Acknowledgments. This volume resulted from a cooperative effort managed by Tracy L. Snell, statistician, under the supervision of Allen J. Beck. Correctional statistics are prepared under the general direction of Lawrence A. Greenfeld. James J. Stephan and Danielle C. Morton assisted with the section on the survey of prison inmates. Louis W. Jankowski assisted with table and text preparation for the sections on jails and capital punishment. Thomas Hester and Priscilla Middleton edited this volume. Marilyn Marbrook, publications unit chief, supervised production.

The following personnel of the Governments Division of the Bureau of the Census collected and collated the data under the supervision of Betty Ford and Diana Cull: jails, Lisa McNelis, Ellen Rhodes, Martha Greene, Linda Huang, and Dawn Crawford. Marita Perez and Linda Ball of the Demographic Surveys Division, the Bureau of the Census, collected and processed the data for the survey of State prison inmates under the supervision of Gertrude Odom and Lawrence McGinn. Christopher Alaura, Mildred Strange, Dave Pysh, and Carolyn Jenkins of the Demographic Surveys Division furnished programming support under the supervision of David Watt and Stephen Phillips.

Arlene Rasmussen of the Demographic Surveys Division of the Bureau of the Census collected and collated data on prisoners and capital punishment under the supervision of Gertrude Odom and N. Gail Hoff.

Foreword

A growing proportion of all persons in the United States are under some form of correctional supervision — on probation, in jail, in prison, or on parole.

In this compilation of statistical reporting series, which for many years were published in separate volumes, the Bureau of Justice Statistics (BJS) provides a convenient source for data about persons in every part of the correctional population. We hope that its format and presentation will promote understanding of the population as a whole and its management.

This volume of statistics from 1991 features a section devoted to State prison inmates. In 1991 BJS sponsored a survey of State prison inmates, and the tables presented here reveal some of the results of that effort. Anyone interested in analyzing the data from the survey or from other reporting series may access the data through the National Archive of Criminal Justice Data at the University of Michigan, Ann Arbor.

We extend our gratitude to the State, Federal, and local respondents who have enabled us to continue this joint venture, which dates back to 1850. I hope that this and future BJS reports will continue to help us all gain more insight into the important role of corrections agencies and employees throughout the Nation.

Important Note

Correctional Populations in the United States presents numbers that describe persons under some form of correctional supervision. In this compilation the Bureau of Justice Statistics (BJS) seeks to help users by —

- making readily apparent the links between different correctional institutions or methods in each State
- suggesting the similarities and differences between States and regions as our system of criminal justice responds to both common and disparate needs
- permitting comparisons, however limited they must be, with previous years' statistics.

Helping readers find a single number

Through an **index** at the end of the volume, readers can find all topics treated in the tables. The index numbers refer to the tables.

Footnotes give extra information about how to interpret the numbers in the tables.

Category definitions are available in three places: the **explanatory notes** in the appendixes of sections, the **questionnaires** also in the appendixes, and the **definitions of common terms** in the *introduction* on page 3.

To make comparisons across years or between jurisdictions

BJS makes every effort to report numbers that are consistent in interpretation with those of the past and between separate jurisdictions in the present. Data collection rules and reporting protocols that fit historical statistics and that impose the least burden on respondents are used.

Some jurisdictions depart from the reporting conventions, and some categories for counting have shifted over the years. Users who try to draw conclusions from such numbers by comparing years or jurisdictions must take into account special circumstances and changes. **Footnotes, table notes, explanatory notes, and other material highlighting the tables** must be consulted for a full understanding of the data.

History of U.S. corrections statistics

In 1850 the Federal Government, in cooperation with the States as a part of the Seventh Decennial Census, initiated a count of prisoners in 32 States and in the territories of Minnesota, New Mexico, Oregon, and Utah. Between 1850 and 1870, U.S. marshals administered the census of prisoners as part of a special schedule of social statistics. The 1880 report indicated there were 61 prisoners in State institutions per 100,000 residents. By 1890 Nevada had the highest per capita rate among the States, 203, and Wyoming had the lowest at 16. In that same year New York had 136 prisoners per 100,000 residents, and California had 169.

In 1910 the introduction of the indeterminate sentence was described in prisoner statistics; 21% of State prisoners on January 1 had received such sentences. The 1923 report said that more than a half of the prison admissions that year were under indeterminate sentences and observed that such sentences resulted in wide ranges between minimum and maximum sentences and disparities in setting release dates. In 1926 the Bureau of the Census began the annual collection of prisoner statistics, and the report for that year described the goal of the effort as the collection of data to "show the application of penal policies for various classes of offenders and in different parts of the country." That first annual report in 1926 provided information by jurisdiction on admissions, releases, sentences and time served, inmates under sentence of death, recidivism, and crowding — issues of major concern today.

During the past 64 years the partnership between the Federal Government and the States and localities in collecting corrections data has grown and prospered.

In 1950 the program was transferred from the Bureau of the Census to the Bureau of Prisons (BOP) in the Department of Justice and in 1971 to the predecessor agency of the Bureau of Justice Statistics (BJS), the National Criminal Justice Information and Statistics Service of the Law Enforcement Assistance Administration

(LEAA). LEAA added the statistical series on local jails (1970), probation (1979), and parole (1976).

All of the major reporting series and projects of the corrections unit, Bureau of Justice Statistics, are outlined under "Data sources" below. The Bureau of the Census serves as the data collection agency for these series. When Congress created the Bureau of the Census in the late 19th century, it charged the agency with the responsibility to account for prisoners. That involvement has continued intermittently and in various forms until the present, as shown in the following chronology that sketches the evolution of the statistical reports grouped in this volume:

1904. *Prisoners and Juvenile Delinquents, 1904* reported movements rather than individuals. Prison officials served as enumerators.

1923. *Prisoners, 1923* presented adults separate from juveniles.

1926. *Prisoners in State and Federal Prisons and Reformatories* began as an annual report that continued until 1946. The report included a special section on prisoners under sentence of death. From 1946 to 1970 the Bureau of Prisons published the annual figures. The Law Enforcement Assistance Administration followed for 9 years until BJS was created in 1980. (The Bureau of the Census has acted as collecting agent since 1972.)

1947. The Bureau of Prisons began the separate annual reports on prisoners under sentence of death. The LEAA and then BJS continued the reports until 1984. The Bureau of Justice Statistics will continue to publish annual bulletins about the death penalty and persons sentenced to death; the more detailed statistics will appear in the corrections volume.

1965. The National Council on Crime and Delinquency (NCCD), a nongovernmental organization, started the Uniform Parole Reports project under Federal contract.

1970. LEAA conducted its first 1-day count of jails.

1974. LEAA, with the Bureau of the Census, surveyed a national random sample of offenders in State prisons. The survey, repeated in 1979 and 1986, collected information about personal background and criminal history and inquired about drug and alcohol usage.

1976. The NCCD and LEAA annual reports covered parole data beginning in 1976.

1978. The Bureau of the Census counted prisoners in U.S. jails; the Bureau repeated the complete enumeration in 1983 and 1988.

1979. The first annual report on parole and probation appeared, published by BJS.

1982. The Bureau of the Census completed the first annual jail sample survey for BJS. Bulletins containing data from the sample survey are supplemented by the corrections volume.

Definitions of common terms used in tables

Custody. To have custody of a prisoner, a State must hold that person in one of its facilities. Early statistical reports gave *custody counts* that largely have been replaced by *jurisdiction counts* of State prison populations. A State may have custody of a prisoner over whom another State maintains jurisdiction. The tables present both kinds of counting procedures, with jurisdiction counts being more complete; States that report only on custody are noted.

Detention status. This term distinguishes between prisoners, usually in jail, who were convicted or who were awaiting judgment.

Discretionary parole. A release from prison to supervision is discretionary when it is decided by a board or other authority.

Good time. When correctional authorities deduct time from a prison or jail sentence, often to reward or to encourage good behavior, they give *good time*. When the good time is tied to a specific action, such as working in a prison industry or performing a meritorious deed, it is called "earned."

Hispanic origin. A person of Hispanic origin may be of any race; however, a few States treat the ethnic category as a racial one. Reporting officials usually rely on self-definition, but some States classify according to surname.

Jurisdiction. *Jurisdiction* refers to a unit of government or to the legal authority to exercise governmental power. According to the latter meaning, the prisoners under a State's *jurisdiction* may be in the custody of local jails. (See "Custody.")

Mandatory parole. Mandatory parole results from statutory or correctional guidelines, and no judgment by a panel or board is required for release of a prisoner to supervision outside of prison.

Maximum sentence length. Some jurisdictions sentence offenders to a range of years; the larger number in that

range is the most that a prisoner may serve on a sentence. Often, *good time* is subtracted from the maximum sentence. When the tables report on prisoners with sentences longer or shorter than a year, the *maximum sentence* is used where applicable.

Movement. In corrections, a movement is an admission to or a release from a status — prisoner, parolee, or probationer. Unless specifically noted, a transfer between facilities does not count as a movement.

One-day count. For a 1-day count a jurisdiction or facility is asked to report how many people were on its roll on a certain day. The *average daily population* is a year's total number of people on the roll each day, divided by the number of days. The methods of counting in aggregate do not yield estimates of either the number of persons in a status during a year or the average amount of time persons remain in a status.

Race. Classification by race often depends on the reporting program and the State. A few States reported two categories: white and nonwhite. A few others categorized Hispanic offenders as belonging to "Other race." Numbers of persons with certain racial backgrounds were sometimes estimated.

Reporting time. The prison and capital punishment figures are from December 31, 1991, unless otherwise noted. The Bureau of the Census surveyed jails on June 28, 1991; they previously took a complete census of jails on June 30, 1988.

Revisions. Many States revise the yearend number reported for the previous year. Those revisions are made in the total, not the detail. For example, the number of blacks, whites, and members of other races for 1989 were not changed by a State in 1990 to equal its revised 1989 total.

Youthful offender status. State legislatures create the youthful offender status through statutes that provide for

special sentencing, commitment, or record sealing procedures for young adult offenders adjudicated in a criminal court, as opposed to a juvenile court. The offenders may be above the statutory age limit for juveniles but below a specified upper age limit.

Data sources

Series that aggregate by reporting unit

NPS-1. Annual yearend count of prisoners present by jurisdiction, sex, race, Hispanic origin, and admissions and releases during the year.

NPS-1A. Count of prisoners present on June 30 by jurisdiction.

NPS-1B. Advance yearend count of prisoners; emergency releases because of prison crowding; rated, operational, and design capacities of prison facilities.

NPS-8A. Yearend count of persons in prison under sentence of death.

NPS-8B,8C. Complete survey of States to determine any significant changes in statutes or case law relating to the death penalty.

CJ-8. Yearend count, admissions, and releases of persons on probation by jurisdiction.

CJ-7. Yearend count, admissions, and releases of persons on parole by jurisdiction.

CJ-5. Annual sample survey of local jails to estimate the population of jails in jurisdictions holding a daily average of more than 100 people.

CJ-5A. Annual sample survey of local jails to estimate the population of jails in jurisdictions holding a daily average of fewer than 100 people.

CJ-42. Census every 5 years of all State and Federal operated, community based correctional facilities to record their characteristics.

CJ-43. Census every 5 years of all State and Federal prison facilities to record their characteristics.

CJ-3. Census every 5 years of all jail facilities to record their characteristics.

Series based on reported individual offenders

NPS-8. Characteristics of persons admitted to, under, or released from, a sentence of death during the year.

NCRP-1A. Individual record data on each offender admitted to prison during the year, covering race, age, Hispanic origin, jail credits, prior prison credit, offenses and number of counts, and maximum and minimum sentence.

NCRP-1B. Individual record data on each offender released from prison during the year, covering data contained in NCRP-1A, offenses and sentences since admittance, time spent in halfway houses, time served, and category of discharge.

NCRP-1C. Individual record data on each offender discharged from parole supervision, covering data contained in NCRP-1A and -1B, parole discharge, and category of discharge.

Series based on interviews of sampled prisoners

SIJ-43. Survey every 5 years of a random sample of prisoners in jail to determine criminal history, drug and alcohol use, and personal background.

NPS-25. Survey every 5 years of a random sample of prison inmates to determine criminal history, drug and alcohol use, and personal background.

Special studies of recidivism

BJA has conducted two major studies of the arrests and convictions of offenders after they are released from prison.

Recidivism I. This project analyzed arrests and convictions of a cohort of offenders paroled from prison in 20 States. It incorporated into the parole records FBI data on each parolee's contacts with criminal justice agencies. The selected offenders were 18 to 22 years of age when they were released from prison in 1978.

Recidivism II. This data collection program permits analysis of criminal justice contacts through 1986 for a sample of 16,000 prisoners released from prison in 11 States in 1983. The effort merged FBI, State, and local police records with correctional records.

Historical statistics

Historical statistics on prisoners in State and Federal institutions, yearend 1925-86 (NCJ-111098) reports custody counts by jurisdiction.

The U.S. local jail population increased from 209,582 in 1982 to 426,479 in 1991

Juveniles*	2,140	2,333	9.0

Note: Data for 1-day counts are for June 29, 1990, and June 28, 1991.
 *Juveniles are persons defined by State statute as being under a certain age, usually 18, and subject initially to juvenile court authority even if tried as adults in criminal court. Because less than 1% of the jail population were juveniles, caution must be used in interpreting any changes over time.

Table 2.2. Conviction status of adult jail inmates, by sex, 1990 and 1991

Female	19,156	18,990

Note: Data are for June 29, 1990, and June 28, 1991. Annual Survey of Jails data may underestimate the number of convicted inmates and overestimate the number of unconvicted inmates. Some facility records do not distinguish inmates awaiting sentence (or other convicted persons) from unconvicted inmates. The 1989 Survey of Inmates in Local Jails figures indicate that 43% of the inmates were unconvicted and 57% were convicted.

*Juveniles are persons defined by State statute as being under a certain age, usually 18, and subject initially to juvenile court authority even if tried as adults in criminal court. Because less than 1% of the jail population were juveniles, caution must be used in interpreting any changes over time.

Explanatory notes

The 1991 survey was the eighth annual collection sponsored by the Bureau of Justice Statistics and conducted by the U.S. Bureau of the Census. This survey follows a similar effort made by the Law Enforcement Assistance Administration during the 1970's.

The sample surveys yield estimates of the national jail population for those years that lack a complete enumeration. Full censuses were done on February 15, 1978; June 30, 1983; and June 30, 1988.

The 1991 survey, conducted on June 29, included 1,124 jails in 799 jurisdictions—counties, municipalities, or townships that administer 1 or more jails. A jurisdiction with an average daily inmate population of 100 or more in the 1988 census automatically entered the survey. Such units of government, referred to as certainty jurisdictions, accounted for 823 jails and 343,702 inmates, or 81% of the total estimated inmate population.

Administrators of jails in jurisdictions with large jail populations reported the number of inmates held because of crowded facilities elsewhere, the jail capacity, and the reasons for court orders, if any. The other jurisdictions in the survey belonged to a stratified random sample of jurisdictions with an average daily inmate population of less than 100.

The survey excludes five types of facilities from the count:

- lockups that house persons for less than 48 hours
- Federal facilities
- State facilities
- privately operated facilities
- the combined jail-prison systems of Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont.

Data were obtained through mailed questionnaires. Two followup mailings and phone calls elicited a response from 99% of all jails. For the four jails in certainty jurisdictions and the one jail outside a certainty jurisdiction not responding to the survey, data were adjusted by applying the average growth factor for facilities in the same stratum and region and with the same type of inmates (men, women, or both sexes).

FROM THE DIRECTOR
BUREAU OF JUSTICE STATISTICS

On behalf of the Bureau of Justice Statistics (BJS), Department of Justice, the Bureau of the Census is conducting a sample survey of jails in the United States. The survey will obtain current information on the Nation's jail facilities and inmate population.

State, local, and Federal officials will use the data to assess the changing needs of these facilities and to keep informed of their status. BJS will publish the data in a bulletin entitled "Jail Inmates 1991" scheduled for release in early 1992. We have enclosed a copy of the 1990 survey publication for your information.

Your facility and other facilities in the scientifically selected sample will represent the characteristics and population of all jails in the United States. So that we can complete data collection and publish the survey results as soon as possible, please complete this questionnaire within the next 3 weeks and return it in the enclosed envelope. If we can help in completing the questionnaire, please call Lisa McNelis at (800) 253-2078.

We estimate that it will take from 10 to 30 minutes per jail to collect this information, with 15 minutes being the average time per jail. This includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspects of this collection of information, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, Paperwork Reduction Project 1121-0094, 633 Indiana Avenue, N.W., Washington, DC 20531; and to the Office of Management and Budget, Paperwork Reduction Project 1121-0094, Washington, DC 20503.

The Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 U.S.C. 3732), authorizes this report. Although the law does not require you to respond, we need your participation to make the results of this survey comprehensive, accurate, and timely.

Thank you for your cooperation in this voluntary survey.

Sincerely,

STEVEN D. DILLINGHAM

DEFINITIONS

Local jail — a confinement facility usually administered by a local law enforcement agency, intended for adults but sometimes also containing juveniles which holds persons detained pending adjudication and/or persons committed after adjudication for sentences usually a year or less. Temporary holding facilities, or lockups, that do not hold persons after being formally charged in court (usually within 48 hours of arrest) are excluded.

Adult criminal offender — a person subject to the original jurisdiction of the criminal court rather than the juvenile court because at the time of the offense the person was above a statutory age limit.

Juvenile — a person subject to the exercise of juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations as defined by State law. For the purposes of this report, a person of juvenile age is considered a juvenile even though tried as an adult in criminal court.

Youthful offender — a person adjudicated in criminal court, who may be above the statutory age limit for juveniles but below a specified upper age limit and for whom special correctional commitments and special record-sealing procedures are made available by statute. For the purposes of this report, youthful offenders should be considered adults.

DEFINITIONS

Local jail — a confinement facility usually administered by a local law enforcement agency, intended for adults but sometimes also containing juveniles which holds persons detained pending adjudication and/or persons committed after adjudication for sentences usually a year or less. Temporary holding facilities, or lockups, that do not hold persons after being formally charged in court (usually within 48 hours of arrest) are excluded.

Adult criminal offender — a person subject to the original jurisdiction of the criminal court rather than the juvenile court because at the time of the offense the person was above a statutory age limit.

Juvenile — a person subject to the exercise of juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations as defined by State law. For the purposes of this report, a person of juvenile age is considered a juvenile even though tried as an adult in criminal court.

Youthful offender — a person adjudicated in criminal court, who may be above the statutory age limit for juveniles but below a specified upper age limit and for whom special correctional commitments and special record-sealing procedures are made available by statute. For the purposes of this report, youthful offenders should be considered adults.

Section I INMATE POPULATION – Continued

C. Average daily population

TOTAL (1)	Adults		Juveniles	
	Males (2)	Females (3)	Males (4)	Females (5)

1. What was the average daily population for your facility for the year ending June 30, 1991?

D. Population movement – Count a case only once.

Include only inmates who have been admitted and housed in your facility. Example: A felon who is housed at your facility, transferred to a diagnostic center and returned to your facility without being booked on a new charge is considered one admission.

TOTAL (1)	Adults		Juveniles	
	Males (2)	Females (3)	Males (4)	Females (5)

1. How many persons were admitted between July 1, 1990 and June 30, 1991? ¹

2. How many persons were discharged or transferred between July 1, 1990 and June 30, 1991? ²

¹ Include all persons **officially** booked into your facility by formal legal document and the authority of the courts or some other official agency. Include escapee returns and transfers from long term treatment in medical or mental health facilities. **Exclude returns for temporary releasees who were not officially discharged (e.g., work release, medical appointments, or court appearances).**

² Include all persons **officially** discharged from your facility through completion of time served, bail, escape, long term transfer to a mental or medical health facility, death, etc. **Do not include as a discharge temporary releasees who have not been officially discharged (e.g., work release, medical appointments, or court appearances).**

Section II FACILITY CHARACTERISTICS

A. Capacity

Rated capacity

1. On June 28, 1991, what was the rated capacity for your facility that was set by State or local authorities?

B. Is your jail administered and/or funded by more than one (1) local government?

1 Yes

2 No

Remarks

CENSUS USE

The tables presented in this chapter in past volumes are omitted. The annual probation survey (CJ-8) was not conducted in 1991. Instead, the Bureau of Justice Statistics sponsored the 1991 Probation and Parole Agency Census to collect detailed information on these agencies and the offender population under their supervision. Results from the census will be reported separately.

Explanatory notes

The 1991 Survey of Inmates in State Correctional Facilities was conducted for the Bureau of Justice Statistics by the U.S. Bureau of the Census. Through personal interviews during June, July, and August 1991, data were collected on individual characteristics of prison inmates, current offenses and sentences, characteristics of victims, criminal histories, family background, gun possession and use, prior drug and alcohol use and treatment, educational programs and other services provided while in prison, and other personal characteristics. Similar surveys of State prison inmates were conducted in 1974, 1979, and 1986.

Sample design

The sample for the 1991 survey was selected from a universe of 1,239 State prisons that were enumerated in the 1990 Census of State and Federal Adult Correctional Facilities or had been opened after completion of the census. The sample design was a stratified two-stage selection.

In the first stage correctional facilities were separated into two sampling frames: one for prisons with male inmates and one for prisons with female inmates. Prisons holding both sexes were included on both lists. Within each frame, prisons were stratified into eight strata defined by census region (Northeast, Midwest, South, and West) and facility type (confinement and community-based).

All prisons with 1,950 or more men were selected from the male frame, and all prisons with 380 or more women were selected from the female frame. The remaining prisons in the male frame were grouped into strata of approximately 2,600 males and then stratified by security level (maximum, medium, minimum, and unclassified). The remaining prisons in the female frame were also grouped into strata of approximately 574 females. A systematic sample of prisons was then selected within strata on each frame with probabilities proportional to the size of each prison. Overall, a total of 277 prisons were selected.

In the second stage interviewers visited each selected facility and systematically selected a sample of male and female inmates using predetermined procedures. As a result, approximately 1 of every 52 male inmates and 1 of every 11 female inmates were selected. A total of 13,986 interviews were completed, yielding an overall response rate of 93.7%.

Based on the completed interviews, estimates for the entire population were developed using weighting factors derived from the original probability of selection in the sample. These factors were adjusted for variable rates of nonresponse across strata and inmate characteristics. Further adjustments were made to control the survey estimates to midyear 1991 custody counts projected from data obtained in the National Prisoner Statistics series (NPS-1).

Explanatory notes by jurisdiction

Federal prisons

Population total: Includes 1,776 inmates held under the jurisdiction of the U.S. Immigration and Naturalization Service.

Jurisdiction population, inmates with a year or less sentence: Includes 1,429 men and 52 women whose sentence length is unknown.

Custody population, inmates with a year or less sentence: Includes 1,269 men and 43 women whose sentence length is unknown.

Alabama

Other conditional release violators, with new sentence: Include inmates returned from supervised release under Alabama Act 754 and split sentence/probation with or without new sentences.

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Unspecified in the Alabama data system.

Causes of death: Can specify only executions.

Other releases: Type of release not known at time of data collection.

Unknown race: Includes Hispanic inmates not determined as white or black.

Alaska

New court commitments: Include other conditional release violators with or without new sentences.

Parole violators with new sentences: Include conditional release violators with new sentences.

Parole violators only, no new sentences: Include other conditional release violators with no new sentences.

Other unconditional releases: Court-ordered releases.

Other releases: Include releases to the U.S. Immigration Naturalization Service and Federal detainer.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Alaska.

Race and Hispanic origin: Numbers estimated.

Arizona

Population, admissions and releases counts: Based on custody data.

Other unconditional releases: Court-ordered releases.

Other conditional releases: Include supervised early releases, supervised provisional releases, supervised work furloughs, and releases to home arrest program.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Include early releases to detainer and persons returned to prison pending a revocation hearing.

The sex breakdown for the 49 inmates housed in local jails to ease crowding in prisons is estimated, based proportionally on admissions.

Arkansas

Arkansas revised the previously reported December 31, 1990, population of inmates with maximum sentences of more than 1 year.

Other unconditional releases: Court-ordered releases.

Other conditional releases: Comprised of persons released under the provisions of Arkansas' Acts 378 and 814 from boot camp to supervision.

Unknown race: Includes Cuban prisoners.

California

Population, admissions and releases counts: Based on custody data.

Other conditional release violators with new sentence: Include some parole violators and returns from supervised mandatory release with new sentence.

Other conditional release violators only, no new sentences: Include some parole violators without new sentences. The category also includes supervised mandatory and parole releases returned to prison pending revocation hearings.

Other admissions: Contain the difference between total admissions and the number in other admissions categories.

Unconditional releases, expirations of sentence: Include some court-ordered releases.

Supervised mandatory releases: Include some releases to parole.

Other releases: Contain the difference between total releases and the number in other release categories.

Jurisdiction population, inmates with a year or less sentence: Include civil narcotic addict commitments and county diagnostic cases.

Unknown race: Includes inmates not categorized as white, black, or American Indian.

Hispanic origin: Includes only Mexican-American inmates.

Colorado

Colorado revised the previously reported December 31, 1990, population of inmates with maximum sentences of more than 1 year.

Sentencing information: Reported population with sentences of more than 1 year includes a very small number of inmates with maximum sentences of 1 year.

Transfers to other jurisdictions: Include custody transfers of inmates to other States due to interstate compacts.

Escapes: Numbers estimated.

Other admissions: Backlogged sentenced inmates, housed in local facilities, awaiting Department of Correction bedspace.

Other releases: Court-ordered releases not classified as conditional or unconditional.

Race and Hispanic origin: Numbers estimated.

Connecticut

New court commitments: May include a small number of prisoners returned from appeal or bond and some probation violators entering with or without new sentences.

Unconditional releases, expirations of sentence: Does not distinguish inmates with probation conditions in effect upon expiration of the incarceration portion of their sentences. Includes some releases to probation supervision.

Other unconditional releases: Court-ordered releases and pardon discharges.

Other conditional releases: Community residence releases under supervision similar to that for parolees.

Causes of death: Can specify only executions.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Connecticut.

Hispanic origin: Categorized as prisoners of unknown race.

Delaware

Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population

count of inmates with 1 year or less maximum sentences is overstated.

Parole violators and conditional release violators with new sentences: Include violators with or without new sentences.

Other admissions and releases: Include admissions from and releases to State hospitals, local hospitals and those inmates serving weekend sentences. Other admissions also include inmates who were changed from jail sentences of less than a year to prison sentences of more than 1 year.

Other unconditional releases: Court-ordered releases.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Delaware.

Unknown race: Includes Puerto Rican and Mexican prisoners.

District of Columbia

Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated.

Sentencing information, short sentences: An undetermined number of inmates housed in neither the District of Columbia jail nor the detention center and having either no sentence or a maximum sentence of 1 year or less were included in the admissions, releases, and population counts of inmates with more than 1 year maximum sentences. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are overstated, and the population count of inmates with 1 year or less maximum sentences is understated.

Parole and other conditional release violators: The total number is actual; the counts of men within categories of violation are estimated. The female violators are counted as parole violators with new sentences.

Transfers from and to other jurisdictions: Only includes transfers from mental hospitals and Federal facilities.

Unconditional releases, expirations of sentence: Include some inmates with partially suspended sentences and those released to probation.

Cause of death: No cause is specified in the District of Columbia's data system.

Jurisdiction population totals: Include 1,211 male D.C. code violators housed in Federal Bureau of Prisons facilities and 476 male inmates housed in other State facilities. Of these inmates, an undetermined number are being housed solely to ease prison crowding.

Unsentenced inmates populations: Jurisdiction and custody counts include unsentenced inmates held for the first time in the District jail or detention center.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in the District of Columbia.

Race: Numbers estimated.

Florida

Population, admissions and releases counts: Based on custody data.

Returns from appeal or bond hearings and other admissions: Contain the difference between total admissions and the number otherwise categorized. Include returns from authorized temporary absences on appeal or bond.

Other unconditional releases: Include pardons, vacated sentences, and unconditional releases ordered by the Probation and Parole Commission.

Other conditional releases: Include inmates released to supervised community release.

Releases to appeal or bond and other releases: Contain the difference between total releases and the number otherwise categorized.

Hispanic origin: Categorized as prisoners of unknown race.

Georgia

Georgia revised the previously reported December 31, 1990, population of inmates with maximum sentences of more than 1 year.

Population, admissions and releases counts: Based on custody data.

New court commitments: May include some prisoners returning from appeal or bond.

Parole violators with new sentences: Include some other conditional release violators without new sentences.

Parole violators only, no new sentences: Include some other conditional release violators with new sentences.

Escapees and AWOL prisoners: Counted as a single category.

Other conditional releases: Include special reprieves and supervised reprieves controlled by the State Parole Board as well as Governor emergency releases.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Type of release not known at time of data collection.

Jurisdiction population: Excludes inmates awaiting pickup from jails.

Hawaii

Category estimates: Jurisdiction and custody totals are actual counts. Admissions, releases, race, and Hispanic origin are estimated from information from Hawaii's Correctional Information System (CIS).

Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in

prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated.

Other releases: Type of release not known at time of data collection.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Hawaii.

Unknown race: Includes Puerto Ricans, prisoners of other Hispanic origin, and inmates who identified more than one racial background; however, prisoners of part-Hawaiian ancestry were counted as Asians or Pacific Islanders.

Hispanic origin: Includes Puerto Ricans and individuals of Hawaii's "other" race category with Spanish surnames.

Idaho

Jurisdictional population: Excludes 94 men and 9 women housed in jails solely to ease prison crowding.

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Include civil commitments.

Other unconditional releases: Include court-ordered releases of civil commitments.

Race and Hispanic origin: Numbers estimated.

Illinois

Population, admissions and releases counts: Based on custody data.

Data for inmates with sentences of more than 1 year include some inmates with 1 year maximum sentences.

Conditional release violators with new sentences: Include some parole violators with new sentences.

Other conditional release violators only, no new sentences: Include some parole violators without new sentences, and some returned violators with charges pending.

Other admissions and releases: Contain the difference between long-term admission and release movements not reported in other categories. Include transfers and release to/returns from medical furlough, writ appeal, or bond.

Other unconditional releases: Court-ordered releases.

Unspecified causes of death: Cause of death not known at time of data collection.

Hispanic origin: Categorized as prisoners of unknown race.

Indiana

Population, admissions and releases counts: Based on custody data.

Jurisdictional population: Excludes 711 male inmates awaiting pickup from local jails.

Conditional release violators with new sentences: Include parole violators with or without new sentences and other conditional release violators without new sentences.

Other unconditional releases: The Parole Board determines the termination of sentences.

Conditional releases, probations: Numbers estimated.

Iowa

Population, admissions and releases counts: Based on custody data.

Parole violators only, no new sentences: Include persons returned to prison to await a revocation hearing.

Other admissions: Include safekeepers.

Other unconditional releases: Court-ordered discharges.

Conditional releases, paroles: Include prisoners remanded to prison prior to a formal revocation hearing at which they were returned to parole. Also include inmates released to parole by conditional commutation orders.

Other conditional releases: Include releases to work release programs.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Include safekeeper releases.

Kansas

New court commitments: Include some prisoners returning from appeal or bond.

Other conditional release violators, with or without new sentences: Include some probation violators who should have been categorized as new court commitments.

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Include admissions not categorized at time of data collection.

Other conditional releases: Prisoners under supervision similar to that for parolees.

Unspecified causes of death: Cause of death not known at time of data collection.

Hispanic origin: Categorized as prisoners of unknown race.

Kentucky

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Prisoners returned to prison by court order. May include some prisoners returning from appeal or bond.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Court ordered releases, conditional or unconditional. May include some releases to appeal or bond.

Louisiana

Sentencing information: Population with sentences of more than 1 year includes 136 male and 21 female inmates with a year or less maximum sentence.

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Include inmates whose admission types were not known at time of data collection.

Other unconditional releases: Include court-ordered releases, pardons, and good-time releases.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Include inmates whose types of release were not known at the time of data collection.

Race: Distinguished as white or black.

Hispanic origin: Not included in Louisiana's data system.

Maine

Other conditional release violators only, no new sentence: Returns from probation.

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Returns from intensive supervision program.

Other conditional releases: Releases to intensive supervision program.

Other releases: Includes releases on detainers and warrants.

Maryland

Category estimates: The admissions, releases, and population totals are actual counts. Categories for admissions and releases are estimated by applying percentages from automated data to the totals that are made manually. The

automated data count only inmates with maximum sentences of more than 1 year, while the detailed categories in the manual data include inmates with maximum sentences of 1 year or less.

New court commitments: Include some prisoners returning from appeal or bond.

Parole violators, with or without new sentences: Include supervised mandatory release violators returned to prison. May also include parole violators pending revocation.

Escapees and AWOL prisoners: Counted as a single category.

Other unconditional releases: Court-ordered releases. May include a small number of releases to appeal or bond.

Massachusetts

Population, admissions and releases counts: Based on custody data.

Category estimates: The totals for admissions and releases are actual; the categories are estimated.

Total jurisdiction population: Excludes 820 men and 13 women housed in jails solely to ease prison crowding.

New court commitments: Include some parole violators with new sentences, other conditional release violators with or without new sentences, and returns from appeal or bond.

Unconditional releases, expirations of sentence: Include some releases to probation.

Other unconditional releases: Court-ordered releases and some releases to appeal or bond.

Jurisdiction population, inmates with sentences of more than 1 year: Offenders who are sentenced to local correctional facilities for terms up to 2 1/2 years are excluded from counts of population, admissions, and releases; however, they may be included in reports about the jail population.

Unknown race: Includes Hispanics who are not categorized as any other race.

Michigan

Population, admissions and releases counts: Based on custody data.

Transfers to and from other jurisdictions: Include transfers to and from mental hospitals, Federal prisons, and prisons in other States.

Returns to/from appeal or bond: Contain the net difference between movements to and from the courts.

Unspecified causes of death: Causes unknown at the time of data collection.

Hispanic origin: Includes only Mexican-Americans, who are also categorized as prisoners of unknown race. Other Hispanic prisoners are classified as non-Hispanic.

Minnesota

Parole violators with new sentences: Include other conditional release violators from supervised mandatory releases and work releases with new sentences.

Parole violators only, no new sentences: Include other conditional release violators from supervised mandatory releases and work releases without new sentences.

Escapees and AWOL prisoners: Counted as a single category.

Other unconditional releases: Include prisoners discharged after the Office of Adult Releases modified their sentences or after a court or executive order. May include some commutations.

Other conditional releases: Work releases.

Hispanic origin: Includes 142 male inmates and 1 female inmate categorized as unknown race.

Custody population: Unsensenced inmates: Include 23 male inmates held for Minnesota counties and 30 male inmates held for the U.S. Marshal.

Mississippi

New court commitments: Include some probation violators with and without new sentences.

Other admissions: Include inmates awaiting revocation hearings, some returns from appeal or bond, and data adjustments.

Other unconditional releases: Court-ordered releases.

Other conditional releases: Work releases.

Other releases: Inmates who went back to prison pending a parole revocation hearing that subsequently returned them to community supervision. Also includes some releases to appeal or bond.

Hispanic origin: Categorized as prisoners of unknown race.

Missouri

Parole violators with new sentences: Include other conditional release violators returned to prison.

Parole violators only, no new sentences: Include some other conditional release violators with no new sentences.

Other admissions: Include returns from AWOL/escape, appeal/bond, and shock probation.

Other releases: Include releases to AWOL/escape, commutations, court-ordered releases, and shock probation.

Montana

New court commitments: Include some probation violators with and without new sentences.

Nebraska

Parole violators only, no new sentences: Include some parole violators with new sentences.

Unknown race: Include inmates who did not identify their race.

Nevada

New court commitments: Include some returns from appeal or bond.

Escapees and AWOL prisoners: Counted as a single category.

Other unconditional releases: Court-ordered releases.

Hispanic origin: Categorized as prisoners of unknown race.

New Hampshire

New court commitments: Include some prisoners returned from appeal or bond and may include other conditional release violators with or without new sentences.

Parole violators only, no new sentences: Include parole violators who receive new sentences after readmission to prison.

Other unconditional releases: Include court-ordered releases not specified as conditional or unconditional.

New Jersey

New court commitments: May include some transfers from other jurisdictions and returns from appeal or bond.

Other conditional release violators only, no new sentences: Prisoners returned (some with new sentences) from the Intensive Supervision Program, an experimental program operated by the Administrative Office of the Courts.

Escapees and AWOL prisoners: Counted as a single category.

Other conditional releases: Prisoners released to the Intensive Supervision Program.

Other admissions: Include inmates whose admission types were not known at time of data collection.

Other race: Includes Hispanic inmates who are not classified as white or black.

New Mexico

Parole violators only, no new sentences: May include parole violators with additional sentences.

Other conditional release violators only, no new sentences: Include returns from community corrections program.

Other conditional releases: Include releases to community corrections program.

Causes of death: Can specify only executions.

New York

New court commitments: Include parole violators and other conditional release violators with new sentences.

Transfers from and to other jurisdictions: Include transfers from and to the Department of Mental Hygiene for psychiatric treatment. Also include some inmates transferred to and from other agencies.

Other admissions: Include 77 men and 4 women returned from conditional parole deportation to custody of the Bureau of Immigration and Naturalization Services, as well as 4 men and 18 women returned following erroneous discharge.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Includes 2 men and 23 women for whom type of release was not indicated.

Race and Hispanic origin: Categorized all Hispanic inmates, white and black, as white.

North Carolina

Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. Although the maximum sentences of all such prisoners were

more than 1 year, nearly all of them were included with those prisoners having sentences of 1 year or less. As a result, the counts of population, admissions, and releases of inmates with more than 1 year maximum sentences are understated, and the population count of inmates with maximum sentences of 1 year or less is overstated.

Category estimates, sentencing: Population totals are actual; populations by sentence length are estimated.

Parole violators with new sentences: Include some parole violators without new sentences and some other conditional release violators with or without new sentences.

Escapees and AWOL prisoners: Counted as a single category.

Other admissions: Include an adjustment residual to balance movement data with the December 31, 1991, populations.

Other unconditional releases: Include court-ordered releases.

Conditional releases, parole: Include some supervised mandatory releases.

Unspecified causes of death: Include a death resulting from a motor vehicle accident while inmate was being transported to work in Department of Corrections vehicle.

North Dakota

New court commitments: Include some parole violators with new sentences and some probation violators with new sentences.

Other conditional releases: Include court-ordered releases.

Ohio

Sentencing information: The counts of population, admissions, and releases of inmates with maximum sentences of more than 1 year includes some inmates with sentences of 1 year or less.

New court commitments: Include some other conditional release violators with new sentences.

Transfers from and to other jurisdiction: Include only prisoners transferred between prison and Ohio's Forensic Unit.

Escapees and AWOL prisoners: Counted as a single category.

Other unconditional releases: Include sentences vacated by courts.

Race and Hispanic origin: Include counts only of jurisdictional inmates in Ohio's custody.

Oklahoma

Sentencing information: The counts of population, admissions, and releases of inmates with maximum sentences of more than 1 year may include a very small number of inmates with sentences of 1 year.

New court commitments: Include an undetermined number of conditional release violators with or without new sentences.

Other unconditional releases: Include legislative cap releases.

Other conditional releases: Include commutations and legislative cap releases to probation supervision.

Other releases: Include court-ordered releases not specified as conditional or unconditional.

Total jurisdiction population: Excludes 411 men and 23 women housed in jails solely to ease prison overcrowding.

Hispanic origin: Categorized as prisoners of unknown race.

Oregon

Sentencing information: The counts of population, admissions, and releases of inmates with maximum sentences of more than 1 year include some inmates with sentences of a year or less.

Other admissions: Include inmates whose admission types were not known at time of data collection.

Other unconditional releases: Include court-ordered releases.

Other releases: Include 4 men with vacated sentences and types of release were not known at time of data collection.

Pennsylvania

Other admissions: Include persons returned by the Board of Probation and Parole on their original sentence pending revocation and those committed as technical or convicted parole violators.

Other unconditional releases: Include court-ordered releases.

Unspecified causes of death: Causes not known at time of data collection.

Other releases: Include persons released to parole status who had been returned to prison pending a revocation hearing and no revocation occurred.

Unknown race: Include Hispanic inmates.

Rhode Island

Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated.

Other conditional releases: Include an inmate who went back to prison after an erroneous release to bail and who was subsequently released.

Unspecified causes of death: Include a death by drug overdose.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Rhode Island.

South Carolina

New court commitments: Include some transfers from other jurisdictions.

Other unconditional releases: Include court-ordered releases and offenders who paid fines.

Other conditional releases: Include inmates released to the jurisdiction of the Department of Parole and Community Corrections under the Emergency Powers Act.

Tennessee

Sentencing information: The counts of population, admissions, and releases of inmates with sentences of more than 1 year include some inmates with maximum sentences of 1 year or less. As a result, the population and movements of inmates with maximum sentences of more than 1 year are overstated.

Parole violators with new sentences: May include some parole violators with no new sentences.

Other conditional release violators with new sentences: Include some probation and community correction programs violators returned without new sentences.

Escapees and AWOL prisoners: Counted as a single category.

Releases to parole: Include some mandatory releases to supervision.

Other conditional releases: Include releases to community correction programs.

Jurisdiction population total: Includes 1,929 men and 89 women housed in local facilities to ease prison crowding. Excludes 2,736 felons sentenced to serve their sentences in local facilities.

Unknown race: Includes all inmates who are not classified as white or black.

Hispanic origin: Tennessee's data system does not distinguish Hispanic origin.

Texas

Population, admissions, and releases counts: Based on custody data.

Parole violators with or without new sentences: Texas' data system does not distinguish parole violators with new sentences from those without new sentences.

Other admissions and other releases: Contain the difference between long-term admission and release movements not reported in other categories. Include prisoners returning from or leaving for long-term bench warrants and medical furloughs.

Unspecified causes of death: Include all causes of death other than by execution and those relating to HIV infection.

Other race: Includes inmates of Hispanic origin.

Utah

Other unconditional release: Include inmates whose sentences were terminated by the Board of Pardons.

Unspecified causes of death: Cause of death not known at time of data collection.

Vermont

Parole violators with or without new sentences: May include an undetermined number of other conditional release violators returned.

Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Vermont. "Lockups" operated by some cities and counties are excluded.

Population and custody counts: Made December 5, 1990.

Race: Numbers estimated, with less than 0.5% of the men classified as non-white.

Virginia

Other admissions: Include parole revocations pending (both discretionary and mandatory), transfers, and returns from appeal or bond.

Other unconditional releases: Include administrative releases.

Supervised mandatory releases and paroles: Include releases to detainer and transfers to other jurisdictions.

Unspecified causes of death: Cause of death not known at time of data collection.

Other releases: Include an undetermined number of persons who were returned to prison pending revocation of discretionary or mandatory parole, for whom no revocation occurred, who are being returned to parole or other supervised status.

Hispanic origin: Categorized as prisoners of unknown race.

Washington

Escapees and AWOL prisoners: Counted as a single category.

Other admissions and releases: Include inmates whose admission and release types were unknown at time of data collection.

Other race: Includes inmates with mixed racial origins.

West Virginia

Conditional releases, probation: Include some releases to court jurisdiction of inmates declared unfit to remain in a particular minimum security facility.

Other admissions: Include inmates whose admission type was unknown at time of data collection.

Total jurisdiction population: Excludes 263 men and 24 women housed in jails solely to ease prison overcrowding.

Wisconsin

Wisconsin revised the previously reported December 31, 1990, population of inmates with maximum sentences of more than 1 year.

Other admissions: Include 9 men and 2 women returned to prison following Special Action early releases and 1 man erroneously released.

Other conditional releases: Include Special Action early releases.

Other releases: Include court-ordered releases not specified as conditional or unconditional.

Wyoming

Population, admissions, and releases counts: Based on custody data.

New court commitments and unconditional releases, expirations: May include a small number of administrative turnovers (starts and expirations of consecutive sentences).

Escapees and AWOL prisoners: Counted as a single category.

Other releases, men: Include releases to detainer.

Other race: Includes Hispanic prisoners.

**SUMMARY OF SENTENCED
POPULATION MOVEMENT**
National Prisoner Statistics
1991

(Please correct any error in name, address, and ZIP Code)

FROM THE DIRECTOR
BUREAU OF THE CENSUS

The Bureau of the Census, at the request of the Bureau of Justice Statistics (BJS), collects data on the inmates of prisons in each State, the District of Columbia, and the Federal Bureau of Prisons. This has been done by the Bureau of Prisons, the Law Enforcement Assistance Administration, or the Bureau of the Census each year since 1926. The collection of these data is authorized by Title 42, United States Code, Section 3732, and is designed to provide annual summary measures of movement into and out of the Nation's correctional systems.

The report form concerns inmates with maximum sentences greater than 1 year who moved into or out of the jurisdiction of your State during January 1, 1991 through December 31, 1991. The figures provided on the enclosed sheet were taken from the NPS-1 report your State submitted for 1990. Please complete and return the form by March 31, 1992 to expedite timely publication of the data.

In the past, a major problem for national correctional studies has been the inability to collect comparable data from all states because of differing definitions and reporting procedures. We have developed a set of definitions to try to overcome this problem. If you are unable to use our definitions when completing this NPS-1 form, please let us know the specific differences so that we can inform the users of the data.

Your participation in this endeavor is voluntary. However, the information requested is very useful to BJS, the Congress, the states, and others involved in the formulation of national, state, and local justice policy and decision making. It is important to collect comparable information from each state in order to fulfill this purpose.

If after reading the instructions on pages 5 and 6, you still need help in completing the form, call 1-800-221-1829.

Thank you for your cooperation.

GENERAL INSTRUCTIONS

In this report, please provide summary movement counts and other counts as specified, of your prison population for January 1 through December 31, 1991.

Because the NPS-1 is an effort to collect **comparable** data from all states, we urge that you try to adhere to the concepts, definitions, and instructions provided on pages 5 and 6. However, if after reviewing the concepts, definitions, and instructions, you are not able to report an item using our guidelines, please inform us using the following procedure. Enter "NA" (Not applicable) if by law or regulation your State cannot have the type of inmates described by the item. Enter "0" (Zero), if your State can have such inmates but did not have any during 1991. Enter "NR" (Not Reported) in the item, if your State had the type of inmates described by the item but you cannot determine the number of such inmates your State had in 1991. If you cannot determine the number of inmates separately by item, report the combined count in one of the items, enter "NR" in the remaining items and specify in the closest "NOTES" space all of the items represented by the combined count. Please do not leave any item blank unless required to do so by specific instructions.

1. JURISDICTION POPULATION ON JANUARY 1

The jurisdiction population on January 1, 1991 (Item 1) should equal the number of inmates with over 1 year maximum sentence on December 31, 1990 (item 5a). Revise item 5a for 1990 if appropriate.

POPULATION MOVEMENT, ITEMS 2-4

In items 2-4, you are asked to summarize by category, the movements of all adults and youthful offenders adjudicated through the adult court and sentenced to a maximum of at least one year and one day and admitted to or released from the **jurisdiction** of your State prison system. That is, report the movement of all inmates for whom your State government had the legal authority and responsibility for enforcing their prison sentence in 1991 even though they were housed in other states, county or city jails, halfway houses, or federal facilities. Do **not** report the admission or release of inmates your State was merely housing for other states. Do **not** report the admission or release of inmates with a sentence of a year or less. Do **not** report the admission or release of any unsentenced inmates, such as pretrial detainees, inmates under the legal jurisdiction of the county, those being held in protective custody, and pre-sentence and diagnostic evaluators.

2. ADMISSIONS

Do not report returns from short-term movements (less than 30 days) where the State has retained jurisdiction, such as from a court session, work study, or mercy furlough.

a. New court commitments - Include all inmates who were admitted with all new sentences, that is, these inmates were not readmitted for any sentences. This category includes probation violators entering prison for the first time on the probated offenses. Do not include parole violators with new sentences as new court commitments.

b. Parole violators with new sentences - Include all parolees returned with new sentences.

c. Other conditional release violators with new sentences - Include all conditional release violators (other than parole violators) returned with new sentences, for example, returns from shock probation, supervised mandatory release, etc.

d. Parole violators only, no new sentences - Include all parolees returned only for **formal** revocations of parole which were not accompanied by new sentences. If the parole was not formally revoked, that is, the parolee was held only temporarily pending a hearing, no admission occurred for NPS purposes.

e. Other conditional release violators only, no new sentences - Include all conditional release violators (other than parole violators) returned only for formal revocations of conditional release which were not accompanied by new sentences. If the conditional release was not formally revoked, that is, the conditional release violator was held only temporarily pending a hearing, no admission occurred for NPS purposes.

f. Transfers from other jurisdictions - Include all inmates transferred from another jurisdiction to the jurisdiction of your State to continue sentences already in force. Do not report the admission if your State does not acquire jurisdiction. Do not report movements from prison to prison within your State.

g. AWOL returns, with or without new sentences - Include all returns from AWOL. AWOL is defined as failure to return from authorized temporary absences such as work furlough, study release, mercy furlough, or other authorized temporary absence.

h. Escapee returns, with or without new sentences - Include all returns from escape. Escape is defined as unlawful departure from a state correctional facility or from the custody of state correctional personnel.

i. Returns from appeal/bond - Include all inmates reinstated to correctional jurisdiction from long-term jurisdictional absences on appeal or bond. Do not report returns from short-term movements (that is, less than 30 days) to court (that is, where the state retained jurisdiction).

j. Other admissions - Include all other admissions not covered by the above categories. **Please specify the nature of these admissions in the "NOTES."**

3. TOTAL INMATES HANDLED

This entry should equal the jurisdiction on January 1 (Item 1) plus all 1991 admissions (Items 2a-2k).

4. RELEASES

Do not report short-term movements (less than 30 days) where the State has retained jurisdiction, such as to court, to work, study or mercy furloughs.

Unconditional - An unconditional release occurs only if the released inmate cannot be reimprisoned for any sentence for which he was in prison.

a. Expirations of sentence - Include all inmates whose maximum court sentences minus credits have been served.

b. Commutations - Include all inmates whose maximum sentences have been changed (lowered) to time served to allow immediate unconditional release.

c. Other unconditional releases - Include all other unconditional releases not covered by the above categories. **Please specify the nature of these releases in the "NOTES."**

Conditional - A conditional release occurs if the released inmate, upon violating the conditions of his release can be imprisoned again for any of the sentences for which he was in prison.

d. Probations - Include all inmates who have been placed under probation supervision and conditionally released. Include all shock probation releases.

e. Supervised mandatory releases - Include all inmates who must, by law, be conditionally released. This type of release may also be called mandatory conditional release.

f. Paroles - Include all inmates conditionally released to parole. Enter only releases officially entitled "parole."

g. Other conditional releases - Include all other conditional releases not covered by the above categories. **Please specify the nature of these releases in the "NOTES."**

INSTRUCTIONS - Continued

4. RELEASES - Continued

Death

h. Executions - Self-explanatory.

i. **Illnesses/natural causes** - Do not include death from AIDS in this category. Report in 4j.

j. **Acquired immune deficiency syndrome (AIDS)** - the immediate cause of death in AIDS mortalities may be Pneumocystis Carinii Pneumonia, Kaposi's Sarcoma, or other diseases related to HIV infection.

k. Suicides - Self-explanatory

l. **Accidental injury to self** - Include all inmates who accidentally caused their own deaths (for example, a fall from a ladder, mishandling electrical equipment).

m. **Death caused by another person** - Include all inmates whose death was caused accidentally or intentionally by another inmate or prison personnel.

n. **Other deaths** - Include all other deaths not covered by the above categories. **Please specify the nature of these deaths in the "NOTES."**

o. **AWOLS** - Include all failures to return from an authorized temporary absence such as work furlough, study release, mercy furlough, or other authorized temporary absence.

p. **Escapes from confinement** - Include all unlawful departures from a state correctional facility or from the custody of state correctional personnel.

q. **Transfers to other jurisdictions** - Include all inmates who were transferred from your State's jurisdiction to another jurisdiction to continue sentences already in force. Do not report the release if your State does not relinquish jurisdiction. Do not report movements from prison to prison within your State.

r. **Releases to appeal/bond** - Include all inmates released from correctional jurisdiction to long-term jurisdictional absences on appeal or bond. Do not report short-term movements (that is, less than 30 days) to court where the state correctional system retains jurisdiction.

s. **Other releases** - Include all other releases not covered by the above categories. **Please specify the nature of these releases in the "NOTES."**

5. JURISDICTION POPULATION DECEMBER 31

Include all inmates under your State's **jurisdiction** on December 31, regardless of the location of the inmates. Do not include other jurisdictions' inmates (for example, other states' inmates, pre-trial detainees) merely housed in your prisons.

6. CUSTODY POPULATION DECEMBER 31

Include all inmates in your State's **custody**, that is, include inmates your State is housing for other states, or federal or local authorities as well as your own inmates who are physically located in your State facilities on December 31. Do **not** include your State inmates housed outside your State prison facilities.

7. PRISON CROWDING DECEMBER 31

a. Provide a count of all inmates that are under the jurisdiction of your State but were housed in facilities operated by county or local authorities on December 31 specifically because there was no room for them in state correctional facilities.

b. The inmates counted in 7a should be included in the jurisdiction population, Item 5d. Mark Item 7b to indicate whether they were included. If you mark "No", explain in the "NOTES."

c. Provide a count of all inmates under the jurisdiction of your State who were housed in another State or in a Federal prison on December 31 specifically because there was no room for them in state correctional facilities. Enter the name of each state in which the inmates were housed and the number held in each state or by the Federal system.

d. The inmates counted in Item 7c should be included in the jurisdiction population, Item 5d. Mark Item 7d to indicate whether they were included. If you mark "No", explain in the "NOTES."

8. RACE

(1) **White** - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

(2) **Black** - A person having origins in any of the black racial groups of Africa.

(3) **American Indian or Alaskan Native** - A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

(4) **Asian or Pacific Islander** - A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes China, India, Japan, Korea, the Philippine Islands, and Samoa.

(5) **Other** - Any other races not covered by the above categories. **Please specify the other races in the "NOTES."**

(6) **Not known** - Any inmate whose race is unknown should be included here.

9. ETHNIC ORIGIN

(1) **Hispanic** - A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

(2) **Not Hispanic** - A person not covered by the above category.

(3) **Not known** - Any one whose ethnic origin is unknown should be included here.

10. HIV TESTING

a. Mark "Yes" if any inmates in your custody during calendar year 1991 were tested for the antibody to the Human Immuno Deficiency Virus (HIV) that causes AIDS.

b. If "Yes" marked in item 10a, mark one, all or any combination of the categories in item 10b to specify the type(s) of inmates who were tested. For example, all incoming inmates and all inmates who requested it may have been tested in 1991. You would mark categories 1 and 4. If category 4, "certain inmates," is marked, complete item 10c.

c. Mark as many categories as necessary to describe the particular kinds of inmates who were tested in 1991. If some of the inmates tested are not described by the listed categories, mark category 6 and write a description of these inmates.

11. HIV INFECTION/AIDS CASES in custody population

HIV infection - A person is identified as infected with HIV when a sequence of tests, starting with repeated enzyme immuno assays (EIA) and including a Western blot or similar, more specific assay, are repeatedly reactive.

a. **Asymptomatic HIV positive** - Include all inmates who have tested positive for the HIV antibody but who have no HIV-related symptoms.

b. **Lesser forms of symptomatic HIV disease** - Include all inmates who have symptoms associated with HIV infection but are not confirmed AIDS cases.

c. **Confirmed AIDS cases** - In the presence of laboratory evidence of HIV infection, regardless of the presence of other causes of immuno deficiency, a person diagnosed with an indicator disease, such as Pneumocystis Carinii Pneumonia, Kaposi's Sarcoma, or other diseases related to HIV infection, should be classified as a confirmed AIDS case. Include all inmates who are immune suppressed and have life threatening infections, due to AIDS indicator diseases.

d. **Total HIV Infection/AIDS Cases** - This is the sum of 11a, 11b, and 11c.

The tables presented in this chapter in past volumes are omitted. The annual parole survey (CJ-7) was not conducted in 1991. Instead, the Bureau of Justice Statistics sponsored the 1991 Probation and Parole Agency Census to collect detailed information on these agencies and the offender population under their supervision. Results from the census will be reported separately.

1991	14	7	7	116	124	107

Note: Average time was calculated from the most recent sentencing date. The range for elapsed time for the 157 executions was from 3 months to 180 months. Some numbers have been revised from those previously reported. The average elapsed time for the 9 white Hispanics and 1 black Hispanic case was 84 months. They are included in the white and black categories in the table.

Explanatory notes

The statistics reported for capital punishment may differ from data collected by other organizations. The differences occur for a variety of reasons:

- Inmates under sentence of death are originally added to the National Prisoner Statistics (NPS) counts when they enter correctional facilities rather than when judges pronounce sentence.
- Following the year when prisoners are first counted, their admissions or releases as a result of court order are attributed to the year for the sentence or court order. For example, a prisoner sentenced in November 1989 and entering prison custody in January 1990 would be counted as an admission in the 1990 report; the 1991 report would count him or her as being under sentence of death at yearend 1989. Similarly, a prisoner whose sentence is overturned in 1989 but who remains in the count until 1991 when the court's decision is reported would be subtracted from the 1989 and 1990 reports.
- NPS counts of persons under sentence of death are always for the last day of a calendar year and will differ from more recent counts.

Correctional Populations in the United States, 1990, failed to include 20 inmates who either were reported late to the NPS program or were not in the custody of State correctional authorities at yearend 1990: Florida (4), Georgia (2), Illinois (3), Kentucky (1), Louisiana (1), Maryland (1), Nevada (2), Ohio (1), Pennsylvania (1), Tennessee (1), and Texas (3). Thirty inmates had sentences to death removed in 1990 but were not reported: Arizona (4), Florida (12), Georgia (1), Illinois (3), Maryland (3), Mississippi (1), Missouri (1), Ohio (2), Oklahoma (1), and South Carolina (2).

In 1991, five male prisoners of the Armed Forces were under a military death sentence for murder.

INSTRUCTIONS

Please complete one card for each person who (1) entered your State's correctional system under sentence of death at any time during the report year, or (2) had received a sentence of death in a previous year but was not previously reported. Attempt to answer all items.

Item b. Card of Cards — Complete this item to insure proper accounting of all persons under sentence of death in your correctional system who have not been previously reported.

Item 4a. Race

- (1) **White** — A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
- (2) **Black** — A person having origins in any of the black racial groups of Africa.
- (3) **American Indian or Alaskan Native** — A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.
- (4) **Asian or Pacific Islander** — A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes China, India, Japan, Korea, the Philippine Islands, and Samoa.
- (5) **Other** — Any other race not covered by the above categories. Please specify the race in the space provided.

Item 4b. Hispanic Origin — Hispanics are defined as those having an ethnic origin or background in Central America, South America, Mexico, Cuba, Puerto Rico, or Spain.

Item 5. Date of Birth — Enter two digits for month (January = 01, February = 02, etc.) and last two digits of year.

Item 6. Capital offense for which imprisoned — Mark **all** and **only** those offenses for which capital punishment was levied during the report year or a previous year but not reported. Enter the number of death sentences the inmate received in the space provided.

Item 7. Marital status at time of first imprisonment for capital offense — "Time of first imprisonment" refers to the inmate's original time of arrival at prison after his first sentencing to death. Separated does **not** include separation because of imprisonment.

Item 8. Highest year of education completed at time of first imprisonment for capital offense — Time frame as in Item 7 above. Include Graduate Equivalent Degree (GED) as "12th grade."

Item 9. Legal status at time of capital offense — If the person was known to be free in all states with no criminal charges pending at the time of the offense(s) in item 6, mark "Not under sentence — no charges pending."

Item 10a. Prior felony conviction(s) — If the person was known to have been convicted of any felony(ies) before being convicted of the offense(s) in item 6, mark "Yes" in item 10a and fill item 10b.

Item 10b. Prior conviction for criminal homicide — If the prior felony conviction(s) referred to in item 10a was for criminal homicide, mark item 10b "Yes". Also mark one or more of the types of criminal homicide listed. If the person was convicted of a type not listed, mark "other" and specify the type.

Item 12. Date of conviction for capital offense — Generally a person will receive only one conviction for a single or multiple capital offense(s). For such a person, enter the month and year he or she was found guilty of the capital offense(s) entered in item 6. If a person was convicted of more than one capital offense and received more than one death sentence, not all on the same date, enter the earliest date (month and year) the person was found guilty. If a person was previously convicted for the offense(s) shown in item 6, and that conviction was subsequently overturned — the person was retried and found guilty — enter the most recent month and year of conviction. **Do not** for any of the above situations, enter the date an appeal was rejected or the person was admitted to prison.

Item 13. Date of sentence for capital offense — Enter the month and year the person was sentenced to death. This date must be the same or later than the conviction date entered in item 12.

Item 14a. Inmate status on December 31, 19— Indicate whether or not the inmate was under sentence of death at the end of the report year.

Item 14b. If inmate was under sentence of death on December 31, indicate if the inmate was on escape or at a mental hospital. Enter the month and year of escape or transfer to mental hospital.

Item 14c. Reason for removal from sentence of death — Complete this item **only** if the sentence of death was removed during the report year. Mark the box which most accurately describes how the inmate was removed from sentence of death.

Item 14d. Current status of inmate removed from sentence of death — Mark the one box which most accurately shows the inmate's legal status as of **THE DATE THIS REPORT IS COMPLETED**. If "Under new sentence", enter new sentence.

FROM THE DIRECTOR
BUREAU OF JUSTICE STATISTICS

The Bureau of the Census is collecting data concerning the status of state and Federal death penalty statutes for the U.S. Department of Justice, Bureau of Justice Statistics. The data are collected under the authority of Title 42, United States Code, Section 3732.

The questionnaire on the reverse side of this letter relates to the death penalty laws in your jurisdiction during the period January 1, 1991 through December 31, 1991. Please complete and return this questionnaire to the Census Bureau by February 18, 1992 to expedite timely publication of these data.

Your response to this request is voluntary and there are no penalties for refusing to supply the information. Your cooperation is extremely important to help us assemble an accurate picture of capital punishment in the United States.

If you need assistance in completing the questionnaire, please call Arlene Rasmussen at the Census Bureau, collect on (301) 763-2061. We will continue to mail publications of the final reports to you as they become available.

Thank you for your past and continued participation in this endeavor.

Sincerely,

STEVEN D. DILLINGHAM

FROM THE DIRECTOR
BUREAU OF JUSTICE STATISTICS

The Bureau of the Census is collecting data concerning the status of state and Federal death penalty statutes for the U.S. Department of Justice, Bureau of Justice Statistics. The data are collected under the authority of Title 42, United States Code, Section 3732.

The questionnaire on the reverse side of this letter relates to the death penalty laws in your jurisdiction during the period January 1, 1991 through December 31, 1991. Please complete and return this questionnaire to the Census Bureau by February 18, 1992 to expedite timely publication of these data.

Your response to this request is voluntary and there are no penalties for refusing to supply the information. Your cooperation is extremely important to help us assemble an accurate picture of capital punishment in the United States.

If you need assistance in completing the questionnaire, please call Arlene Rasmussen at the Census Bureau, collect on (301) 763-2061. We will continue to mail publications of the final reports to you as they become available.

Thank you for your past and continued participation in this endeavor.

Sincerely,

STEVEN D. DILLINGHAM
