INTRODUCTION

The North Dakota Uniform Crime Report (UCR) Program was established in response to the need for timely, accurate, and reliable reporting of the number and nature of crimes. The data obtained through the UCR Program serve as a set of uniformly defined criminal statistics for inter-agency, interstate, or national comparisons.

Crime in North Dakota, 1992 is the result of a comprehensive analysis of the Uniform Crime Reports. It is intended to serve as a summary of statistics on crime in the counties and state of North Dakota and to provide legislators, government administrators (state, county, and city), law enforcement officials, the judiciary, and the general public with the most complete, reliable information available on reported criminal activity in North Dakota.

North Dakota law enforcement agencies may report UCR data in two ways.

Summary Reporting is a tally system of reporting the number of crime index offenses and arrests for each month. The summary system has been in place for many years.

Incident Based Reporting uses a standard incident form to collect data on each incident reported to the agency. This system collects more detailed information than is collected using summary reporting. Some examples of data collected are: type of incident; where and when the incident took place; victim characteristics; suspect/arrestee characteristics; and property involved in the incident.

In order to continue the statistical time series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. Crime in North Dakota, 1992 is a report on summary data. In the future, reports utilizing the more detailed incident data will be published.

Data collection, report preparation and publication of this report is supported by a grant from the Bureau of Justice Statistics, U.S. Department of Justice.

NORTH DAKOTA CRIME SUMMARY, 1992

In 1992, 18,382 crime index offenses were reported by local law enforcement agencies. This is an increase of 8 percent from the total of 17,021 reported in 1991.

Crime index offenses include: murder/non-negligent manslaughter; forcible rape; robbery; aggravated assault; burglary; larceny/theft; and motor vehicle theft.

The Census Bureau estimate of North Dakota's population in 1992 was 636,000. The index crime rate per 100,000 population for 1992 was 2890.3. The index crime rate for 1991 was 2680.5.

The total number of reported violent index crimes (murder, rape, robbery, and aggravated assault) was 552. This represents an increase of 38 percent from the total of 401 reported in 1991.

Violent crime accounted for 3 percent of total index crimes reported in 1992.

Collectively, property crimes (burglary, larceny/theft, motor vehicle theft) increased 7 percent from 16,620 offenses in 1991 to 17,830 reported in 1992.

Ninety-seven percent of index crimes reported in North Dakota were property crimes.

The 14,452 larceny/thefts reported in 1992 accounted for 79 percent of total index crimes.

Over 11.2 million dollars worth of property was reported lost to crime in 1992 with 23 percent of that amount reported as recovered by law enforcement officials.

(This page intentionally left blank.)

NORTH DAKOTA UCR PROGRAM

The North Dakota Uniform Crime Reporting (UCR) Program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Forty-nine sheriff's offices and 41 police departments reported to the UCR program in 1992.

Law enforcement agencies may report UCR data in two ways:

INCIDENT BASED REPORTING: Law enforcement agencies use a standard incident form to collect data on each incident reported to their agency. This form collects much more detailed information than is collected using summary reporting. Data collected includes: type of incident; where and when the incident took place; victim characteristics; suspect/arrestee characteristics; property involved in the incident; etc. Eighty agencies reported incident data for all or part of 1992. (Several agencies reported summary data for part of the year then switched to incident-based reporting.)

In order to continue the statistical time-series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. Crime in North Dakota, 1992 is a report on summary data. In the future, reports utilizing the more-detailed incident data will be published.

SUMMARY REPORTING: Law enforcement agencies use a tally system to report the number of crime index offenses and arrests for each month. Ten law enforcement agencies reported summary data for the full year of 1992.

The federal counterpart of the North Dakota UCR program is the National UCR program under the direction of the FBI. The UCR Program has been used nationally and in North Dakota for many years to measure the extent, distribution, and fluctuation of crime through the crime index. The crime index is not an absolute measure, but rather an indication of the amount and type of crime occurring in any given jurisdiction. The index is composed of seven crimes recognized as the most serious crimes in our society and the most frequently reported to law enforcement. The seven crimes are subclassified as follows:

VIOLENT CRIME:	Murder/Non-Negligent Manslaughter
	Rape
	Robbery
	Aggravated Assault
PROPERTY CRIME:	Burglary
	Larceny/Theft
	Motor Vehicle Theft

Federally, a Modified Crime Index is also calculated. This includes arson as the fourth property crime and the eighth index offense. Data on arson is not included in this report.

Prior to an offense becoming recorded in the UCR program, it must first be brought to the attention of local law enforcement officials and then must be reported by these local agencies to the UCR program. Therefore, the UCR program can only reflect crime indirectly in its reports as the statistics gathered in the program are based on reported offenses only. No one can state precisely how much crime goes unreported each year. Reporting of crimes depends on several factors, including actual perception of an act as being a crime, the probability of loss of status for reporting (as in cases of rape), and the perceived probability of action on the part of the law enforcement agency contacted.

Several types of data are gathered, including:

Offense Data

- The number of known crime index offenses
- Type and value of stolen property
- Additional information on homicides and arsons
- Law enforcement officers killed or assaulted

Arrest and Clearance Data

- Numbers and types of index offenses cleared
- Numbers and types of index offenses cleared involving juveniles
- Number of persons arrested by offense
- Characteristics of persons arrested (age, sex, race)

To allow for comparison among several geographic and/or jurisdictional areas with differing populations, or to allow comparison across time of an area undergoing population fluctuations, the UCR program provides for the calculations of crime rates to remove any potential biases created by population differences. Since a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. Federally, UCR crime index rates are calculated based on the number of reported offenses per 100,000 population.

Crime Index Offenses

INDEX OFFENSE TOTAL	17021	18382	8

VIOLENT CRIME

- Violent crime includes the offenses of murder/non-negligent manslaughter, forcible rape, robbery, and aggravated assault. See Appendix A for UCR definitions of these and other index offenses.
- In 1992, 552 violent crimes were reported in North Dakota. This is a 38 percent increase from the 1991 total of 401 offenses.
- Violent crime totaled 3 percent of reported index crimes in North Dakota.
- Nationally, the FBI reported that violent crimes were approximately 13 percent of total index offenses. See Appendix F for information regarding violent crime rates reported in Crime in the United States, 1992.
- Figure 2 below illustrates the yearly totals of violent crimes reported in North Dakota for the period of 1973 through 1992. See Appendix E for yearly totals and rates of violent crime.

FIGURE 2
Violent Crime Totals
1973-1992

MURDER/NON-NEGLIGENT MANSLAUGHTER

The UCR program defines Murder/Non-Negligent Manslaughter as the "willful killing of one human being by another." Attempts to murder, assaults to murder, suicides, accidental deaths, justifiable homicides, and deaths caused by gross negligence are not included in this category.

- Fifteen murder/non-negligent manslaughters were known to the North Dakota UCR program in 1992.
- Twelve of the 15 victims were adults and 10 were male.
- Eight victims were slain with firearms. Four victims died as the result of knife wounds, 2 died from blows with blunt objects, and one child died of head injuries.
- Information regarding relationship between the victim and offender was not available for one incident in 1992. Of those cases in which relationship was reported, 13 of 14 victims knew their assailant(s).
- The 1992 state murder/non-negligent manslaughter rate is 2.4 per 100,000 population. The FBI estimates the national murder rate for 1992 at 9.3 per 100,000 inhabitants.
- In 1991, 11 deaths due to this offense were reported. The resulting murder/non-negligent manslaughter rate was 1.7 per 100,000 population.
- Figure 3 below presents the yearly murder/non-negligent manslaughter totals for the period 1973-1992. Data prior to 1978 does not include deaths occurring on the state's reservations. While law enforcement officials on the reservations do not report crime data to the UCR program, any known homicides are included in our state total.

FIGURE 3
Murder/Non-Negligent Manslaughter Totals
1973-1992

TABLE 3
Murder/Non-Negligent Manslaughter Summary
North Dakota, 1992

Date and Location of Incident	Victim(s)		Assallant(s)		Weapon Used	Relationship of Victim to Assallant	Circumstances
	AGE	SEX	AGE	SEX			
01/08/92 Rural Judson Morton County	71	M	63	M	.22 cal. Rifle	Brother	Man found shot to death in his home. Weapons stolen.
01/13/92 Bismarck	32	F	33	M	.45 cal. Handgun	Estranged Wife	Assallant violated protection order and shot victim at her home.
01/27/92 Menoken Burleigh County	40 44 16 12	F M F M	15	M	.32 cal. Rifle	Mother Father Sister Brother	Victims were found shot to death in their home.
03/30/92 Minot	INFANT	M	23	M	Beating	Son	Victim died of a head injury.
04/17/92 New Town Fort Berthold Res.	32	M	21 27	M M	Knife	Acquaintance Acquaintance	Victim was found in his home. His throat had been cut and a fire had been started.
06/09/92 Tioga Williams County	43	M	25	M	Blunt Object	Acquaintance	Victim was a transient who was hit over the head and thrown from a moving train by another transient.
06/27/92 Mandaree Fort Berthold Res.	25	M	20	F	Knife	Boyfriend	Victim was stabbed twice in the back by girlfriend after an argument.
07/04/92 Fargo	27	M	24 29	M M	Blunt Object	Acquaintance Acquaintance	Victim was found beaten to death on a Fargo street.
07/14/92 Golden Valley Co.	72	M	34	M	Handgun	Stranger	Victim was shot to death at a rest area. Apparent robbery.
08/06/92 Fort Totten Fort Totten Res.	86	F	14	M	Knife	Unknown	Victim was found stabbed to death in her home. Forcible entry.
09/25/92 Fargo	61	F	36	F	Knife	Mother	Victim was stabbed in the back by her daughter.
11/02/92 Bismarck	33	M	32	F	12-guage Shotgun	Former Boyfriend	Victim was shot at assallant's residence.

FORCIBLE RAPE

The UCR program defines Forcible Rape as "carnal knowledge of a female forcibly and against her will." Assaults to rape, attempts to commit rape by force or threat of force are included. Carnal abuse, statutory offenses (no force -- victim under age of consent), and other sex offenses are not included.

- In 1992, 162 forcible rapes were reported to local law enforcement in North Dakota. This is an increase of approximately 35 percent from the 1991 total of 120 offenses.
- Of the forcible rape offenses, 157 were rapes by force and 5 were reported as assaults or attempts to rape.
- Figure 4 is a graph of yearly totals for reported rapes during the period 1973 through 1992. See Appendix E for yearly totals and rates of forcible rape.
- Since the UCR definition states that victims of rape must be female, the rate of occurrence for reported rapes is calculated based only on the female population. The Census Bureau's 1992 population estimate for North Dakota is 636,000. The number of females is approximately half of that figure. The resulting rate is 50.9 reported rapes per 100,000 females in 1992, compared with 37.8 per 100,000 females in 1991. Nationally, the FBI's UCR statistics estimate a forcible rape rate of 84 per 100,000 females.
- In North Dakota, forcible rape accounted for about 29 percent of violent index crimes and 0.9 percent of total index crimes reported. Murder/non-negligent manslaughter and robbery are the only offenses which have smaller percentages, accounting for 0.1 percent and 0.3 percent of total index offenses, respectively.

FIGURE 4
Forcible Rape Totals
1973-1992

ROBBERY

Robbery is defined by the UCR program as "the taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear."

- Fifty-three robberies were reported in North Dakota in 1992, an increase of 13 percent from the 47 reported in 1991.
- Figure 5 presents reported robberies totals each year for the twenty-year period 1973-1992.
- The 1992 robbery rate was approximately 8.3 per 100,000 population as compared with 7.4 per 100,000 population in 1991. The 1992 national robbery rate was estimated at 263.6 per 100,000 inhabitants.
- The value of property reported stolen in robberies in North Dakota was \$31,415, compared with \$22,989 in 1991.
- The average robbery in 1992 involved \$593 worth of property.

FIGURE 5
Robbery Totals
1973-1992

- The UCR program categorizes robberies both by type of weapon used and place of occurrence. Table 4 provides a breakdown by type of weapon used. About 25 percent of the reported robberies involved the use of personal weapons (hands, fists, feet, etc.). Firearms were used in 26 percent of the incidents.
- Nationally, firearms were used in 40 percent of robberies and another 40 percent involved strong-arm tactics. Knives and other dangerous weapons were used in 11 and 9 percent of robberies, respectively.
- Table 5 presents a breakdown of robberies by place of occurrence for North Dakota in 1992.

TABLE 4
Robbery by Type of Weapon Used
North Dakota, 1992

Type of Weapon	Number Reported	Percent of Total Robbery Offenses Reported
Firearm	14	26.4 %
Knife or Cutting Instrument	7	13.2

Total Robbery	53	31415	592.74

AGGRAVATED ASSAULT

The UCR program defines Aggravated Assault as "an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed."

- In 1992, 322 aggravated assaults were reported in North Dakota. In 1991, 223 aggravated assaults were reported.
- The aggravated assault rate for North Dakota in 1992 was 50.6 per 100,000 population. The FBI estimated a national aggravated assault rate of 441.8 per 100,000 population.
- Figure 6 illustrates the yearly totals of aggravated assaults for the period 1973-1992. See Appendix E for yearly totals and rates for aggravated assaults.
- Table 7 on the following page is a percentage distribution of the types of weapons used in aggravated assaults.

FIGURE 6
Aggravated Assault Totals
1973-1992

- Approximately 53 percent of reported aggravated assaults in North Dakota in 1992 involved the use of personal weapons (hands, fists, feet, etc.). Firearms were used in approximately 6 percent of the total aggravated assaults.
- Nationally, 31 percent of aggravated assaults involved the use of blunt objects or other dangerous weapons. Twenty-six percent of aggravated assaults involved personal weapons, 25 percent involved firearms and 18 percent involved the use of a knife.

TABLE 7
Aggravated Assault by Type of Weapon Used
North Dakota, 1992

Type of Weapon Used	Number Reported	% of Total Aggrav. Assault Offenses Reported
Hands, Fists, Feet, Etc.	172	53.4 %
Other Dangerous Weapon	87	27.0
Knife or Cutting Instrument	43	13.4
Firearm	20	6.2
Total Aggravated Assault	322	100.0

PROPERTY CRIME

- Property crime includes the offenses of burglary, larceny/theft, and motor vehicle theft.
- In 1992 the total number of property crimes reported was 17,830. This is an increase of 7 percent from the 1991 total of 16,620 offenses.
- Property crime accounts for approximately 97 percent of the index offenses reported in North Dakota.
- Figure 7 presents property crime totals in North Dakota for the period from 1973 through 1992. See Appendix E for yearly totals and rates for property crime.

FIGURE 7
Property Crime Totals
1973-1992

BURGLARY

The UCR program defines burglary as the "unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary." Burglaries are classified into three categories: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

- In 1992, 2,435 burglaries were reported to the UCR program. This is a 6 percent increase from the total of 2,305 reported in 1991.
- Figure 8 illustrates burglary totals each year for the period of 1973 through 1992. See Appendix B for more information on the number of reported burglaries and rate of occurrence for each reporting jurisdiction.
- The rate of burglaries based on population is 382.9 per 100,000 inhabitants for 1992, as compared with 363.0 per 100,000 in 1991. Nationally, the estimated burglary rate for 1992 is 1168 per 100,000 population.

FIGURE 8
Burglary Totals
1973-1992

- The UCR program also classifies burglaries by the time and location. Table 8 below presents this breakdown.
- Approximately 57 percent were burglaries of non-residences. Sixty percent of the burglaries occurred at night.
- Table 9 is a percent distribution of total burglaries reported by type of entry.
- Over 60 percent of burglaries involved forcible entry.
- The average burglary involved \$851 worth of property.

TABLE 8
Burglary
By Location and Time of Occurrence
North Dakota, 1992

Time of Day	Residence	Non-Residence	Total
Night	507	961	1468

Total Burglaries	2435	2,073,003	851.36

LARCENY/THEFT

The UCR program defines larceny/theft as the "unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting Program, this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category inasmuch as it is a separate crime index offense."

- A total of 14,452 larceny/thefts were reported in North Dakota in 1992. This is a 7 percent increase from the 1991 total of 13,543.
- The larceny/theft rate per 100,000 population was 2272.3 compared to 2132.8 in 1991.
- Nationally, the FBI estimated larceny/theft rate for 1992 was 3103 per 100,000 population.
- The average dollar value per offense increased from \$348 in 1991 to \$462 in 1992.
- Larceny/thefts accounted for 78.6 percent of the total index offenses reported and amounted to approximately 60 percent of the total value of stolen property.
- The total reported larceny/thefts in North Dakota each year from 1973 through 1992 is illustrated in Figure 9.

FIGURE 9
Larceny/Theft Totals
1973-1992

- A percentage distribution of reported larceny/thefts is presented in Table 11. The largest single category of reported larceny/thefts was thefts from motor vehicles with nearly 21 percent of the total. Approximately 26 percent of all larceny/thefts reported in North Dakota fall into the "All other" category.
- The UCR program classifies larceny/theft offenses by the dollar values involved. See Table 12.

MOTOR VEHICLE THEFT

Motor vehicle theft is defined by the UCR program as "the theft or attempted theft of a motor vehicle, this offense category includes the stealing of automobiles, trucks, buses, motorcycles, motorscooters, snowmobiles, etc. The definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access."

- A total of 943 motor vehicle thefts were reported in 1992. This is an increase of 22 percent from the 1991 total of 772.
- The resulting motor vehicle theft rate for North Dakota is 148.3 per 100,000 population. A national motor vehicle theft rate estimate of 631.5 per 100,000 population was reported in Crime in the United States, 1992.
- Figure 10 illustrates the total motor vehicle thefts each year from 1973 through 1992.

FIGURE 10
Motor Vehicle Theft Totals
1973-1992

- The UCR program classifies motor vehicle thefts by type of vehicle. Table 14 is a percentage distribution by vehicle type. The "Other Vehicles" category includes all other motor vehicles as limited by the UCR program definition. Examples include motorcycles, snowmobiles, trail bikes, etc. Thefts of farm equipment, airplanes, and construction equipment are not included in the motor vehicle theft category, but are reported as larceny/thefts.

TABLE 14
Type of Vehicle Stolen
North Dakota, 1992

Type of Vehicle	Number Reported	Percent of Total Motor Veh. Thefts Reported
Autos	751	79.6 %
Trucks and Buses	131	13.9
Other Vehicles	61	6.5
Total Motor Vehicle Thefts	943	100.0

TABLE 15
Value of Stolen Motor Vehicles
North Dakota, 1992

	Number Reported	Total Value	Average Value
Total Motor Vehicle Thefts	943	\$ 2,431,575	\$ 2,578.55

CLEARANCES

The UCR program defines an offense as "cleared" by law enforcement when "at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. Several crimes may be cleared by the arrest of one person, while the arrest of many persons may clear only one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances allowing such clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition."

- Approximately 26 percent of the reported index offenses were reported cleared in North Dakota in 1992.
- In North Dakota, approximately 60 percent of total violent index crimes reported to the UCR program were reported cleared in 1992. Clearance rates for violent crimes ranged from 46 percent for forcible rape to 100 percent for murder/non-negligent manslaughter. See Table 16 for further information.
- Approximately 25 percent of the total property index crimes were reported cleared in 1992. Clearance rates for the individual property crimes range from 18 percent for burglary to 40 percent for motor vehicle theft.

TABLE 16
Clearance Rates
by Index Offense
1991-1992

Index Offense	1991	1992	1992 U.S.
Murder/Non-Negligent Manslaughter	82 %	100 %	65 %
Forcible Rape	43	46	52
Robbery	40	51	24
Aggravated Assault	65	66	56
Burglary	18	18	13
Larceny/Theft	26	25	20
Motor Vehicle Theft	42	40	14

ARRESTS

- Although primarily an indication of law enforcement activity, the number of arrests reported does provide a limited profile of the perpetrators of crime, especially for those crimes which have high clearance rates. Differing arrest practices, policies and enforcement emphases among agencies influence the volume of arrests for various offenses, particularly those against public order such as vagrancy, disorderly conduct, and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be consistent and uniform throughout all jurisdictions across the state.
- The UCR program requires that an arrest be counted on each separate occasion an individual is taken into custody. Although several charges may be lodged against a person at the time of the arrest, only one arrest is counted for each separate time the individual is taken into custody.
- North Dakota law enforcement agencies reported 26,483 arrests in 1992. A total of 25,532 arrests were reported in 1991.
- In 1992, approximately 28 percent of total arrests were arrests of juveniles.
- Seventy-five percent of total arrests were males.
- About 2 percent of total arrests were reported without age information.
- Juveniles were arrested most often for larceny/theft.
- The offense committed most often by adult males was driving under the influence. Adult females were arrested most often for fraud. See Appendix G for arrest information by age, sex and offense.
- Only 4,575, or 17 percent, of the reported arrests were arrests for crime index offenses. Approximately 55 percent, or 2,506, of these were arrests of juveniles. In 1991, 53 percent of arrests for crime index offenses were arrests of juveniles.
- The 9,190 reported arrests for DUI and liquor law violations represents approximately 35 percent of the total arrests reported in the state of North Dakota in 1992. Arrests for DUI increased 3 percent from 4,607 in 1991 to 4,745 in 1992. Liquor law violation arrests decreased slightly from 4,448 reported in 1991 to 4,445 reported in 1992.
- Table 21 reviews arrests reported in 1992 in terms of racial category. Approximately 88 percent of total arrests were white, about 10 percent were Native American.
- These statistics are provided by local law enforcement agencies which contribute to the North Dakota UCR program. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies currently do not participate in the UCR program.

INDEX OFFENSES BY REPORTING JURISDICTION

- Table 24 ranks the cities by crime rate per 100,000 population for 1992.
- In 1992, 49 of the 53 county sheriff's departments reported directly to the UCR program. Forty-one city police departments submitted data.
- Table 25 lists county population, the number of index offenses reported by the county sheriff's office and county index crime rate per 100,000 population for 1992. Total offenses reported varied from 0 reported by the Billings County Sheriff's Office to 236 index offenses reported by Cass County Sheriff's Office.

INDEX OFFENSES BY JUDICIAL DISTRICT

- This section presents index crime rates calculated for each judicial district to provide for ready comparison with data on court caseloads published annually by the state court administrator. Figure 11 is a map of the judicial district boundaries. The crime rate for each district for 1992 is shown in Table 26 and a ranking is given by crime rate.
- Geographic size and population size seem to impact reported crime most significantly when a relatively large population is grouped into a relatively small geographical area, as in the cases of the East Central and Northeast Central Judicial Districts.

FIGURE 11
Judicial District Boundaries

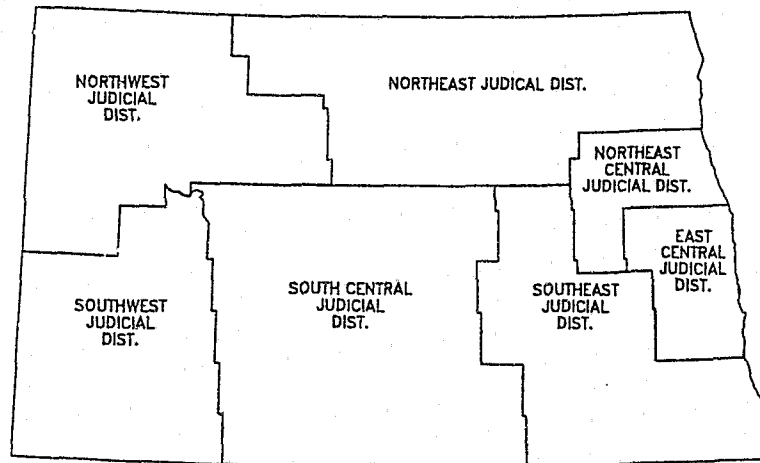

TABLE 26
Index Offenses by Judicial District
North Dakota, 1992

District	Population	Index Total	Rate/100,000	Rank
Northeast Central	78,043	3,415	4375.8	1
East Central	113,635	4,497	3957.4	2
Northwest	97,912	2,976	3039.5	3
South Central	136,203	3,967	2912.6	4
Northeast	87,772	1,597	1819.5	5
Southwest	40,984	671	1637.2	6
Southeast	81,451	1,256	1542.0	7

RURAL-URBAN CRIME DISTRIBUTION

- The "urban" areas of the state, for purposes of this analysis, are defined as those cities which have populations of 2,500 or greater and report directly to the UCR program. If the population of a city which has been considered "urban" in the past drops below 2,500, they are no longer included as "urban" and become part of the "rural" analysis. Conversely, if a city's population increases to 2,500 or greater, they are no longer considered "rural" and are included as part of the "urban" analysis.
- The cities included as "urban" for 1992 include: Beulah; Bismarck; Devils Lake; Dickinson; Fargo; Grand Forks; Grafton; Hazen; Jamestown; Mandan; Minot; Rugby; Valley City; Wahpeton; West Fargo and Williston. Total urban population for 1992 is 315,863. Since the police department in Wahpeton did not report UCR data in 1992, estimates were made for that agency.
- While 50 percent of the state's population is "rural", the rural areas contributed only 17 percent of the total index crimes reported in 1992.

TABLE 27
Rural - Urban Crime Distribution
1982-1992

Year	RURAL					URBAN				
	Population	% of Total Population	Index Offenses	Rate per 100,000	% of Total Crime	Population	% of Total Population	Index Offenses	Rate per 100,000	% of Total Crime
1982	370,531	55	4,019	1084.7	23	299,469	45	13,582	4535.4	77
1983	376,030	55	4,344	1155.2	24	303,970	45	13,666	4495.8	76
1984	373,659	54	3,843	1028.5	22	312,341	46	13,636	4365.7	78

APPENDICES

(This page intentionally left blank.)

OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Arrest data are reported for Part I and Part II offenses. The Crime Index is composed of offenses 1-7 with the exception as noted in item 1 below.

NOTE: The classifications of these offenses for UCR reporting purposes are based on law enforcement investigation as opposed to determination by a court, medical examiner, jury, or other judicial hearing.

PART I OFFENSES:

1. CRIMINAL HOMICIDE

a. Murder and non-negligent manslaughter:

The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen.

b. Manslaughter by negligence:

The killing of another person through gross negligence. Excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

2. FORCIBLE RAPE

The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used -- victim under age of consent) are excluded.

3. ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

4. AGGRAVATED ASSAULT

An unlawful act by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

5. BURGLARY

Breaking or entering. The unlawful entry of a structure to commit a felony or theft. Attempted forcible entry is included.

6. LARCENY/THEFT

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

8. Arson

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, personal property of another, etc.

PART II OFFENSES

9. OTHER ASSAULTS (SIMPLE)

Assaults or attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim.

10. FORGERY AND COUNTERFEITING

Making, altering, uttering, or possessing, with intent to defraud, anything false which is made to appear true. Attempts are included.

11. FRAUD

Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks except forgeries and counterfeiting.

12. EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

13. STOLEN PROPERTY-- BUYING,RECEIVING, POSSESSING

Buying, receiving, or possessing stolen property, including attempts.

14. VANDALISM

Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal without consent of the owner or person having custody or control.

15. WEAPON OFFENSES -- CARRYING, POSSESSING, ETC.

All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Attempts are included.

16. PROSTITUTION AND COMMERCIALIZED VICE

Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for immoral purposes. Attempts are included.

17. SEX OFFENSES (except forcible rape,prostitution, and commercialized vice)

Statutory rape and offenses against chastity, common decency, morals and the like. Attempts are included.

18. DRUG ABUSE VIOLATIONS

State and local offenses relating to narcotic drugs, such as unlawful possession, sale,use, growing and manufacturing of narcotic drugs.

19. GAMBLING

Promoting, permitting, or engaging in illegal gambling.

20. OFFENSES AGAINST FAMILY AND CHILDREN

Non-support, neglect, desertion, or abuse of family and children.

21. DRIVING UNDER THE INFLUENCE

Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or narcotics.

22. LIQUOR LAWS

State or local liquor law violations, except "drunkenness" (offense 23) and "driving under the influence" (offense 21).

23. DRUNKENNESS

Drunkenness or intoxication. Excluded is "driving under the influence" (offense 21).

24. DISORDERLY CONDUCT

Breach of peace.

25. VAGRANCY

Vagabondage, begging, loitering, etc.

26. ALL OTHER OFFENSES

All violations of state or local laws, except offenses 1-25 and traffic offenses.

27. SUSPICION

No specific offense; suspect released without formal charges being placed.

28. CURFEW AND LOITERING LAWS

Offenses relating to violation of local curfew or loitering ordinances where such laws exist.

29. RUNAWAYS

Limited to juveniles taken into protective custody under provisions of local statutes.

**NUMBER AND RATE OF INDEX OFFENSES
BY REPORTING JURISDICTION
NORTH DAKOTA, 1992**

The rate per 100,000 population is shown in parentheses immediately below the actual number of incidents reported for each offense type. A county-wide total is also shown for each of those counties which have more than one reporting jurisdiction within its geographic boundaries.

County	Reporting Jurisdiction	Index Crime	Murder/ Non-neg Mans.	Rape	Robbery	Aggravated Assault	Burglary	Larceny/ Theft	Motor Vehicle Theft

** Rate is calculated as the number of crimes reported per 100,000 females.

**Robbery Rate
North Dakota, 1970-1992**

Year	Population*	Robberies	Rate**
1970	618,000	40	6.5
1971	627,000	47	7.5
1972	631,000	56	8.9
1973	632,000	47	7.4
1974	634,000	82	12.9
1975	638,000	89	13.9
1976	645,000	104	16.1
1977	649,000	87	13.4
1978	651,000	100	15.4
1979	652,000	65	10.0
1980	652,700	50	7.7
1981	652,200	85	13.0
1982	670,000	88	13.1
1983	680,000	53	7.8
1984	686,000	50	7.3
1985	686,000	43	6.3
1986	679,000	47	6.9
1987	672,000	51	7.6
1988	663,000	54	8.1
1989	660,000	61	9.2
1990	638,800	36	5.6
1991	635,000	47	7.4
1992	636,000	53	8.3

* Population figures are Census Bureau Estimates.

** Rate is calculated as the number of crimes reported per 100,000 population.

**Aggravated Assault Rate
North Dakota, 1970-1992**

Year	Population*	Aggravated Assaults	Rate**
1970	618,000	130	21.0
1971	627,000	157	25.0
1972	631,000	195	30.9
1973	632,000	290	45.9
1974	634,000	178	28.1
1975	638,000	206	32.3
1976	645,000	313	48.5
1977	649,000	285	43.9
1978	651,000	270	41.5
1979	652,000	270	41.4
1980	652,700	229	35.1
1981	652,200	287	44.0
1982	670,000	256	38.2
1983	680,000	211	31.0
1984	686,000	212	30.9
1985	686,000	221	32.2
1986	679,000	217	32.0
1987	672,000	253	37.6
1988	663,000	253	38.2
1989	660,000	266	40.3
1990	638,800	223	34.9
1991	635,000	223	35.1
1992	636,000	322	50.6

* Population figures are Census Bureau Estimates.

** Rate is calculated as the number of crimes reported per 100,000 population.

Appendix E

**Property Crime Rate
North Dakota, 1970-1992**

Year	Population*	Property Crimes	Rate**
1970	618,000	9897	1601.5
1971	627,000	12202	1946.1
1972	631,000	12237	1939.3

Ranking of States by Crime Rates Reported in Crime in the United States, 1992

Rates reported in Crime in the U.S., 1992, will vary from those reported in other sections of this report because the FBI estimates data for those agencies not reporting to the UCR program.

Overall Crime Rate			Violent Crime Rate		
Rank	State	Rate/100,000	Rank	State	Rate/100,000
1.	Florida	8358.2	1.	Florida	1207.2
2.	Texas	7057.9	2.	New York	1122.1
3.	Arizona	7028.6	3.	California	1119.7
4.	California	6679.5	4.	Maryland	1000.1
