## **Acknowledgement**

We thank all the law enforcement agencies in the state who participated in the Arkansas Uniform Crime Reporting Program during 1994. Without their support and cooperation, this publication and the resulting overview of crime would not be possible.

## **Dedication**

We are aware that numerous rapes occur that are not reported to law enforcement. This report is dedicated to rape victims who had the courage to report these offenses, and to all law enforcement officers endeavoring to uphold the laws and serve the people of Arkansas.

## Definitions of Rape

The definition of rape in Arkansas, according to Arkansas Code 5-14-103 and as amended by Act 935 is:

A person commits rape if he engages in sexual intercourse or deviate sexual activity with another person:

- A. (1). *by forcible compulsion; or*
- (2). *who is incapable of consent because he is physically helpless; or*
- (3). *who is less than fourteen (14) years of age. It is an affirmative defense to prosecution under this Section that the actor was not more than two (2) years older than the victim; or*
- (4). *who is not his spouse, less than sixteen (16) years of age and incapable of consent because of mental defect or mental incapacity.*
- B. *Rape is a class Y felony.*

The definition of forcible rape in the Uniform Crime Reporting (UCR) Program is:

*Forcible rape is the carnal knowledge of a female forcibly and against her will. Assaults to commit forcible rape are also included; however, statutory rape (without force) is not counted in this category.*

There is a wide disparity between these two definitions. **This report utilizes the Uniform Crime Reporting definition of rape.** The report includes all data collected, with the cooperation of law enforcement agencies from their offense reports, as reported to the Arkansas Crime Information Center in the UCR Program.

Throughout this report, except where noted, rape and attempted rape are combined for statistical purposes.
