District of Columbia • Marion Barry, Jr., Mayor
Criminal Justice Plans and Analysis

102222

MARION BARRY, JR.
MAYOR

THE DISTRICT OF COLUMBIA
WASHINGTON, D.C. 20004

Message from the Mayor

The District of Columbia is one of the best places in the world to live and work. Its cultural and educational facilities, its economic growth and opportunities, and its physical beauty are unsurpassed.

Undergirding all the city's assets is its strong record in the area of public safety and crime reduction. Without a strong public safety program, and a committed approach to protecting residents, and visitors alike, our city could not prosper as it has done over the past several years. Among the world's largest urban centers, the District of Columbia enjoys one of the highest standards of public safety. In 1985, reported Crime Index offenses in the District declined by 7 percent, marking the fourth consecutive year of crime reduction.

During my administration, I have given public safety a high priority and have undertaken many initiatives to improve and strengthen it. Most recently, I have launched a multifaceted crime reduction and prevention program that will help break the vicious cycle of social isolation, unemployment and drug use that propels some of our young people into criminal activity. These new efforts will focus resources on improving family life for youth.

This report shows our continued success in reducing crime, especially in the areas of burglary and robbery. At the same time, drug arrests remain high, reflecting the chronic and widespread problem of drug abuse in our community. Prison data provided about prisons show that their population rise is primarily a result of increased drug abuse convictions.

The citizens of the District played a large part in helping us reduce crime, through various crime prevention programs. I therefore invite and urge every citizen to join with me and their government in making the District of Columbia an even better place to build a happy and productive future.

Sincerely,

Marion Barry Jr.
Mayor

RECORDED

I. Introduction

One of the paramount responsibilities of any government is the protection of citizens. Under the leadership of Mayor Marion Barry Jr., the District of Columbia government has made public safety a number one priority. In the District, approximately 20 percent of the budget is allocated to public safety. In FY 1986, it is expected that more than \$550 million will be provided to operate the District's public safety agencies and the courts.

The District's public safety efforts begin with its crime prevention programs. To this end, the Metropolitan Police Department (MPD) helped establish many neighborhood watch programs, involving 93,000 households in neighborhood surveillance activities. MPD also operates other crime prevention programs, such as Operation Identification, the Officer Friendly Program, and numerous drug education workshops.

Recently, Mayor Barry announced a new, multifaceted, crime reduction and prevention program to assist juveniles who become involved in delinquent behavior, and consequently, the justice system. This new effort will employ an inter-departmental approach, using the resources of several District government agencies, to provide comprehensive support services to youth and their families.

The District's Office of Criminal Justice Plans and Analysis awarded 10 neighborhood grants in 1985 to help neighborhood groups operate juvenile delinquency prevention programs. Activities included street theater, drug prevention education, tutorial services, and self-concept building. This program will be repeated in FY 1986.

Other District agencies, such as the Department of Recreation and the Department of Employment Services, also operate programs which contribute to crime prevention.

When prevention efforts fail, a crime is committed, and a suspect is apprehended, processing through the criminal justice system begins. This process consists of several basic functions:

- (1) detection of crime and apprehension of offenders.
- (2) prosecution of criminal cases.
- (3) trial and convictions.
- (4) sentence, corrections, and parole.

Activities and decisions are measured at each stage. This information helps manage the use of criminal justice resources and helps guide the development of more effective programs.

The following report describes the activities and outcomes covering the different stages through which persons and/or cases are processed. The data are presented in an order that parallels the actual flow of cases through the criminal justice system. Data presented in the booklet are from the following agencies:

- (1) Metropolitan Police Department
- (2) Pretrial Services Agency
- (3) U.S. Attorney's Office
- (4) D.C. Office of the Corporation Counsel
- (5) D.C. Department of Corrections
- (6) D.C. Board of Parole

The data, in most instances, represent 5 and 10 year trends. Graphs and charts that appear in this report are derived from data found in the tables in the text and appendix sections.

^aThe following classifications will be used in this and subsequent tables:

Crime Index Total equals Violent Crime Total Plus Property Crime Total.

Violent Crime Total equals the sum of murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.

Property Crime Total equals the sum of burglary, larceny-theft, motor vehicle theft, and arson.

^bData for 1975-1976 include Manslaughter by Negligence which is a Part I Offense but not a Crime Index Offense.

^cArson was classified as an Index Crime in 1979 and is included in the Property Crime Total and Crime Index Total for 1979-1985 only.

SOURCES: Offenses for 1975-1976: Office of Criminal Justice Plans and Analysis, *1978 Comprehensive Criminal Justice Plan*, January 1978.

Offenses for 1977-85: Metropolitan Police Department, "Offenses Reported Under Uniform Crime Reporting Program," unpublished data.

Population Estimates: 1985 Population Estimates Limited States Bureau of Census 1985 Current Population Report #P 25951.

PREPARED BY: Office of Criminal Justice Plans and Analysis.

II. Reported Offenses

Reported offense data throughout the United States focus primarily on the eight major offenses defined by the Federal Bureau of Investigation as Crime Index offenses. These offenses are further divided into two groups: (1) violent offenses, which are murder, rape, robbery, and aggravated assault; and (2) property offenses, which are burglary, larceny-theft, motor vehicle theft, and arson.

In 1985, 50,367 Crime Index offenses were reported in the District of Columbia. This represents a crime rate of 8,034.3 per 100,000 residents. According to Table 1 (Figure 1), the number of reported Crime Index offenses declined in 1985 by 7 percent as compared with the previous year. It also marked the fourth consecutive year of a reduction in reported Crime Index offenses, and represents

the lowest number of reported Crime Index offenses since 1977.

Reported Crime Index rates in the District began to increase in 1977, rose until 1981, and declined thereafter. Since 1981, the number of reported Crime Index offenses decreased by 26 percent. This decrease over the last four years is primarily accounted for by declines in the number of burglaries (-41 percent), robberies (-50 percent), and larcenies (-24 percent).

Declines in reported Crime Index offenses are attributed to increased law enforcement measures, greater involvement by citizens in crime prevention efforts, and a decrease in the size of the District's young adult and juvenile population.

E R R A T A

Page 8, Figure 3

The solid line represents adult drug arrests; the broken line represents juvenile arrests.

Page 16, Figure 7

The legend in Figure 7 should be ordered as follows: Federal Prison (light red), Halfway Houses (red), Lorton (light blue), and Jail (blue).

III. Arrests

After a crime is reported, the police must determine the validity of the reported crime. Once validated, the police investigate and attempt to identify and apprehend a suspect. After an individual is taken into custody, the police decide, based on the facts of the case, which charges to impose and forward to the prosecutor.

The Metropolitan Police Department (MPD) is primarily responsible for law enforcement in the District of Columbia. At the end of 1985, 3,850 police officers served the MPD. Expenditures for the MPD amounted to \$155 million in FY 1985. In addition to the MPD, numerous law enforcement agencies, such as the U.S. Park Police, the Capital Police, and the Metro Security Force, are located in the District.

The number of persons arrested for Crime Index offenses in 1985 rose slightly from 10,907 in 1984 to 11,438 in 1985, representing a 5 percent increase. Adult arrests increased slightly, rising from 8,856 in 1984 to 8,995 in 1985, while juvenile arrests increased from 2,051 in 1984 to 2,443 in 1985 (Figure 2, Tables 2,3).

The number of juvenile arrests for Crime Index offenses represents the major indicator of juvenile arrests for delinquent activity. Since 1975, juvenile arrests for Crime Index offenses decreased each year until 1985. From 1984 to 1985, juvenile arrests for Crime Index offenses increased by 19 percent. Most of this rise is the result of a 118 percent increase in arrests for aggravated assault.

Figure 2
Crime Index Arrests in D.C.

Part II crimes are comprised of all other criminal offenses not included in the Crime Index categories. The number of arrests for Part II crimes increased from 32,360 in 1984 to 35,154 in 1985 (Table 6). The number of arrests for Part II crimes has increased annually for the last five years. Since 1979, arrests for Part II crimes have increased by 22 percent.

The increase in Part II arrests over the last several years has been caused by a dramatic rise in the number of adult

drug arrests, which rose from 4,241 in 1981 to 8,649 in 1985, representing a 104 percent increase. During this same period, the number of juveniles arrested for drug law violations increased from 315 to 883, a 180 percent increase (Figure 3, Table 4). The proportion of adult drug arrests involving sales, as compared to possession, has increased from 3 percent in 1980 to 36 percent in 1985 (Table 5).

IV. Prosecution

After a person has been arrested and charged, the charge and any additional information about that person is forwarded by the police to the prosecutor's office. In the District, the Office of the Corporation Counsel handles the prosecutions of all juvenile cases, all traffic cases, some misdemeanor cases, and all civil suits in which the District of Columbia government is a party. The United States Attorney's Office handles the prosecution of all other criminal cases.

The number of adult criminal prosecutions increased from 19,975 in 1984 to 21,115 in 1985, representing a 6 percent growth. Felony prosecutions during the same period rose from 6,707 to 7,480, a 12 percent increase (Figure 4, Tables 7, 8).

The rise in felony prosecutions over the last several years is primarily the result of a dramatic increase in the number of persons prosecuted for felony drug law violations, since 1983, that number more than tripled from 969 to 2,968 in 1985, a 206 percent increase.

V. Convictions

The flow of cases from the point of arrest through sentencing involves a series of court hearings and actions. Those charged as adults with felony crimes go through the following steps:

- (1) *Felony Presentment* — Person is informed of charge, counsel is appointed (if necessary), pre-trial status is determined, and date is set for preliminary hearing (unless waived).
- (2) *Preliminary Hearing* — A judge determines from the evidence presented by the prosecution if there is probable cause to believe that a crime has been committed.
- (3) *Grand Jury* — The prosecutor's evidence is reviewed, and if the evidence is sufficient, an indictment is issued.
- (4) *Arraignment* — Indictment charges are presented, a plea is entered, and a trial date may be set.

- (5) *Trial* — If a felony defendant pleads not guilty, a trial takes place and a determination of guilt or innocence is made.

If a defendant pleads guilty, or if a defendant is found guilty by a judge or jury, a conviction is established and a sentence is imposed.

In 1985, there were 13,188 adult convictions, as compared with 10,992 in 1984 (Figure 5, Tables 9, 10). The number of felony convictions increased by 32 percent from 3,754 in 1984 to 4,942 in 1985. Misdemeanor convictions rose from 7,238 in 1984 to 8,246 in 1985, representing a 14 percent increase.

Since 1982, the number of adult felony convictions in the District has increased by 86 percent while adult misdemeanor convictions increased by only 15 percent.

The rise in adult felony convictions over the last several years is accounted for by an increase in felony drug convictions. Since 1981, the number of adult felony drug convictions has risen from 273 to 2,250 in 1985, a 724 percent increase.

VI. Juvenile Prosecutions and Dispositions

The District's juvenile justice system differs, to some extent, from the adult justice process. Juvenile law enforcement is handled by the Youth Division of the Metropolitan Police Department, and prosecutorial functions are performed by the District's Office of the Corporation Counsel.

A probation officer is assigned to review all alleged delinquent cases. The officer delivers a recommendation for petitioning (prosecution) or no petitioning (no prosecution) to the Office of the Corporation Counsel. If a case is not petitioned, the juvenile is released without further court action. If the case is petitioned, it is forwarded for either a detention hearing or an initial hearing. Of 2,380 juvenile cases in 1985, 1,679 (71 percent) were petitioned. Assault (28 percent), motor vehicle theft (23 percent),

robbery (17 percent), and burglary (17 percent) were the cases most frequently petitioned in 1985 (Table 11).

In disposing of a juvenile case, the judge may exercise one of several options including:

- (1) commitment to the Youth Services Administration.
- (2) probation.
- (3) consent decree (conditional supervision by court).
- (4) suspended commitment.
- (5) closed without a finding.

In 1985, 1,370 juveniles either pled or were found guilty of delinquent offenses. This compares with 1,437 in 1984, a 5 percent decrease. The percentage of dispositions resulting in guilty findings remained virtually the same, at approximately 55 percent (Figure 6, Table 12).

VII. Corrections

The District of Columbia Department of Corrections was established in 1946 and is responsible for the administration and operation of the District's jail and prison system for adults, as well as for operation of various community correctional centers and programs.

The District's sentencing facilities are in Lorton, Virginia on a 3,600 acre site. Minimum, medium, and maximum security facilities are used to house the majority of the District's male sentenced population. The District's Detention Facility (Jail) is in the District of Columbia and is primarily used to house persons awaiting trial. The District also uses the Federal Bureau of Prisons to house sentenced offenders.

Since 1980, the number of prison bedspaces increased by 1,887. During the same period, the number of correc-

tional officers increased by 605. Expenditures by the D.C. Department of Corrections increased from approximately \$59 million in FY 1980 to more than \$160 million in FY 1985.

The District's average daily prison population rose from 7,108 in 1984 to 8,368 in 1985, representing an 18 percent increase. Since 1981, the prison population has increased by 62 percent (Figure 7, Tables 13, 14). This reflects an increasing number of arrests, guilty dispositions, persons denied pre-trial release, and mandatory sentencing.

As indicated in Table 15, the proportion of persons sentenced to Lorton for drug law violations continues to increase, rising from 12 percent in 1981 to 22 percent in 1985. This rise stems from specific increases in arrests, prosecutions and convictions for drug law violations.

VIII. Parole

In the District of Columbia, persons convicted of crimes and sentenced to terms of imprisonment generally become eligible for parole after serving approximately one-third of their maximum term. If conditions of release are violated, the Board of Parole may revoke parole and return that person to prison.

The number of parole releases declined from 1,163 in 1983 to 842 in 1985, representing a 28 percent decrease (Figure 8, Table 16). The number of parole revocations in-

creased from 298 in 1983 to 529 in 1985, representing a 78 percent increase. The 529 total in 1985 represents the highest number of annual parole revocations during the last five years.

Implementation of more stringent guidelines may have contributed to the reduction in parole releases. Recent changes in parole rules governing revocations appear to be contributing factors to the increase in the number of parole revocations.

IX. Summary

Reported Crime Index trends in the District continued their downward movement in 1985. The number of arrests increased due to a rise in adult and juvenile drug arrests. Adult felony and misdemeanor prosecutions and convictions continued to rise as a result of an increase in the number of persons charged with and convicted of felony drug law violations.

The District's average daily prison population has continued to rise, reflecting the increase in arrests, prosecutions, and convictions for drug law violations. The number of parole releases declined while the number of parole revocations increased.

Appendix A — Definitions¹

A. PART I OFFENSES

1. Criminal Homicide

a. Murder and Non-Negligent Manslaughter

All willful felonious homicides as distinguished from deaths caused by negligence, and excludes attempts to kill, assaults to kill, suicides, accidental deaths, or justifiable homicides. Justifiable homicides are limited to:

- (1) the killing of a felon by a law enforcement officer in the line of duty; and
- (2) the killing of a person in the act of committing a felony by a private citizen.

b. Manslaughter by Negligence²

Any death which the police investigation established was primarily attributable to gross negligence of some individual other than the victim.

2. Forcible Rape

The carnal knowledge of a female forcibly and against her will in the categories of rape by force and attempts of assaults to rape. Excludes statutory offenses (no force used — victim under age of consent).

3. Robbery

Stealing or taking anything of value from the care, custody, or control of a person by force or by violence or by putting in fear, such as strong-arm robbery, stickups, armed robbery, attempts or assaults to rob.

4. Aggravated Assault

Assault with intent to kill or for the purpose of inflicting severe bodily injury by shooting, cutting, stabbing, maiming, poisoning, scalding, or by the use of acids, explosives, or other means. Exclude simple assaults.

5. Burglary

Housebreaking or any breaking or unlawful entry of a structure with the intent to commit a felony or a theft. Includes attempted forcible entry.

6. Larceny-theft

The unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another. Thefts of bicycles, automobile accessories, shoplifting, pocket-picking, or any stealing of property or article which is not taken by force and violence or by fraud. Excludes embezzlement, "con" games, forgery, worthless checks, etc.

7. Motor Vehicle Theft

Unlawful taking or attempted theft of a motor vehicle. A motor vehicle is self-propelled and travels on the surface rather than on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

B. PART II OFFENSES

1. Other Assaults (Simple)

Assaults which are not of an aggravated nature and where no weapon is used.

2. Arson

Willful or malicious burning with or without intent to defraud. Includes attempts.

3. Forgery and Counterfeiting

Making, altering, uttering or possessing, with intent to defraud, anything false which is made to appear true. Includes attempts.

4. Fraud

Fraudulent conversion and obtaining money or property by false pretenses. Includes bad checks except forgeries and counterfeiting. Also includes larceny by bailee.

5. Embezzlement

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

6. Stolen property; buying, receiving, possessing

Buying, receiving, and possessing stolen property.

7. Vandalism

Willful or malicious destruction, injury, disfigurement, or defacement of property without consent of the owner or person having custody or control.

8. Weapon; carrying, possessing, etc.

All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Includes attempts.

9. Prostitution and Commercialized Vice

Sex offenses of a commercialized nature and attempts, such as prostitutes, keeping a bawdy house, procuring or transporting women for immoral purposes.

¹All definitions are from the U.S. Department of Justice, Federal Bureau of Investigation, *Uniform Crime Reports for the United States*, Washington, D.C.: U.S. Government Printing, 1977.

²While Manslaughter by Negligence is a Part I crime, it is not included in the Crime Index.

10. **Sex Offenses (except forcible rape, prostitution, and commercialized vice)**
Statutory rape, offenses against chastity, common decency, morals, and the like. Includes attempts.
11. **Drug Abuse Violations**
Offenses relating to narcotic drugs, such as unlawful possession, sale, use, growing, and manufacturing of narcotic drugs.
12. **Gambling**
Promoting, permitting, or engaging in illegal gambling.
13. **Offenses Against the Family and Children**
Nonsupport, neglect, desertion, or abuse of family and children.
14. **Driving Under the Influence**
Driving or operating any motor vehicle or common carrier while drunk or under the influence of liquor or narcotics.
15. **Liquor Laws**
State or local liquor law violations, except "drunkenness" (class 23) and "driving under the influence" (class 21). Excludes Federal violations.
16. **Drunkenness**
Drunkenness or intoxication.
17. **Disorderly Conduct**
Breach of the peace.
18. **Vagrancy**
Vagabondage, begging, loitering, etc.
19. **All Other Offenses**
All violations of state or local laws, except classes 1-2: and traffic.
20. **Suspicion**
No specific offense; suspect released without formal charges being placed.
21. **Curfew and loitering laws**
Offenses relating to violation of local curfew or loitering ordinances where such laws exist.
22. **Runaway**
Limited to juveniles taken into protective custody under provisions of local statutes.

APPENDIX B—Statistical Tables

These additional tables provide information on arrests for Crime Index offenses, adult Part II drug arrests by type of drug, and juvenile drug charges by type of drug.
