

# Prisoners in 2022 – Statistical Tables

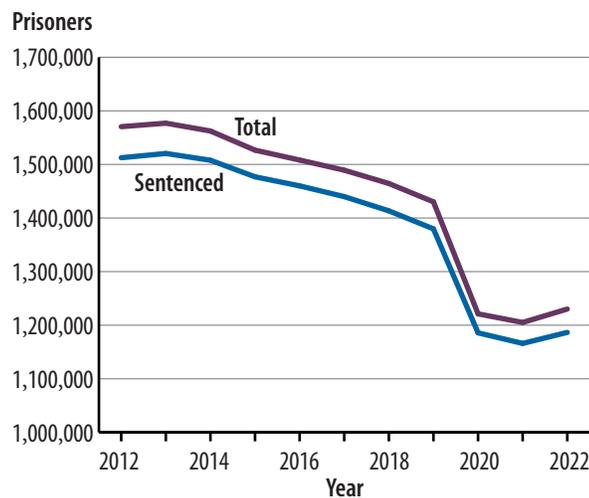

E. Ann Carson, PhD, *former BJS Statistician*; and Rich Kluckow, DSW, *BJS Statistician*

At yearend 2022, correctional authorities in the United States had jurisdiction over 1,230,100 persons in state or federal prisons, an increase of 2% or 25,100 persons from yearend 2021 (1,205,100 persons) (figure 1). This rise erased the 1% decline reported in 2021 and marked the first increase in the combined state and federal prison population in almost a decade (since 2013). The number of persons held under the jurisdiction of the Federal Bureau of Prisons (BOP) grew 1% (up 2,000 persons) from 2021 to 2022, while the number held under the jurisdiction of state correctional authorities increased 2% (up 23,100).

Ninety-six percent of persons in U.S. prisons in 2022 were sentenced to more than 1 year under the jurisdiction of state or federal correctional authorities (1,185,600). Thirty-five states and the BOP showed growth in their sentenced prison populations from 2021 to 2022, with increases of at least 1,000 persons in eight states and the BOP.

Findings in this report are based on the National Prisoner Statistics (NPS) program, administered by the Bureau of Justice Statistics (BJS). The program collects annual data from

**FIGURE 1**  
Total and sentenced prisoners under the jurisdiction of state or federal correctional authorities, 2012–2022

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Counts are for December 31 of each year and are based on prisoners with any sentence status (total) and those sentenced to more than one year (sentenced). See tables 1 and 3 for counts.

## Highlights

- The U.S. prison population was 1,230,100 at yearend 2022, a 2% increase from yearend 2021 (1,205,100).
- The number of females in state or federal prison increased almost 5% from yearend 2021 (83,700) to yearend 2022 (87,800).
- Nine states and the BOP increased their total prison populations by over 1,000 persons from yearend 2021 to yearend 2022.
- State correctional authorities had jurisdiction over 1,039,500 persons sentenced to at least 1 year in prison in 2022, while the BOP had legal authority over 146,100 persons with similar sentences.
- At yearend 2022, an estimated 32% of sentenced state and federal prisoners were black; 31% were white; 23% were Hispanic; 2% were American Indian or Alaska Native; and 1% were Asian, Native Hawaiian, or Other Pacific Islander.
- The imprisonment rate at yearend 2022 (355 sentenced prisoners per 100,000 U.S. residents of all ages) was down 26% from yearend 2012 (480 per 100,000) but up 1% from yearend 2021 (350 per 100,000).
- In 2022, states and the BOP admitted 469,200 persons to prison, which was 20,800 more than they released that year (448,400) and 48,200 more than they admitted the year before (421,000).

state departments of corrections and the BOP on prison capacity and prisoner counts, characteristics, admissions, and releases. This report is the ninety-seventh in a series that began in 1926. All 50 states and the BOP reported NPS data for 2022. In September 2023, BJS released

preliminary estimates of the 2022 prison population data (<https://bjs.ojp.gov/library/publications/prisons-report-series-preliminary-data-release>). The data in this report update these preliminary data.

## Terms and definitions

**Adult imprisonment rate**—The number of prisoners sentenced to more than 1 year under state or federal jurisdiction, per 100,000 U.S. residents age 18 or older.

**Capacity, design**—The number of prisoners a facility can hold, as set by the architect or planner.

**Capacity, highest**—The maximum number of beds across the three capacity measures: design, operational, and rated capacity.

**Capacity, lowest**—The minimum number of beds across the three capacity measures: design, operational, and rated capacity.

**Capacity, operational**—The number of prisoners a facility can hold based on staffing and services.

**Capacity, rated**—The number of prisoners or beds a facility can hold, as set by a rating official.

**Conditional releases**—Includes discretionary parole, mandatory parole, postcustody probation, and other unspecified conditional releases.

**Conditional release violators**—Persons who returned to prison after being granted unspecified conditional release or being released to discretionary parole, mandatory parole, or postcustody probation.

**Custody count**—Persons held in the physical custody of state or federal prisons, regardless of sentence length or which authority has jurisdiction over the prisoner.

**Federal prison system**—Includes adult prisoners held under the jurisdiction of the Federal Bureau of Prisons in secure federal prison facilities, nonsecure community corrections facilities, and privately operated facilities; and persons age 17 or younger, all of whom are held in privately operated facilities.

**Imprisonment rate**—The number of prisoners sentenced to more than 1 year under state or federal jurisdiction per 100,000 U.S. residents.

**Jail**—A confinement facility that is usually administered by a local law enforcement agency (county, city, or municipal) and is intended for adults but sometimes holds juveniles for confinement before or after adjudication. Such facilities include jails and city or county correctional centers; special jail facilities, such as medical treatment or release centers; halfway houses; work farms; and temporary holding or lockup facilities that are part of the jail's combined function. Prisoners sentenced to jail facilities usually have a sentence of 1 year or less and therefore are not counted as sentenced prisoners for purposes of this report, although prisoners sentenced to jail facilities are counted in the total prison population tables. Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont each operate an integrated system

that combines prisons and jails, and all their inmates are counted in this report as prisoners. BJS collects data on jails in the remaining states through its Annual Survey of Jails and periodic Census of Jails.

**Jurisdiction**—The legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Prisoners under the jurisdiction of state or federal correctional officials can be held in publicly or privately operated secure or nonsecure facilities, including boot camps, halfway houses, treatment facilities, hospitals, local jails, or another state's facilities.

**New court commitments**—Admissions into prison of persons convicted and sentenced by a court, usually to a term of more than 1 year, including probation violators and persons with a split sentence of incarceration followed by court-ordered probation or parole.

**Parole violators**—For purposes of this report, persons released from prison on discretionary or mandatory parole who were subsequently imprisoned either for violating conditions of release or for new crimes.

**Prison**—A long-term confinement facility that is run by a state or the federal government and typically holds felons, or persons with sentences of more than 1 year imposed by state or federal courts. Sentence length may vary by state. Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont each operate an integrated system that combines prisons and jails, and all their inmates are counted in this report as prisoners.

**Prisoner**—A person confined in a state or federal prison, in a private facility under state or federal jurisdiction, or in a local jail facility under the legal authority of state or federal correctional authorities.

**Probation violators**—For purposes of this report, persons on probation, sometimes following release from prison, who were subsequently imprisoned either for violating conditions of their probation or for new crimes.

**Sentenced prisoners**—Persons sentenced to more than 1 year under state or federal correctional authorities, usually those convicted of a felony.

**Supervised mandatory releases**—Conditional releases with postcustody supervision (generally occurring in jurisdictions using determinate sentencing statutes).

**Total prisoners**—All prisoners under jurisdiction, regardless of sentencing status or length.

**Unconditional releases**—Expirations of sentences, commutations, and other unspecified releases that are not followed by probation, parole, or other supervision.

**Yearend**—December 31 of the calendar year.

## List of appendix tables

**APPENDIX TABLE 1.** Prisoners under the jurisdiction of state or federal correctional authorities, by jurisdiction and race or Hispanic origin, December 31, 2022

## Total prison population

- A total of 1,230,100 persons were held in state or federal prisons across the United States at yearend 2022, about 25,100 more than at yearend 2021 (1,205,100) (table 1).
- The increase in the total prison population in 2022 ended 8 consecutive years of declines.
- The state prison population increased by 23,100 persons (up 2%) from yearend 2021 to yearend 2022, while the BOP population increased by almost 2,000 (up 1%).
- At yearend 2022, state departments of corrections (DOCs) had jurisdiction over 87% of all prisoners in the United States, while the BOP had legal authority over 13% of the prison population.
- The number of females in prison at yearend 2022 (87,800) represented 7% of the total combined state and federal prison population and a 5% increase from 2021 (83,710).

**TABLE 1**  
**Prisoners under the jurisdiction of state or federal correctional authorities, by jurisdiction and sex, 2012–2022**

Year	Total	Federal*	State	Male	Female
2012	1,570,397	217,815	1,352,582	1,461,625	108,772
2013	1,576,950	215,866	1,361,084	1,465,592	111,358
2014	1,562,319	210,567	1,351,752	1,449,291	113,028
2015	1,526,603	196,455	1,330,148	1,415,112	111,491
2016	1,508,129	189,192	1,318,937	1,396,296	111,833
2017	1,489,189	183,058	1,306,131	1,377,815	111,374
2018	1,464,385	179,898	1,284,487	1,353,595	110,790

2021	1,205,087	157,314	1,047,773	1,121,436	83,651
2022	1,230,143	159,309	1,070,834	1,142,359	87,784
<b>Percent change</b>					
2012–2022	-21.7%	-26.9%	-20.8%	-21.8%	-19.3%
2021–2022	2.1	1.3	2.2	1.9	4.9

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Counts are for December 31 of each year and are based on prisoners with any sentence status. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons. Counts for 2021 and earlier may have been revised from previous reports.

\*Includes adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities.

## Jurisdiction-level total prison populations

- From yearend 2021 to yearend 2022, the number of persons under the jurisdiction of state correctional authorities increased in 42 states (table 2, figure 2).
- The prison populations in 9 states and the BOP grew by more than 1,000 persons from 2021 to 2022, adding a combined 22,900 persons to the U.S. prison population.
- The prison population of Texas (up 5,900 prisoners) grew by the largest number of prisoners from 2021 to 2022, followed by Florida's (up 4,300) and Mississippi's (up 2,500) prison populations.
- New York added 800 prisoners in 2022 for a total prison population of 31,100, the first increase in the state's prison population in 16 years.<sup>1</sup>
- Thirty-seven states and the BOP each had more female prisoners at yearend 2022 than at yearend 2021.
- The prison population of California (down 3,800 prisoners) declined by the largest number of prisoners from 2021 to 2022, followed by Virginia (down 3,200) and Oregon (down 700).

**TABLE 2 (continued)****Prisoners under the jurisdiction of state or federal correctional authorities, by sex and jurisdiction, 2021 and 2022**

Jurisdiction	2021			2022			Change, 2021–2022			Percent change, 2021–2022		
	Total	Male	Female	Total	Male	Female	Total	Male	Female	Total	Male	Female
Wisconsin	20,202	18,953	1,249	20,873	19,503	1,370	671	550	121	3.3	2.9	9.7
Wyoming	2,123	1,858	265	2,154	1,907	247	31	49	-18	1.5	2.6	-6.8

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. Counts are for December 31 of each year and are based on prisoners with any sentence status. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons.

<sup>a</sup>Includes adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities.

<sup>b</sup>Prisons and jails form one integrated system. Data include total jail and prison populations. Data for these states are not reported in BJS's annual *Jail Inmates* reports.

<sup>c</sup>Total jurisdiction counts for 2021 have been updated.

<sup>d</sup>State does not include persons held in federal or other state prisons in its jurisdiction count.

<sup>e</sup>Includes persons who were waiting in county jail to be moved to state prison.

### Population of sentenced prisoners

- At yearend 2022, persons sentenced to more than 1 year under the legal authority of state and federal correctional authorities accounted for 96% (1,185,600) of the total U.S. prison population (table 3).
- In addition, 20,000 persons in state or federal prison at yearend 2022 were sentenced to serve 1 year or less and 22,600 were unsentenced (not shown in tables).
- The number of persons sentenced to more than 1 year in state or federal prison increased almost 2% (up 19,900) from yearend 2021 to yearend 2022.
- Males accounted for 93% of the sentenced U.S. prison population in 2022, with 1,103,200 males sentenced to more than 1 year in state or federal prison.
- On December 31, 2022, approximately 32% of persons sentenced to state or federal prison were black; 31% were white; 23% were Hispanic; 2% were American Indian or Alaska Native; 1% were Asian, Native Hawaiian, or Other Pacific Islander; and 11% were multiracial or some other race.

## Jurisdiction-specific sentenced prison populations

- Thirty-five states and the BOP increased the number of persons sentenced to more than 1 year under the jurisdiction of their correctional authorities from yearend 2021 to yearend 2022 (table 4).
- From yearend 2021 to yearend 2022, the population of prisoners sentenced to more than 1 year increased by at least 1,500 persons in five jurisdictions: Texas (up 5,300 persons), Florida (up 4,300), Mississippi (up 2,500), Tennessee, and the BOP (up 1,700 each).
- Collectively, the four largest prison populations—the BOP (146,100 persons), Texas (137,000), California (97,500), and Florida (84,700)—accounted for 39% of persons sentenced to more than 1 year in prison in the United States in 2022.
- An estimated 3,100 more females were serving a sentence of more than 1 year under the jurisdiction of state or federal authorities in 2022 than in 2021.

## Imprisonment rates

- The U.S. imprisonment rate at yearend 2022 was 355 sentenced prisoners per 100,000 U.S. residents of all ages, a 1% increase from yearend 2021 (350 per 100,000) but a 26% decrease from yearend 2012 (480 per 100,000) (table 5).
- On December 31, 2022, an estimated 666 per 100,000 male U.S. residents were serving sentences of more than 1 year in state or federal prison.
- Black U.S. residents were imprisoned at a rate of 911 per 100,000 at yearend 2022, a 1% increase from 2021 (901 per 100,000).
- Imprisonment rates for white (188 per 100,000) and American Indian or Alaska Native (801 per 100,000) U.S. residents increased from 2021 to 2022, but rates for Hispanic (426 per 100,000) and Asian, Native Hawaiian, or Other Pacific Islander (71 per 100,000) residents declined during this period.

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Imprisonment rate is the number of sentenced prisoners under state or federal jurisdiction per 100,000 U.S. residents or per 100,000 U.S. residents in a given category. Rates are for December 31 of each year and are based on prisoners with a sentence of more than 1 year. Resident population estimates are from the U.S. Census Bureau for January 1 of the following year. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons. Rates for 2021 and earlier may have been revised from previous reports.

<sup>a</sup>Includes persons of two or more races and other races that are not broken out.

<sup>b</sup>Includes adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities.

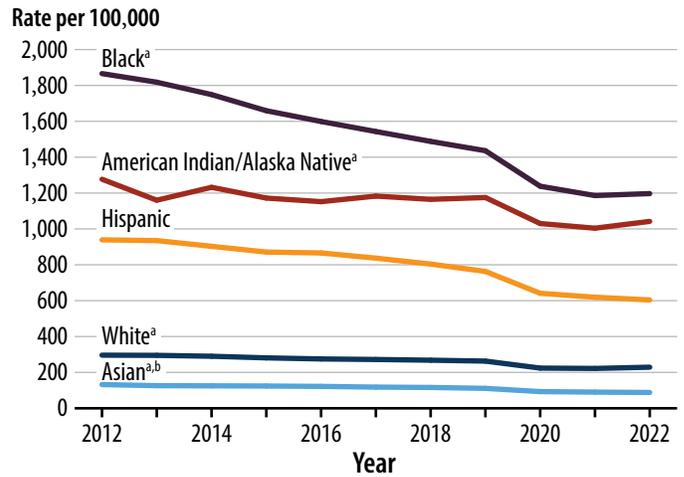

<sup>c</sup>Excludes persons of Hispanic origin (e.g., “white” refers to non-Hispanic white persons and “black” refers to non-Hispanic black persons).

<sup>d</sup>Includes Asians, Native Hawaiians, and Other Pacific Islanders.

Source: Bureau of Justice Statistics, Federal Justice Statistics Program, 2022 (preliminary), National Corrections Reporting Program, 2021, National Prisoner Statistics, 2012–2022, Survey of Inmates in State and Federal Correctional Facilities, 2004, and Survey of Prison Inmates, 2016; and U.S. Census Bureau, postcensal resident population estimates for January 1 of the following calendar year.

- The rate at which adult U.S. residents were in prison on a sentence of more than 1 year increased almost 4% from 2021 to 2022 for American Indian or Alaska Native persons, 3% for white persons, and 1% for black persons, while it declined 2% each for Hispanic and for Asian and Native Hawaiian or Other Pacific Islander persons (table 6, figure 3).
- Over the past decade, the adult imprisonment rates for both black persons and Hispanic persons have declined 36%, compared to 33% for Asian, Native Hawaiian, or Other Pacific Islander persons; 23% for white persons; and 18% for American Indian or Alaska Native persons.
- The imprisonment rate for adult U.S. residents was 453 per 100,000 in 2022, up 1% from 2021 (448 per 100,000) but down 28% from 2012 (627 per 100,000).
- At yearend 2022, about 857 per 100,000 male and 62 per 100,000 female adult U.S. residents were serving a sentence in state or federal prison.
- The 2022 imprisonment rate for black persons (1,196 per 100,000 adult U.S. residents) was more than 13 times the rate for Asian, Native Hawaiian, or Other Pacific Islander persons (88 per 100,000); 5 times the rate for white persons (229 per 100,000); almost 2 times the rate for Hispanic persons (603 per 100,000); and 1.1 times the rate for American Indian or Alaska Native persons (1,042 per 100,000).

### Jurisdiction-specific imprisonment rates

- At yearend 2022, a total of 23 states had imprisonment rates greater than the combined rate for all states (311 prisoners per 100,000 U.S. residents of all ages) (table 7).
- The states with the highest imprisonment rates on December 31, 2022 were Mississippi (661 per 100,000 state residents of all ages), Louisiana (596 per 100,000), Arkansas (574 per 100,000), and Oklahoma (563 per 100,000).
- At yearend 2022, more than 1% of male residents of all ages in Mississippi, Louisiana, Arkansas, and Oklahoma were serving sentences of more than 1 year in state prison.

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. Imprisonment rate is the number of sentenced prisoners under state or federal jurisdiction per 100,000 U.S. residents or per 100,000 U.S. residents in a given category. Rates are for December 31 of each year and are based on prisoners with a sentence of more than 1 year. Resident population estimates are from the U.S. Census Bureau for January 1 of the following year. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons.

<sup>a</sup>Includes adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities.

<sup>b</sup>Prisons and jails form one integrated system. Data include total jail and prison populations.

<sup>c</sup>State does not include persons held in federal or other state prisons in its sentenced jurisdiction count.

<sup>d</sup>Sentenced jurisdiction counts for 2022 have been updated.

<sup>e</sup>Includes a small number of prisoners sentenced to 1 year or less.

<sup>f</sup>Imprisonment rates include persons serving a sentence of more than 1 year but less than 2.5 years, the legal delineation between prisons and jails in Massachusetts. These persons were not included in the custody and jurisdiction counts in this table, because they were housed in local jails; however, because the BJS definition of imprisonment rate includes persons sentenced to more than 1 year in a correctional facility, these persons (1,133 in 2021 and 1,133 in 2022) were included in the imprisonment rate calculations.

<sup>g</sup>State excludes persons serving time in residential confinement from its sentenced jurisdiction count.

<sup>h</sup>Includes persons who were waiting in county jail to be moved to state prison.

Source: Bureau of Justice Statistics, National Prisoner Statistics, 2021 and 2022; and U.S. Census Bureau, postcensal resident population estimates for January 1 of the following calendar year.

## Prison admissions

- Admissions to state and federal prisons increased 11% from 2021 (421,000 admissions) to 2022 (469,200) (table 8).
- The BOP had 44,900 admissions in 2022, a 6% increase from 2021 (42,200).
- Seventeen states and the BOP had at least 1,000 more admissions to prison in 2022 than in 2021.
- During 2022, Texas had the largest number of prison admissions (64,000), followed by the BOP (44,900) and California and Florida (28,200 each).
- Twelve states had decreases in the number of admissions to prison from 2021 to 2022, including Missouri (down 1,200 admissions) and Virginia (down 900).
- Admissions on new court commitments made up 74% of all admissions to state or federal prison in 2022, up from 71% in 2021.

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. Counts exclude transfers, escapes, and absences without leave (AWOLs). Counts include other conditional release violators, returns from appeal or bond, and other admissions. See *Methodology*. Counts cover January 1 through December 31 for each year and are based on prisoners admitted to state or federal correctional authorities with a sentence of more than 1 year. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons.

/Not reported.

<sup>a</sup>Includes all conditional release violators returned to prison from postcustody community supervision, including parole and probation, either for violations of conditions of release or for new crimes.

<sup>b</sup>U.S. and state total estimates for 2021 and 2022 include imputed counts for Vermont, which did not submit data on admissions for 2021 or 2022.

<sup>c</sup>Includes adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities.

<sup>d</sup>Includes the admission of an undetermined number of prisoners with sentences of 1 year or less.

<sup>e</sup>Prisons and jails form one integrated system. Data include total jail and prison populations.

<sup>f</sup>Florida does not report prison admissions for technical violations. All admissions represent new sentences. The admissions due to supervision violations represent persons who committed new crimes while on postcustody community supervision.

<sup>g</sup>Admission counts for parole violations include prisoners who were AWOL and who committed a subsequent technical violation or new offense while on parole.

<sup>h</sup>New court commitment admissions may include probation release violators who received new sentences.

<sup>i</sup>New court commitment admissions may include a small number of persons returning from bond or appeal.

<sup>j</sup>Includes all admissions and releases from state prison, regardless of sentence length. See *Jurisdiction notes* on the BJS website.

<sup>k</sup>State did not supply data on prison admissions for 2021 or 2022. See *Methodology* for imputation strategy.

<sup>l</sup>Admission data for 2022 are based on fiscal year 2021 counts and are preliminary. Admissions include persons sentenced to 1 year or more.

## Prison releases

- States and the BOP reported a total of 448,400 releases of persons from prison in 2022, a 1% increase (up 4,700) from the 443,700 releases in 2021 (table 9).
- California had the largest increase in prison releases in 2022 (up 6,500 releases from 2021), followed by the BOP (up 3,600) and Oregon (up 2,300).
- Of the 28 states with fewer prison releases in 2022 than in 2021, New York had the largest decline in the number of prison releases (down 3,200), followed by Washington (down 2,000), Pennsylvania (down 1,900), and Arizona (down 1,700).
- In both 2021 and 2022, about 70% of all prison releases were conditional on community supervision or other requirements.
- In 2022, the BOP released about 10,100 prisoners under the First Step Act program (P.L. 115–391), which allowed for eligible persons to earn good time credits to use toward early release.
- There were 4,900 deaths in prison in 2022, nearly 200 fewer than in 2021 (5,100).
- In the total U.S. prison population, there were 20,800 more admissions than releases in 2022.

West Virginia	3,061	2,763	-298	-9.7	502	533	2,422	2,108	43	24
Wisconsin <sup>f</sup>	5,010	4,496	-514	-10.3	188	136	4,756	4,294	41	37
Wyoming	780	808	28	3.6	212	215	558	582	10	11

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. Counts exclude transfers, escapes, and absences without leave (AWOLs). Counts include deaths, releases to appeal or bond, and other releases. See *Methodology*. Counts cover January 1 through December 31 for each year and are based on prisoners admitted to or released from state or federal correctional authorities with a sentence of more than 1 year. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons (BOP).

/Not reported.

<sup>a</sup>Includes expirations of sentence, commutations, and other unconditional releases.

<sup>b</sup>Includes releases to probation, supervised mandatory releases, and other unspecified conditional releases.

<sup>c</sup>Includes all deaths of prisoners under state or federal jurisdiction with a sentence of more than 1 year. Counts of deaths in state and federal prisons may differ from previously published statistics due to differences in definitions. All causes of death are included in the counts, including executions.

<sup>d</sup>U.S. and state total estimates for 2021 and 2022 include imputed counts for Vermont, which did not submit data on releases for 2021 or 2022.

<sup>e</sup>Includes adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities. The 144 conditional releases in 2021 and 136 conditional releases in 2022 were of persons sentenced before the 1984 Sentencing Reform Act, which eliminated federal parole. The BOP does not have jurisdiction over released prisoners, so most persons are released unconditionally, although the vast majority of all persons released from federal prison enter a period of supervised community corrections under the authority of the Administrative Office of the U.S. Courts. In 2023, 2,361 females and 7,758 males were released from the BOP under the First Step Act law (P.L. 115–391) and were classified in this table as being released after expiration of sentences.

<sup>f</sup>Includes the release of an undetermined number of prisoners with sentences of 1 year or less.

<sup>g</sup>Prisons and jails form one integrated system. Data include total jail and prison populations.

<sup>h</sup>Includes offenders who received a combined sentence of prison and probation or parole of more than 1 year.

<sup>i</sup>Includes all releases from state prison, regardless of sentence length. See *Jurisdiction notes* on the BJS website.

<sup>j</sup>State did not supply data on prison releases for 2021 or 2022. See *Methodology* for imputation strategy.

<sup>k</sup>Release data are based on calendar year 2022 counts and include persons sentenced to 1 year or more.

Source: Bureau of Justice Statistics, National Prisoner Statistics, 2021 and 2022.

### **Age, sex, and race or Hispanic origin of sentenced prisoners**

- At yearend 2022, about 19% of persons sentenced to more than 1 year under the jurisdiction of state or federal correctional authorities were age 29 or younger, while 65% were ages 30 to 54 and 16% were age 55 or older (**table 10**).
- Twenty-three percent of black males sentenced to state or federal prison were age 29 or younger, compared to 22% of Hispanic males; 19% of American Indian or Alaska Native males; 17% of Asian, Native Hawaiian, or Other Pacific Islander males; and 14% of white males.
- There were 186,000 persons age 55 or older in state and federal prisons at yearend 2022, a 4% increase from 178,200 at yearend 2021 (not shown in tables).
- About 80% of males and 80% of females sentenced to more than 1 year under state correctional authorities were age 30 or older (**table 11**).
- Among persons sentenced to more than 1 year under federal correctional authorities, 87% of males and 84% of females were age 30 or older (**table 12**).
- Thirty-four percent of the sentenced federal prison population in 2022 consisted of Hispanic persons;

32% black persons; 24% white persons; 2% American Indian or Alaska Native persons; and more than 1% Asian, Native Hawaiian, or Other Pacific Islander persons.

- The sentenced state prison population consisted of 32% black persons; 32% white persons; 22% Hispanic persons; 2% American Indian or Alaska Native persons; and 1% Asian, Native Hawaiian, or Other Pacific Islander persons.

### **Imprisonment rates of U.S. residents, by sex, age, and race or Hispanic origin**

- At yearend 2022, persons ages 35 to 39 had the highest imprisonment rate at 832 per 100,000 U.S. residents (**table 13**).
- More than 1% of all male U.S. residents ages 25 to 49 were sentenced to state or federal prison.
- The imprisonment rate for males of all ages was almost 14 times the rate for females of all ages.
- Among male U.S. residents ages 18 to 19, the imprisonment rate of black males (340 per 100,000) was 26 times that of Asian males, 11 times that of white males, 4 times that of Hispanic males, and 2 times that of American Indian or Alaska Native males.

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Percentages and counts are based on prisoners with a sentence of more than 1 year. Federal data include adult prisoners held in nonsecure community corrections facilities and adults and persons age 17 or younger held in privately operated facilities. Details may not sum to totals due to rounding. See *Methodology*.

<sup>a</sup>Estimate is based on 10 or fewer prisoners.

<sup>a</sup>Excludes persons of Hispanic origin (e.g., “white” refers to non-Hispanic white persons and “black” refers to non-Hispanic black persons).

<sup>b</sup>Includes Asians, Native Hawaiians, and Other Pacific Islanders.

<sup>c</sup>Includes persons of two or more races and other races that are not broken out.

<sup>d</sup>Includes persons of all ages, including those age 17 or younger.

<sup>e</sup>Estimates of race or Hispanic origin are rounded to the nearest 100.

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Imprisonment rate is the number of sentenced prisoners under state or federal jurisdiction per 100,000 U.S. residents or per 100,000 U.S. residents in a given category. Rates are based on prisoners with a sentence of more than 1 year. Resident population estimates are from the U.S. Census Bureau for January 1, 2023.

<sup>a</sup>Excludes persons of Hispanic origin (e.g., “white” refers to non-Hispanic white persons and “black” refers to non-Hispanic black persons).

<sup>b</sup>Includes Asians, Native Hawaiians, and Other Pacific Islanders.

<sup>c</sup>Includes persons of two or more races and other races that are not broken out.

<sup>d</sup>Includes persons of all ages, including those age 17 or younger.

<sup>e</sup>Estimates of race or Hispanic origin are rounded to the nearest 100.

Source: Bureau of Justice Statistics, Federal Justice Statistics Program, 2022 (preliminary), National Corrections Reporting Program, 2021, National Prisoner Statistics, 2022, and Survey of Prison Inmates, 2016; and U.S. Census Bureau, postcensal resident population estimates for January 1, 2023.

## Prisoners held in privately operated prison facilities and local jails

- In 2022, a total of 156,900 persons under the jurisdiction of state or federal correctional authorities, or 13% of all prisoners, were housed in either privately operated prison facilities (91,300 persons) or local jails (65,600) (table 14).
- The number of persons held in privately operated prison facilities decreased almost 6% from 2021 (96,700) to 2022 (91,300).
- For the first time since BJS began tracking persons held in privately operated prison facilities, the BOP

reported it held no prisoners in secure private prisons. In 2022, persons in facilities contracted to the BOP were held in either privately operated halfway houses (7,600) or on home confinement (6,200).

- In Arizona, the number of persons held in contracted prisons increased 32% (from 7,400 in 2021 to 9,700 in 2022) because several new private prison facilities opened in that state in 2022.
- At yearend 2022, almost 53% of persons under the jurisdiction of the Louisiana Department of Corrections were held in local parish jails (14,400 persons).

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Custody refers to the physical location where the prisoner is held. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. Counts are for December 31 of each year and are based on prisoners with any sentence status. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons.

:Not calculated.

~Not applicable.

<sup>a</sup>Includes prisoners held in private facilities in the jurisdiction of another state and privately operated community transition centers.

<sup>b</sup>Includes federal prisoners held in nonsecure privately operated facilities (7,605) and prisoners on home confinement (6,229). Excludes persons held in immigration detention facilities pending adjudication.

<sup>c</sup>Prisons and jails form one integrated system. Data include total jail and prison populations.

<sup>d</sup>Includes prisoners in facilities owned by the state but staffed by employees of a private correctional company.

Source: Bureau of Justice Statistics, National Prisoner Statistics, 2021 and 2022.

## Prisoners age 17 or younger

- State and federal correctional authorities held 437 persons age 17 or younger at yearend 2022, 145 more than the 292 held at yearend 2021 (table 15).

- Twenty-seven states and the BOP reported holding at least one person age 17 or younger in their prison facilities on December 31, 2022.

**TABLE 15**

## Offense characteristics of state prisoners

- Of the 1,021,300 persons in state prison at yearend 2021 (the most recent year for which state prison offense data were available), 642,500 (63%) were serving sentences for a violent offense, 132,800 (13%) for a property crime, 127,300 (13%) for a drug offense, and 111,900 (11%) for a public order offense (tables 16 and 17).
- A quarter of females in state prison (25%) were serving sentences for a drug offense.
- In 2021, a total of 160,300 persons were sentenced to state prison for rape or sexual assault and 155,100 for murder or nonnegligent manslaughter.

**TABLE 16**

Wyoming	2,126	100	57.1	14.0	20.5	7.9	0.1

Note: Details may not sum to totals due to rounding and missing offense data. Unless otherwise noted, data represent prisoners in the physical custody of state correctional authorities, or those held for the state in privately operated prison facilities, on December 31, 2021. Percentages are based on prisoners with a sentence of more than 1 year. For prisoners convicted of more than one offense, BJS defines the most serious offense as the offense with the longest sentence. States can report up to three offenses in the National Corrections Reporting Program (NCRP) and are asked to single out the offense with the longest sentence. If they do not identify the offense with the longest sentence, BJS assumes an order of sentencing that prioritizes violent offenses, followed by property, drug, and public order offenses.

#Rounds to zero.

<sup>a</sup>Includes prisoners with unknown offenses.

<sup>b</sup>Prisons and jails form one integrated system. Data include total jail and prison populations.

<sup>c</sup>NCRP data are from December 31, 2018.

<sup>d</sup>NCRP data are from December 31, 2017.

## Offense characteristics of federal prisoners

- On September 30, 2022 (the most recent date for which federal prison offense data were available), 46% (66,000) of all persons in federal prison were serving time for a drug offense and 43% (61,400) were serving time for a public order offense (**tables 19 and 20**).
- Almost 5% (6,400) of the federal prison population on September 30, 2022 was in prison for an immigration offense.
- Thirty-five percent of black federal prisoners were serving sentences for a weapons offense, compared to 15% of white; 14% of American Indian or Alaska Native; 12% of Asian, Native Hawaiian, or Other Pacific Islander; and 11% of Hispanic federal prisoners.

<sup>b</sup>Excludes persons of Hispanic origin (e.g., “white” refers to non-Hispanic white persons and “black” refers to non-Hispanic black persons).

<sup>c</sup>Data on race or Hispanic origin are based on administrative data and self-reports from BJS surveys.

<sup>d</sup>Includes Asians, Native Hawaiians, and Other Pacific Islanders.

<sup>e</sup>Totals for race or Hispanic origin are rounded to the nearest 100.

<sup>f</sup>Includes murder and both negligent and nonnegligent manslaughter.

<sup>g</sup>Includes embezzlement, fraud, forgery, and counterfeiting.

<sup>h</sup>Includes larceny, motor vehicle theft, arson and explosives, transportation of stolen property, and other property offenses.

<sup>i</sup>Includes trafficking, possession, and other drug offenses.

<sup>j</sup>Includes illegal entry, smuggling and importing non-U.S. citizens, and holds for immigration officials.

<sup>k</sup>Includes regulatory offenses; tax law violations; bribery; perjury, contempt, and intimidation in U.S. courts; national defense offenses; escape; racketeering and extortion; gambling; sexual offenses, excluding sexual abuse; offenses involving liquor, traffic, wildlife, and environmental matters; and all other public order offenses.

<sup>l</sup>Includes offenses not classified.

## Prison capacity

- Seventeen states and the BOP each had a custody population count that met or exceeded the lowest of the three capacity measures for their prison facilities (rated, operational, and design capacity) at yearend 2022 (table 21).

- Three states (Nebraska, Idaho, and Colorado) and the BOP had custody populations that exceeded the highest of the reported capacity measures.

**TABLE 21**  
**Prison facility capacity, custody population, and percent of capacity, by jurisdiction, December 31, 2022**

Wyoming	2,054	2,070	2,271	1,827	88.9	80.4

Note: Excludes prisoners held in local jails, other states, or private facilities, unless otherwise noted. Rated capacity is the number of prisoners or beds that a facility can hold as set by a rating official. Operational capacity is the number of prisoners that a facility can hold based on staffing and services. Design capacity is the number of prisoners that a facility can hold as set by the architect or planner. Lowest capacity represents the minimum estimate of capacity submitted by the jurisdiction, while highest capacity represents the maximum estimate of capacity. When a jurisdiction could provide only a single estimate of capacity, it was used as both the lowest and highest capacity. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. As of December 31, 2001, sentenced felons from the District of Columbia were the responsibility of the Federal Bureau of Prisons.

...Not available. Jurisdiction does not measure this type of capacity.

:Not calculated.

/Not reported.

<sup>a</sup>Due to differences in the dates when data were extracted, the federal custody count reported for the calculation of capacity differs slightly from the yearend custody count reported in the National Prisoner Statistics. The count includes all federal prisoners, regardless of conviction status or sentence length.

<sup>b</sup>State defines capacity differently from BJS. Data reflect the state's definitions. See *Jurisdiction notes* on the BJS website.

<sup>c</sup>Capacity excludes nontraditional confinement, such as halfway houses and electronic monitoring.

<sup>d</sup>Private facilities are included in capacity and custody counts. See *Jurisdiction notes* on the BJS website.

<sup>e</sup>Capacity includes state-owned facilities that are staffed with employees of a private correctional company.

<sup>f</sup>Operational capacity may include some pretrial detainee beds excluded from the custody count.

<sup>g</sup>State does not include Detention and Diversion center beds, or nonsex-specific hospital beds in its capacity count.

Source: Bureau of Justice Statistics, National Prisoner Statistics, 2022.

## Non-U.S. citizens in state and federal prisons

- At yearend 2022, the BOP held 24,100 non-U.S. citizens, about 15% of its jurisdictional population (table 22).

- The states in which non-U.S. citizens made up the largest proportion of the prison population were Massachusetts (11.9%), Nevada (8.1%), New Jersey (7.9%), and Arizona (7.2%).

South Dakota <sup>e</sup>	3,133	2,708	425	70	^^	^	2.0
Tennessee	18,445	16,901	1,544	511	497	14	2.7
Texas <sup>f</sup>	110,899	102,243	8,656	7,145	6,986	159	6.1
Utah <sup>f</sup>	4,149	3,768	381	251	238	13	5.7
Vermont <sup>e,g</sup>	1,271	1,182	89	18	18	0	1.3
Virginia	22,226	20,816	1,410	1,268	1,239	29	5.3
Washington <sup>f</sup>	11,278	10,575	703	664	650	14	5.0
West Virginia <sup>f</sup>	5,123	4,551	572	10	10	0	0.2
Wisconsin <sup>f</sup>	17,792	16,517	1,275	437	427	10	2.1
Wyoming	2,056	1,808	248	34	34	0	1.6

Note: Interpret these statistics with caution. Unless otherwise noted, citizenship status is based on prisoners' self-report upon admission to prison. The counts of U.S. citizens and non-U.S. citizens represent persons held in the physical custody of state or federal correctional authorities and in private prisons, excluding prisoners held in local jails or the custody of other jurisdictions but including prisoners in states with an integrated prison and jail system. Some jurisdictions use prisoners' reported country of birth to determine current citizenship. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. BJS changed the way it measured citizenship in the National Prisoner Statistics to include all non-U.S. citizens as of the 2016 reference year. See *Methodology*. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons (BOP).

:Not calculated.

/Not reported.

^Four or fewer persons.

^^Suppressed to protect confidentiality.

<sup>a</sup>Percentages are based on custody or jurisdiction population, which may include persons with unknown citizenship. See individual states' footnotes for the population used in the calculation.

<sup>b</sup>State did not rely on self-report citizenship data from prisoners.

<sup>c</sup>Citizenship data were based on law enforcement documents or court documents that accompanied prisoners upon admission.

<sup>d</sup>Citizenship data were subject to verification by an external data source (e.g., comparison to official records from U.S. Immigration and Customs Enforcement or other relevant government agencies).

<sup>e</sup>Counts of non-U.S. citizens represent all persons under the jurisdiction of correctional authorities in the BOP or state.

<sup>f</sup>Counts of non-U.S. citizens exclude those held in private facilities.

<sup>g</sup>Prisons and jails form one integrated system. Data include total jail and prison populations.

<sup>h</sup>Under Colorado state bill SB21-131, which was signed into law in June 2021, the Colorado Department of Corrections is restricted from collecting citizenship information, including place of birth or immigration or citizenship status. Citizenship counts reflect data collected from persons who were in prison prior to the passage of SB21-131 and remained in prison on December 31, 2022.

Source: Bureau of Justice Statistics, National Prisoner Statistics, 2022.

### Persons held under U.S. military jurisdiction

- At yearend 2022, a total of 1,105 prisoners were held under military jurisdiction, 2% fewer than at yearend 2021 (1,131 prisoners) (table 23).

- U.S. Army personnel accounted for 51% of all personnel sentenced to more than 1 year under military jurisdiction at yearend 2022, and the branch had custody of 67% of the overall sentenced military personnel.

**TABLE 23**

## Persons held in the custody of U.S. territories

- At yearend 2022, correctional authorities in U.S. territories had jurisdiction over 8,600 persons, of whom 7,200 (83%) were held in territorial custody and 1,400 (17%) were held in facilities outside of the territories (table 25).

- In 2022, Puerto Rico had 5,800 persons in custody, the most of any of the five U.S. territories.

**TABLE 25**

### Prisoners under the jurisdiction or in the custody of correctional authorities in U.S. territories and commonwealths, by prison facility capacity, December 31, 2022

U.S. territory/ U.S. commonwealth	Jurisdiction population		Total custody population	Type of capacity		
	Total	Sentenced to more than 1 year		Rated	Operational	Design
<b>Total</b>	8,633	6,438	7,184	:	:	:
American Samoa <sup>a</sup>	301	79	301	/	/	/
Guam	678	325	654	443	716	443
Northern Mariana Islands	170	113	170	559	356	559
Puerto Rico <sup>b</sup>	7,067	5,504	5,798	8,965	10,376	11,909
U.S. Virgin Islands	417	417	261	/	352	/

Note: Jurisdiction refers to the legal authority of U.S. territorial or commonwealth correctional officials over a prisoner, regardless of where the prisoner is held. Custody refers to the physical location where the prisoner is held. Rated capacity is the number of prisoners or beds a facility can hold as set by a rating official. Operational capacity is the number of prisoners a facility can hold based on staffing and services. Design capacity is the number of prisoners a facility can hold as set by the architect or planner.

:Not calculated.

/Not reported.

<sup>a</sup>American Samoa has not submitted National Prisoner Statistics data since 2011. Jurisdiction and custody data were located in an article describing COVID-19 conditions at the Territorial Correctional Facility in April 2022 (<https://www.samoanews.com/local-news/task-force-briefs-fono-plan-stop-covid-spread-tcf>).

<sup>b</sup>Puerto Rico estimated the number of prisoners with sentences greater than 1 year from the population of persons with any sentence.

## Methodology

The National Prisoner Statistics (NPS) program started in 1926. The Bureau of Justice Statistics (BJS) sponsors the survey, and Abt Associates, Inc. currently serves as the data collection agent. BJS depends on voluntary participation from state departments of corrections (DOCs) and the Federal Bureau of Prisons (BOP) for NPS data.

Historically, the NPS has consisted of three distinct collections:

- The **NPS-1** is an annual collection known as the “Summary of Sentenced Population Movement.” Before 1978, the collection tracked admissions and releases by type and sex during each calendar year, as well as the number of prisoners in custody by sex and sentence length on December 31.
- The **NPS-1A** was introduced in 1981 to track the rapidly growing prison population. It included counts of the number of inmates under jurisdiction and in custody of prisons, by sentence length and sex, on June 30 of each year. This collection was eliminated in 2010 to reduce the burden on data respondents.
- The **NPS-1B** was added to provide advance counts of the December 31 (yearend) populations and to obtain data by sex, race, and sentence length. It was expanded in 1982 to include counts of inmates housed in local jails due to prison overcrowding and again in 1983 to provide measures of housing capacity and numbers of early releases due to prison overcrowding. Data on prisoners under the jurisdiction of U.S. territorial correctional authorities are collected in a modified form, the NPS-1B(T).

In 2007, the NPS-1 and NPS-1B were merged under the title NPS-1B “Summary of Sentenced Population Movement.” This single collection captures counts by sex of yearend jurisdiction and custody populations by sentence length; number of prisoners held in local, federal, private, and other state facilities; the race and ethnicity of inmates; types of admissions and releases during the calendar year; prison system capacity; and HIV infections and confirmed cases of AIDS. In 2011, two items were added from the former NPS-1A collection, including the yearend custody counts of noncitizens and inmates age 17 or younger.

The NPS-1B distinguishes between prisoners in custody and prisoners under jurisdiction. To have custody of a prisoner, a state or the BOP must hold the person in

one of its facilities. To have jurisdiction over a prisoner, the state or the BOP must have legal authority over that person, regardless of where the prisoner is incarcerated or supervised. Some states are unable to provide counts that distinguish between custody and jurisdiction.

The jurisdiction notes to the *Prisoners* series are available separately on the BJS website for the *Prisoners in 2018* and later reports.<sup>2</sup> These notes detail which states did not distinguish between jurisdiction and custody, as well as those that used alternative counting rules or had policy changes during the year that affected the prisoner population counts.

The NPS-1B jurisdiction counts include persons held in prisons, penitentiaries, correctional facilities, halfway houses, boot camps, farms, training or treatment centers, and hospitals. Counts also include prisoners who were temporarily absent (less than 30 days), in court, or on work release; housed in privately operated facilities, local jails, or other state or federal facilities; or serving concurrent sentences for more than one correctional authority.

The NPS-1B custody counts include all prisoners held within a respondent’s facility, including prisoners housed for other correctional authorities. The custody counts exclude prisoners held in local jails and other jurisdictions. With a few exceptions, the NPS-1B custody counts exclude prisoners held in privately operated facilities.

Respondents to the NPS-1B survey are permitted to update prior counts of prisoners held in custody and under jurisdiction. Some statistics on jurisdiction and sentenced prison populations for prior years have been updated in this report. All tables showing data based on jurisdiction counts, including tables of imprisonment rates, were based on the updated and most recently available data that respondents provided.

Admissions in this report include new court commitments; returned prisoners for parole, probation, or other conditional release violations; returned prisoners from appeal or bond; and other admissions. They exclude transfers from other jurisdictions, returned prisoners who were absent without leave (AWOL), and returned escapees because these persons have not officially left the jurisdiction.

---

<sup>2</sup>For Prisoners series reports and their corresponding jurisdiction notes, see [https://bjs.ojp.gov/library/publications/list?series\\_filter=Prisoners](https://bjs.ojp.gov/library/publications/list?series_filter=Prisoners).

The NPS-1B collects data on the following types of releases: unconditional releases (e.g., expirations of sentence and commutations), conditional releases (e.g., probations, supervised mandatory releases, and discretionary paroles), deaths, AWOLs, escapes from confinement, transfers to other jurisdictions, releases to appeal or bond, and other releases. For reporting purposes, BJS release counts exclude AWOLs, escapes, and transfers to other jurisdictions because these persons have not officially left the jurisdiction.

The NPS collection has historically included counts of prisoners in the combined jail and prison systems of Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont. The District of Columbia has not operated a prison system since yearend 2001. Felons sentenced under the District of Columbia criminal code are housed in federal facilities. Jail inmates in the District of Columbia are included in BJS's Annual Survey of Jails. Some previously published prisoner counts include jail inmates in the District of Columbia for 2001, the last year of collection. Additional information about the NPS is available on the BJS website, including the NPS-1, NPS-1A, and NPS-1B data collection instruments.

### Survey response

All states and the BOP responded to the 2022 NPS-1B collection between January 1, 2023 and May 10, 2023.

Though it provides data on its annual custody and jurisdiction populations, Vermont has been unable to report counts of admissions and releases to the NPS-1B form since 2014. To impute admissions and releases, BJS used the Vermont DOC's 2022 release report ([https://doc.vermont.gov/sites/correct/files/documents/ReleaseReport\\_12-31-2022\\_0.pdf](https://doc.vermont.gov/sites/correct/files/documents/ReleaseReport_12-31-2022_0.pdf)) to establish the total releases of sentenced offenders. BJS used that number, along with the change in the sentenced jurisdiction population from yearend 2021 to yearend 2022, to determine the total number of admissions. Types of admission and release were not imputed, and the sex distribution of admissions and releases was assumed to be the same as Vermont DOC's last complete NPS-1B response in 2014.

### Updates to prison population measurement

In its 2022 submission, the Illinois DOC noted that the count of persons under their jurisdiction but housed in federal prisons in 2021 had been modified. The Indiana DOC revised its 2021 count of persons sentenced to more than 1 year under its jurisdiction.

### Estimating yearend counts of the prison population by sex, race or Hispanic origin, and age

National-level estimates of the number of persons by race and Hispanic origin under the jurisdiction of state prisons on December 31, 2022 were based on an adjustment of NPS counts to align with the Office of Management and Budget (OMB) definitions of race and ethnicity. OMB defines ethnicity (Hispanic) as a separate category, and race categories are defined exclusive of ethnicity. OMB adopted guidelines for collecting these data in 1997.

Not all NPS providers' information systems categorize race and ethnicity in this way. In addition, these data are administrative in nature and may not reflect a prisoner's self-identification of race and ethnicity. BJS adjusted the race and Hispanic origin data reported on the NPS-1B separately for state and federal prisoners. For state prisoners, BJS calculated the ratio of the distribution of state prisoners by race and Hispanic origin in BJS's self-reported prisoner surveys, which use OMB categories for race and ethnicity, to the distribution of prisoners by race and Hispanic origin in NPS-1B data for the year closest to the fielding of the survey. BJS then multiplied this ratio by the distribution of state prisoners' race and Hispanic origin using the current year's NPS-1B reported distribution. The percentage of persons self-reporting to the NPS-1B as non-Hispanic and as two or more races was assumed to be equal to the percentages of the self-reported prisoner survey. The final percentage distribution of race and Hispanic origin was multiplied by the total of sentenced state prisoners to obtain counts for each category.

The same adjustment methodology was used for the distribution of race and Hispanic origin among federal prisoners, as BJS used data from in-person surveys of federal prisoners. BJS summed state and federal estimates for race and Hispanic origin to produce the total counts published in table 3 and for detailed counts of prisoners by sex, age, and offense.

Prior to the *Prisoners in 2016* report, BJS used the race and Hispanic origin data from the 2004 Survey of Inmates in State Correctional Facilities (SISCF) to calculate the ratio for the adjusted state distribution, while the federal data were not adjusted. Starting in 2016, BJS conducted the Survey of Prison Inmates (SPI), which permitted adjustments with more recent data from both state and federal prisoners. To obtain 10-year estimates of race and Hispanic origin for both state and federal

prisoners, BJS calculated ratio adjustments for each year twice, once using the 2004 SISCOF and once using the 2016 SPI. BJS then weighted the ratios to reflect the number of years between the survey and estimate year. The ratios calculated using SISCOF data received higher weights for years closer to 2004, while those calculated using SPI data had higher weights for years closer to 2016. BJS then used the average of these weighted ratios.

For federal estimates, the SPI-adjusted NPS-1B data were multiplied by the ratio of the age category count within the sex and race or Hispanic origin combination in the Federal Justice Statistics Program (FJSP) to the FJSP total count within the sex and race or Hispanic origin combination (e.g., FJSP white males ages 18 to 19 divided by FJSP white males). The resulting product yielded FJSP-adjusted NPS-1B counts for each sex and race or Hispanic origin combination by age group (e.g., white male prisoners ages 18 to 19 in the federal prison system). A similar sex and race or Hispanic origin ratio adjustment for age distributions was used for state prison NPS-1B counts, based on individual-level data from the National Corrections Reporting Program (NCRP). State and federal estimates were added together to obtain national estimates for yearend prison populations.

BJS provides the unadjusted jurisdiction-level counts of prisoners by race and Hispanic origin for yearend 2022 in appendix table 1. These counts are derived from state DOC and BOP administrative data and do not necessarily reflect how persons in prison might self-identify for race and Hispanic origin. BJS has adjusted the race and Hispanic origin distributions in tables 3, 5, 6, and 10 to 13 and in figure 1 to account for differences between administrative and self-reported data. Historical adjusted counts of prisoners by race are archived through the National Archive of Criminal Justice Data.<sup>3</sup>

### **Estimating imprisonment rates by sex, race or Hispanic origin, and age**

BJS calculated age-specific imprisonment rates for each sex, adjusted race and Hispanic origin group, and age group by dividing the estimated number of sentenced prisoners within each age group under jurisdiction on December 31, 2022 by the estimated number of U.S. residents in each age group on January 1, 2023.

BJS multiplied the result by 100,000 and rounded to the nearest whole number. Totals by sex include all prisoners and U.S. residents, regardless of race or Hispanic origin.

---

<sup>3</sup>See <https://www.icpsr.umich.edu/web/NACJD/series/886>.

### **Non-U.S. citizens in prison**

The BOP and some DOCs reported the number of non-U.S. citizens under their jurisdiction or in their custody on December 31, 2022 to the NPS-1B. While the intention is for jurisdictions to report based on a prisoner's current citizenship status, some jurisdictions may have instead reported country of birth to the NPS-1B.

Starting in 2017, states and the BOP were asked to include the citizenship status of prisoners held in private facilities. In 2017, the BOP provided counts of non-U.S. citizens based on the country of current citizenship. In previous years, BOP counts were based on the country of birth, which led to a slightly higher count of non-U.S. citizens.

Non-U.S. citizens held in local jails under the jurisdiction of state correctional authorities were excluded from totals, unless otherwise noted.

### **Estimating offense distribution in the state and federal prison populations by sex, race or Hispanic origin, and age**

BJS employed a ratio-adjustment method to weight the individual-level offense data from the NCRP to the state prison control totals for sex and the estimated race or Hispanic origin from the NPS-1B, which yielded a national offense distribution for state prisoners. Prisoners missing offense data in the NCRP were excluded from the analysis prior to the weighting. Because data submission for the NCRP typically lags behind that of the NPS-1B, state estimates of offense distributions are published for the previous calendar year in tables 16, 17, and 18.

Federal estimates presented in tables 19 and 20 are obtained from the FJSP, and counts are based on prisoners who were convicted and sentenced to 1 year or more and who were under federal jurisdiction on September 30, 2022. Data are limited to prisoners sentenced on U.S. district court commitments or District of Columbia Superior Court commitments and to prisoners returned to federal custody following violations of probation (both federal and District of Columbia), parole, supervised release, or mandatory release. Estimates in tables 19 and 20 differ from previously published federal offense distributions presented in the FJSP web tool or *Federal Justice Statistics* bulletins and statistical tables on the BJS website because the FJSP publications exclude District of Columbia prisoners.<sup>4</sup>

---

<sup>4</sup>For the FJSP web tool, see <https://fccps.bjs.ojp.gov>.

Because the FJSP is a custody collection, the total count of prisoners in tables 19 and 20 differs from the jurisdiction count of prisoners reported to the NPS-1B. The distributions of race and Hispanic origin in tables 19 and 20 have not been adjusted to self-reported distributions because the adjustment to the total population made in earlier tables is based on prisoners sentenced to more than 1 year.

### **Prison capacities**

State and federal correctional authorities provide three measures of their facilities' capacity: design, operational, and rated capacity. Prison population estimates as a percentage of capacity are based on a state or federal custody population. In general, state capacity and custody counts exclude prisoners held in private facilities. However, five states include prisoners held in private or local facilities as part of the capacity of their prison systems: Arizona, Georgia, Idaho, South Dakota, and Virginia.

### **Military correctional data**

BJA obtains an annual aggregate count of service personnel held under military jurisdiction, as well as limited demographic and offense data from the Office of the Under Secretary of Defense for Personnel and Readiness. The U.S. Department of Defense disaggregates these data by the military branch in which prisoners served, by the branch having physical custody of the prisoner, and by whether the prisoner was an officer or was enlisted.

### **U.S. territories**

Data on prisoners under the jurisdiction of U.S. territorial correctional authorities are collected separately from state and federal NPS-1B data, and U.S. totals in this report exclude territorial counts. American Samoa did not provide 2022 NPS-1B(T) data. Data from an alternate source are shown in table 25.

**APPENDIX TABLE 1**

**Prisoners under the jurisdiction of state or federal correctional authorities, by jurisdiction and race or Hispanic origin, December 31, 2022**

Jurisdiction	Total	White <sup>a</sup>	Black <sup>a</sup>	Hispanic	American Indian/ Alaska Native <sup>a</sup>	Asian <sup>a</sup>	Native Hawaiian/Other Pacific Islander <sup>a</sup>	Two or more races <sup>a</sup>	Other <sup>a</sup>	Unknown	Did not report

*Continued on next page*

**APPENDIX TABLE 1 (continued)**

**Prisoners under the jurisdiction of state or federal correctional authorities, by jurisdiction and race or Hispanic origin, December 31, 2022**

Jurisdiction	Total	White <sup>a</sup>	Black <sup>a</sup>	Hispanic	American Indian/Alaska Native <sup>a</sup>	Asian <sup>a</sup>	Native Hawaiian/Other Pacific Islander <sup>a</sup>	Two or more races <sup>a</sup>	Other <sup>a</sup>	Unknown	Did not report
Wisconsin	20,873	9,153	8,312	2,168	985	249	0	0	/	6	0
Wyoming <sup>m</sup>	2,154	1,602	101	262	176	4	3	0	3	3	0

Note: Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. For jurisdiction-level information, see *Jurisdiction notes* on the BJS website. Counts are based on prisoners with any sentence status and were provided by state and federal departments of corrections' administrative record systems and may not reflect prisoners' self-identification of race or Hispanic origin. State, federal, and national totals by race or Hispanic origin differ from other tables in this report due to adjustments that BJS made in other tables to correct for differences between administrative records and prisoner self-reported data on race or Hispanic origin. As of December 31, 2001, persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons (BOP).

~Not applicable. Jurisdiction does not track this race or ethnicity.

/Not reported.

<sup>a</sup>Excludes persons of Hispanic origin (e.g., "white" refers to non-Hispanic white persons and "black" refers to non-Hispanic black persons).

<sup>b</sup>The BOP does not separate persons of Hispanic origin from the individual race categories when reporting to the National Prisoner Statistics. BJS used data from the 2022 Federal Justice Statistics Program (preliminary) to estimate Hispanic origin.

<sup>c</sup>Asians, Native Hawaiians, and Other Pacific Islanders were combined into a single category and reported in the Asian category.

<sup>d</sup>Department of Corrections (DOC) reported counts of prisoners by race that exceeded its jurisdiction population. Data in this table are those reported by the DOC.

<sup>e</sup>State does not collect data on two or more races.

<sup>f</sup>State does not collect data on Native Hawaiians, Other Pacific Islanders, or persons of two or more races.

<sup>g</sup>Asians, Native Hawaiians, and Other Pacific Islanders were combined into a single category and reported in the Other race category.

<sup>h</sup>Persons of two or more races are not separated by Hispanic origin.

<sup>i</sup>Persons of Hispanic origin may be undercounted due to data collection methods.

<sup>j</sup>State reported prisoners in 2022 in the Unknown race category who in years prior to 2021 may have been reported as Other.

<sup>k</sup>Counts based on in-state custody population plus persons held in privately operated prison facilities.

<sup>l</sup>State does not collect data on two or more races but includes these persons in the Other race category.

<sup>m</sup>Other includes persons of Middle Eastern/North African ancestry.

Source: Bureau of Justice Statistics, Federal Justice Statistics Program, 2022 (preliminary); and National Prisoner Statistics, 2022.

The Bureau of Justice Statistics of the U.S. Department of Justice is the principal federal agency responsible for measuring crime, criminal victimization, criminal offenders, victims of crime, correlates of crime, and the operation of criminal and civil justice systems at the federal, state, tribal, and local levels. BJS collects, analyzes, and disseminates reliable statistics on crime and justice systems in the United States, supports improvements to state and local criminal justice information systems, and participates with national and international organizations to develop and recommend national standards for justice statistics. Kevin M. Scott, PhD, is the acting director.

This report was written by E. Ann Carson, PhD, and Rich Kluckow, DSW. Stephanie Mueller, Todd Minton, Tracy Snell, and Laura Maruschak verified the report.

Eric Hendrixson edited the report. Jeffrey Link produced the report.
