

Federal Deaths in Custody Reporting Program (FDCRP)

CJ-13A Arrest-Related Death Incident Report – FY 2024

The Death in Custody Reporting Act (DCRA) of 2013 (Pub. Law 113-242) requires the head of each Federal law enforcement agency to report annually to the Attorney General “information regarding the death of any person who is—

- “(1) detained, under arrest, or is in the process of being arrested by any officer of such Federal law enforcement agency (or by any State or local law enforcement officer while participating in and for purposes of a Federal law enforcement operation, task force, or any other Federal law enforcement capacity carried out by such Federal law enforcement agency); or
- “(2) en route to be incarcerated or detained, or is incarcerated or detained at—
 - (A) any facility (including any immigration or juvenile facility) pursuant to a contract with such Federal law enforcement agency;
 - (B) any State or local government facility used by such Federal law enforcement agency; or
 - (C) any Federal correctional facility or Federal pre-trial detention facility located within the United States.”

In response to the DCRA reporting requirements, the Bureau of Justice Statistics (BJS) is conducting a survey of federal agencies with law enforcement, detention, and/or incarceration functions. BJS is conducting this data collection under Title 34 U.S.C. § 10132 and the Death in Custody Reporting Act of 2013 (Pub. Law 113-242). BJS will use the data for DCRA reporting purposes. By law, BJS will only use the information for statistical purposes and is required to ensure confidentiality (Title 34 U.S.C. § 10134 and 44 U.S.C. § 3563). BJS will not disclose personally identifiable information without a court order requiring disclosure.

The survey is designed to identify deaths that occur during the course of official federal law enforcement, detention and incarceration agency functions and to collect additional information about the decedent and the circumstances surrounding the incident.

For the purposes of this survey, please identify all deaths that are arrest-related. The DCRA defines an arrest-related death as “the death of any person who is detained, under arrest, or is in the process of being arrested by any officer of such Federal law enforcement agency (or by any State or local law enforcement officer while participating in and for purposes of a Federal law enforcement operation, task force, or any other Federal law enforcement capacity carried out by such Federal law enforcement agency).”

Please complete one **CJ-13A Arrest-Related Death Incident Report** for each **arrest-related** death identified in CJ-13 FDCRP Annual Summary for fiscal year 2024. Indicate the decedent’s name, the time and date of the death, the decedent’s demographic characteristics, the circumstances surrounding and leading up to the death and actions taken by the incident that led to the death.
