may only be achieved through the cooperative efforts of all record originating entities. Therefore, BJS recommends that the applicant establish or continue the work of a NICS Record Improvement Task Force to guide the development and implementation of a long-range records improvement plan. The task force should include representatives from the central record repository and source agencies, including state, local, and tribal law enforcement; prosecuting attorneys; the courts; local jails; state
The task force can review the results of the assessment and problem identification phases (steps 2 and 3) and develop recommendations to improve the quality, completeness, and availability of NICS records. It can review and assess the adequacy of current legislation and administrative procedures related to reporting, maintaining, sharing, and use of relevant records. The preliminary plan should include a list of proposed task force members and the agencies they represent. If components of the system listed above are not included in the task force, the plan should describe how they can participate and provide input. If a task force will not be established, the applicant should propose instituting other mechanisms for input from and participation of all affected components of the criminal justice system.

**Step 2. Assessment of the quality, completeness, and availability of NICS records.** For the purposes of long-term strategic planning, an applicant may wish to use the task force to examine (and address) issues surrounding the accuracy, completeness, and availability of such records as part of its assessment. The ongoing assessment must result in a comprehensive understanding of the following:

- Availability of the records from entities that originate, maintain, and/or receive such records.
- How relevant records are currently transmitted to the state’s central repository and/or how they are otherwise made available to the NICS.
- Completeness of the records in the various categories described (what portion of the records is actually made available to the NICS).

Such an assessment may involve an examination of records in the state central record repository, surveys of local reporting/originating agencies, analysis of court statistics, data collection from sample(s) of local agency records, estimates derived from audits of local reporting agencies, or other analytical work that may or may not have been performed to support the development of record estimates.

**Step 3. Identification of reasons for incomplete and/or unavailable NICS records.** The task force may also identify challenges or obstacles encountered in efforts to ensure that all qualifying records are made available to the NICS. Understanding these challenges may help focus improvement strategies and may include factors such as the type and number of state, local, and tribal agencies that originally create such records; and the typical life cycle of such original records, including when and where they are created, whether they are maintained in paper or electronic form, if and how they are transmitted to state and national files, and when and how they are ultimately disposed of, deleted, or otherwise made unavailable. The task force might identify factors that affect the availability of records for state and national files, including whether categories of records can be protected from disclosure under a provision of state, tribal, or federal law.

**Step 4. Development of a NICS Record Improvement Plan.** The final step develops strategies for addressing each of the challenges identified in step 3, including the use of federal grant funds appropriated under the NIAA. The plan should clearly identify goals, objectives, and a general timetable for achievements. Subsequent iterations of the plan should include a progress report on the strategies previously employed.

e. **Plan for Collecting the Data Required for this Solicitation’s Performance Measures**

The application should demonstrate the applicant’s understanding of the performance data reporting requirements for this grant program and detail how the applicant will gather the required data should it receive funding.

Note: Applicants are **not** required to submit performance data with the application. Rather, performance measure information is included as an alert that successful applicants will be required to submit performance data as part of each award’s reporting requirements.

OJP will require each successful applicant to submit regular performance data that show the completed work’s results. The performance data directly relate to the goals, objectives, and deliverables identified under the “Goals, Objectives, Deliverables” section.

Performance measures for this solicitation are listed in the Performance Measures Table.

OJP will require each successful applicant to submit regular performance data that show the completed work’s results. The performance data directly relate to the goals, objectives, and deliverables identified in the “Goals, Objectives, and Deliverables” discussion. Applicants can visit OJP’s performance measurement page at...
www.ojp.gov/performance for an overview of performance measurement activities at OJP.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
The application must be responsive to the scope of the solicitation.

The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and BJS recommendations, but also other factors as indicated in this section.

**Federal Award Administration Information**

**Federal Award Notices**

See the OJP Grant Application Resource Guide for information on award notifications and instructions.

**Administrative, National Policy, and Other Legal Requirements**

If selected for funding, in addition to implementing the funded project consistent with the OJP-approved application, the recipient must comply with all award conditions and all applicable requirements of federal statutes and regulations, including the applicable requirements referred to in the assurances and certifications executed in connection with award acceptance. For additional information on these legal requirements, see the “Administrative, National Policy, and Other Legal Requirements” section in the OJP Grant Application Resource Guide.

**Information Technology (IT) Security Clauses**

An application in response to this solicitation may require inclusion of information related to information technology security. See the OJP Grant Application Resource Guide for information on information technology security.

In addition to the deliverables described in the “Program Description” section, all award recipients under this solicitation will be required to submit certain reports and data.

**Required reports.** Award recipients typically must submit quarterly financial reports, semi-annual performance reports, final financial and performance reports, and, if applicable, an annual audit report in accordance with the Part 200 Uniform Requirements or specific award conditions. Future awards and fund drawdowns may be withheld if reports are delinquent. (In appropriate cases, OJP may require additional reports.)
